HOME PENCILINGS.

The board of county commissioners in session to-day.

The Ladies' Memorial Association hope to be able to announce shortly the name of the orator for memorial day.

THE OBSERVER returns its thanks to the Barbers' club for a very pleasant serenade last night. The club has some first rate voices.

Religious services were held at the Lutheran church last night and will continue every night during the present The comet which is said to be ap-

us on the 10th. It is now said to be visible by the aid of a telescope.

The engine of the Pioneer fire company was disabled at the last fire and is now undergoing repairs. In the meantime the Pioneers are hand-bound.

Policemen report that Five Points is beginning to resemble the pictures of the deserted village. Take the vagrants out of the Points and it is at once deout of the Points and it is at once depopulated.

A movement is on foot which proposes a continental ball on the night of the 20th of May, all dancers to appear in the colonial costumes. The idea seems to meet with general approval.

The work of laying down a granite pavement in front of the postoffice and adjacent buildings has commenced. Now let the whole of the sidewalk from that point to the square be improved in the same way. It surely needs improvement of some sort.

A congregational meeting will be held at Calvary church to-morrow (Wednesday) evening at 7:30 o'clock. The attendance of the entire membership is urgently desired, so we are asked to say, in order that all may know what the church is doing and have a voice in the management of its affairs.

Rev. A. A. Bosnamer, pastor of Tryon Street M. E. church, of this city, will deliver the annual sermon at the commencement exercises of Monroe High School in June next. Rev. J. Henry Smith, D. D., of Greensboro, as previously announced, will deliver the annual address.

Mayor Smith being absent from the city, Maj. Dowd acted mayor at the court yesterday morning, and the only culprit arraigned was the ever faithful and only reliable Clark Hall, who had been banished from the city. Clark was received cordially and treated as any other offender—\$1 and cost.

About ten horses and an equal num-ber of vehicles with a lot of harness, belonging to the late firm of Chambers & Steigall, were sold in front of the court house door yesterday at public auction. The property sold well and was bought by different individuals. The sale attracted quite a large crowd.

The Game Law.

The Monroe Enquirer reminds us that the bird law is now in force. It applies between the 1st of April and the 1st of October. Within this time it is unlawful to kill or shoot, trap or net, any partridge, quail, dove, robin, lark or mocking bird, or wild turkey, under penalty of \$10 fine for each offence. The law applies to the counties of Union, Mecklenburg, Anson, Rowan, Davidson, Warren, Guilford, Rocking-ham, Orange, Caswell and Edgecombe.

The First Thing Needful. It will be generally understood that Capt. T. L. Vail, chairman of the finance committee appointed by the general committee of arrangements for the 20th of May celebration, will have charge of all the funds collected. He requests us to say that it is desirable that the mem-

bers of the committee go to work at once to secure the funds necessary to defray the expenses. Should the funds collected justify it, new and attractive features will be added to the celebra-

A young mother must have some rest. But how is this to be accomplished, when the baby is restless and cries constantly? Simply by using Dr. Bull's Baby Syrup.

More Thieving.

Charlotte's thieves seem to find uses for anything they can get their hands on. Saturday night they entered the carriage house on the premises of Mr. W. J. F. Liddell, and stole two pairs of harness and a saddle, the property of Mr. W. C. Morgan. They effected an entrance by drawing the hasp, and left no clue. An old pair of pants and a shirt were found in the yard the next morning, but whether they were left there by the thief or another who had secured a more eligible change of clothing than the harness afforded, there is no means of knowing.

A Correspondence Showing How All ty Efforts to Secure It Have

Historic to Secure It Have

At the meeting of the mining board last Saturday night the subject chiefly discussed was the previous efforts of the board to procure a mineralogical survey of the South Atlantic States under the auspices of the general government. A petition to that effect was sent to the House of Representatives in January, 1878, through the courtesy of Col. Steele, and by that body referred to the committee on mining; though the

Waylaid and Beaten. Mike Mason, a tailor who works in Mr. M. Lichstentien's shop, reports that he was attacked at the intersection of Tryon and Mint streets, while on the way home Saturday night, by a stout negro man and considerably beaten. Dr. D. O'Donoghue was called to see him yesterday and found that one of the bones of his arm was broken. Mason says that the negro struck at him with a rock which he held in his hand, and that in trying to defend himself he received the blow on his arm. He had previously had a difficulty with a negro up town and thinks that this must have been the man who waylaid him.

Supreme Court Decisions.

