The General Assembly of North Carolina do enact, It shall be unlawful for any railroad corporation operating in this State to charge for the transportation of any freight of any description over its road a greater amount as toll or compensation than shall at the same time be charged by it for the transportation of an equal quantity of the same class of freight transported in the same direction over any portion of same railroad of equal distance, and any railroad company violating this section started for Ekowe with dispatches, but shall forfeit and pay the sum of two hundred dollars for each and every of- destroyed and every approach commanfence to any person suing for the same. ded by the military kraals (forts), and SEC. 2. Now read the two sections from chapter 240 of the laws of 1874-'75, in connection with the section offered in Mr. Orchard's bill as section 3, and then that given above as section 4, and the reader has the railroad freight law of the State as enacted by the recent General Assembly. It may be that we read the bill amiss, but what consideration we have been able to give it leads us to the belief that it is fatal to the best interests of the people whom it undertakes to protect,

ARemedy that has been Remedied.

The invincible repugnance felt by almost every one to the smell and flavor of Cod Liver Oil, has prevented tens of thousands of the victims of debility, from reaping the benfits of peculiar healing and nutritive properties. The almost hopeless consumptive the martyr to rheumatism, the bareconsumptive, the martyr to rheumatism, the barely living shadow of men, women and children that emerge from the clutches of malarial fevers, all of these know, or at least their doctors know, that of all discovered remedies, this oil is the best, and often the only one that will build up their wasted bodies, and restore their shattered nerves, and far more effective than the oil by itself is Scott's Emulsion of it, with the Hypophosphites of Lime and Soda. This is the finest and most natural food and medicine in the world, and wholly deprived of its disagreeable qualities.