Opinions were delivered by the Supreme Court last Saturday in a number of caases, among these as follows in cases from this and adjacent counties:

By SMITH, C. J.:
D. J. & L. Twitty vs. G. W. Logan, from Rutherford. Reversed.
State vs. Hoke C. Secrest, from McDowell. Venire de novo. BY ASHE, J.: Mary Scoggins vs. William Scoggins, from Rutherford. Affirmed. S. A. Newland vs. W. J. Black, from

Mecklenburg. Remanded.
T. R. Waring vs. J. W. Wadsworth, from Mecklenburg. Affirmed. Wilson, Palmer & Co. vs. D. P. L. White, from Mecklenburg. Affirmed.

Coming from Columbia.

We are glad to learn that the arrangements making here for a grand celebra-tion on the 20th of May are attracting attention abroad. "F.," our intelligent and wide-awake Columbia correspondent, writes under date of the 6th as fol-

"The account in THE OBSERVER of this morning of the energectic action of your committees in making timely preparation for the 20th of May, was read with much pleasure by many who purpose attending on this occasion. It is hoped the novel and charming feature of having ladies to join the brigade may be found feasible, and lead to the consideration in our military circles of the propriety of securing to each company the valuable services of one or more lovely and bewitching daughters of the regiment.'

A strong appeal from the Relief As-Sunday in behalf of the destitute in the city. The appeal set forth the fact that there were a large number of applications, many of which came from persons who are sick or totally unable to work, and scarcely any of which the association is able to respond to because it is without funds. Christian people were earnestly asked to aid this charitable work, and were informed that contributions left with the following named persons would be properly applied: General Treasurer of Relief Associa-

tion, C. N. G. Butt, at Traders' National Bank; treasurers in the city wards: Ward No. 1, W. N. Powers; Ward 2 Capt. S. Grose; Ward 3, Rev. J. F. Butt Ward 4, C. Hilker.

A Young Lady Injured.

Saturday afternoon Mr. J. W. Mc-Combs, his wife, Miss Ella Scarr, Miss Sallie McCombs, and a little daughter of Mr. A. R. Nisbet, started to the country in a spring wagon. At a point three or four miles from the city, the rear seat on which were seated Miss Mc-Combs, Miss Scarr and the little girl, proaching the earth will be nearest to | tilted and threw its occupants backward from the wagon. The two last mentioned escaped with comparatively slight injuries, but Miss McCombs was quite seriously hurt. She received a severe cut on the head and a painful injury in the side. Her physicians fear that at least two of her ribs were broken. She was brought back to the city Saturday night and is now quite sick. road at that point is exceedingly rough.

The Recent Success at the King's Mountain Mine.

In reply to an inquiry as to the recent success at the King's Mountain mine, Mr. Arthur Macy gives a reporter of THE OBSERVER the following information: "We struck the front vein of ore which courses this property, on Mon-day morning, March 31st, after toiling steadily for about fifteen months, at a distance of about 130 feet from the shaft on the 270-foot level. The ore is of about the same character as was mined in the old works, excepting that it assays much higher, the assays ranging from \$15 to \$147 per ton of 2,000 pounds. The proportion of sulphurets is not great, giving us a fine free mill-

The sulphurets of iron and copper, and telluride of lead, seem to be the foreign elements associated with the gold. It is well known that our shaft is very wet, but our cross-cut to the vein has been dry giving us no influx of water from the works, which we believe now to be about 35 or 40 feet above us. We have not as yet cut through the vein matter, and have a thickness of about 7 feet in sight. We are now getting our mill ready to reap the reward of our patience.'

Death in the Holman Company.

The Holman opera company having concluded their engagement in Greenville, S. C., arrived here Sunday evening at 6 o'clock and remained over, at the Charlotte Hotel, until 3.20 yesterday morning, when they left for Lynchburg, Va. The route of this company, by the way, has been a remarkable one. the prayer of the memorialists, and Instead of going up the Greenville & would do all he can to further it. The Columbia road from Columbia to matter was discussed in the committee, Greenville, they came from Columbia to Charlotte, went then down to Greenville, and jumped from Greenville to Lynchburg—nearly 300 committee to make a report and permiles. But what we started to mention was that a death occurred in the company on the train between Green-ville and Charlotte, Sunday afternoon. Miss Julia's dog, a venerable bench-leg, with a very round head and a preter-naturally large stomach, had been ail-ing for several days, and in spite of all that could be done for his relief, he weakened and weakened and finally yielded up the ghost. When the sad tidings were communicated to Miss Julia, she lifted up her voice and wept copiously, and all hands on the train, even to the wood-passer on the engine, were visibly affected. The devoted beast was shrouded in a blanket and placed in a basket, which was carried on the arm of one of the male memon the arm of one of the male members of the company, after they left the train, and in this way will be carried to Canada, the home of the family, for interment. Miss Julia is completely prostrated by this blow, and it is not believed by those who witnessed her grief, that she will ever fully recover her spirits—neither she nor her sisters nor her cousins nor her awnts.

THE MINERALOGICAL SURVEY.

the committee on mining; though the attention of the committee was repeatedly called to the petition by Mr. Steele, he was unable to secure any action thereon. Considerable correspondence has also been had with the departments. under which such surveys have hitherto been conducted, in the hope that the scope of these surveys might possibly allow of an extension to this section. Letters to these departments and to Col. Steele have been promptly and cheerfully answered, but no hope was held out of securing such survey at present, though the re-organization of the geological, geographical and min-eralogical surveys of the United States in one bureau, under a responsible head, may in time permit an extension to this section.

It was the feeling of the members of the board that this correspondence might be of some interest, and it was ordered that publication be requested.
The correspondence therefore follows: WAR DEPARTMENT, Washington City, Feb. 21st, 1879.

Geo. B. Hanna, Esq., Charlotte, N. C.: SIR-In answer to your inquiry in letter of the 12th instant, as to whether the appropriations for surveys under the control of the War Department will admit of a survey of the mineral resources of the South Atlantic States, I have respectfully to inform you that there is no appropriation available for use under the Engineer Department for geological surveys of the country generally. The appropriation for geo-graphical surveys under this depart-ment is only applicable to surveys west of the 100th Meridian Very respectfully,

Your obedient servant, GEO. W. MCCRARY, Secretary of War.

TREASURY DEPARTMENT. Office of the Director of the Mint, Washington, D. C., Feb. 17th, 1879.

Geo. B. Hanna, Esq., Charlotte, N. C.: SIR-Your letter of the 12th instant, addressed to the Secretary of the Treasury, making inquiry relative to geologi-cal and kindred surveys under the direction of the Treasury Department, has by that officer been referred to this

In answer I have to say that there are no such surveys under the control of holy. Since the final destruction of the this department. The reports formerly temple of Jerusalem, the passover has Funds for the Poor and Where to Send | made by Rossiter Raymond to which surveys by Powell, Hayden and Wheelsociation was read in several churches er are made under the direction of the Secretary of the Interior to whom your communication should have been addressed. I am, sir,

Very respectfully. R. E. PRESTON, Acting Director.

DEPARTMENT OF THE INTERIOR, Washington, Feb. 19th, 1879. George B. Hanna, Esq., Vice-President of Charlotte Mining Board, Char-

lotte, N. C.: SIR-Your letter of the 12th instant, inquiring relative to the United States geological surveys was referred to Prof. F. V. Hayden, U. S. Geologist. His reply thereto is enclosed. Very respectfully,

C. SCHURZ, Secretary.

OFFICE OF THE U.S. GEOLOGICAL AND GEOGRAPHICAL SURVEY OF THE TERRITORIES, Washington, D. C. Feb. 17th, 1879. Hon. Carl Schurz, Secretary of the In-

SIR-In reply to the communication of Mr. Hanna, referred to me by the secretary for remark, I have to state. that the work of the geological surveys under the Interior Department is confined entirely to the public domain west of the 100th Meridian. North Carolina has had a most excellent geological survey under its own auspices for several years. Mr. Hanna is respectfully referred to Prof. W. C. Kerr, State Geologist of North Carolina, at Raleigh. Prof. Kerr is a very reputable geologist and would undoubtedly be glad to furnish Mr. Hanna the information he desires. The region spoken of by Mr. Hanna is very interesting and impor-tant, and I beg permission to recom-mend Prof. Kerr to the mining com-Very respectfully,

Your obedient servant, F. V. HAYDEN, U. S. Geologist.

HOUSE OF REPRESENTATIVES, Washington, D. C., Feb. 21st, 1879. Gen. Thomas F. Drayton, W. W. Flem-

ming, George B. Hanna: GENTLEMEN-The memorial to which you refer was received, presented and referred to the committee on mines and mining, of which Mr. Bebee, of N. Y., is chairman. I have applied to him more than once, to consider the subject matter of the memorial and, if possible, to make an early and favorable report. He informed me that the proposition was one which he could not favor, for the reason among others, that it contemplated a mining board for only one section of country, and was a novelty in legislation which the committee would not approve. This conclusion I communicated to some parties in Charlotte long ago, and supposed that all could know that I could not accomplish anything in that way. It is true that Mr. Davis is on that committee, but that fact does not argue that the object of the memorialists could be obtained—for any one who understands the mode by which measures are accomplished here, will understand of how little avail that

fact would be. Mr. Davis is personally favorable to tinacity would only operate injurious-

At this period of the session, there can be no hope of action of any kind.
When Congress again meets, I will do all I can to get favorable action, but candor compels me to say I have little hope of such a result as you desire. The zealous efforts of a member of Congress are not always rewarded with sucgress are not always rewarded with success, and if any one believes that he or a half dozen combined, of the ablest men in a district, could bring about whatever they will, they simply overestimate their power and influence. I have done all I can for the benefit of the district. I admit it has not amounted district. I admit it has not amounted to much. Certainly Charlotte has no right to complain, for she has demanded much more of my attention than all the district besides. But I cannot do all which she wants, and I tell you in all frankness, that nobody else can.

I am, very respectfully, Your obedient servant, WALTER L. STEELE.

Clear thought and vigorous action depend upon the perfect condition of system resulting from pure blood. When symptoms provocative of duliness and inactivity present themselves, then use at once Dr. Bull's Blood Mixture.

At the meeting of the board of county commissioners yesterday, seven or eight persons applied for aid as paupers. The board refused to grant the aid asked but offered to send such as were really needy to the county poor house. It was understood that hereafter no aid will be extended to outside paupers who refuse to avail themselves of the privilege of the county poor house, except n cases of a peculiar or very urgent nature. The board transacted no other County Panger business of importance, but will continue its session to-day.

Another Pinafore Company. Manager Ford, of Baltimore, has written to the manager of the opera house in this city for dates for a Pinafore company. Mr. Ford proposes to bring his company to Charlotte about the 15th of April, and says it is composed of forty members. We may assuredly expect something good. The reputation which Mr. Ford has established in the South won't allow of any other sort. Charlotte is fully prepared to hear Pinafore again, especially when presented by a good company.

Gen. M. C. Butler Passed Through.

Hon. M. C. Butler, the senior Senator from South Carolina, passed through this city Sunday via the Central Short Line from Washington Sunday. A few gentlemen who had learned in advance of his coming, met him at the depot and had a brief conversation with the distinguished gentleman. Gen Butles has tinguished gentleman. Gen. Butler has gone to Charleston to assist as counsel in the defence of the parties indicted in the United States Circuit Court for South Carolina, for alleged infractions of United States laws in connection with the congressional election last fall. He expresses the opinion that there will be no dead-lock between the President and Congress over the amended army bill, but that the President will sign it uphesitatingly map its presents. sign it unhesitatingly upon its presenta-tion. This he represents to be the gen-eral impression in the best informed circles in Washington. Gen. Butler will not be absent from his seat in the Senate more than a few days, but upon his return will probably stop in Charlotte for a day or two to visit friends in the city and his sons who are cadets at the Carolina Military Institute.

The Festival of the Passever.

The Hebrew festival of the Passover began yesterday evening at sundown. The festival was instituted by Moses in commemoration of the Israelites remaining intact on the night of the destruction of the first born in Egypt, immediately preceding the exodus from that country (Ex. xii). Originally it was observed by sacrificing passover lambs toward the evening of the 14th of the first Hebrew spring month (now Nisan) and eating them on the follow-ing night, as well as by excluding all leaven from the meals of that evening and the following seven days, the first and last of which were observed as been celebrated by eating unleavened bread during the seven (out of Pales tine during eight) days, by abstinence from labor on the first and last (out of Palestine on the first two and last two) and by the observance on the first even ing (out of Palestine on the first and second) of various domestic rites commemorative of the deliverance from Egyptian bondage, including the recital of Scriptural and lengendary parratives and familiar conversation on the same national event, and the chanting of psalms. In the synagogues and tabernacles learned rabbis relate the miracles which effected the release of the Hebrews from the house of bondage and their exodus from the land of Egypt. The divine promises made to the faithful are the subject of exultant comment, and the rebuilding of the temple and their restoration to Palestine, after more than a thousand years pilgrimage, far away from the Holy City, is drawing near to verify the prophecies they so firmly believe.

Patriotism and Charity.

To the Editor of The Observer:-In your paper of Sunday, I notice an account of a meeting held to arrange for the celebration of the 20th of May, and the appointment of committees to

collect funds for the same. While fully sympathizing with the patriotic feeling which seeks to keep in lasting remembrance the brave and glorious deeds of those who laid the foundation of our liberty and independence, it does seem to me that there are calls for funds which are infinitely louder and more pressing than any such cele-bration. Every member of the relief association has, in the past three months been brought in contact with suffering, want and destitution in this city, which wrings the hearts of those who see it without having the means to relieve it.
Repeated appeals have been made to
our citizens, personally, and through
your valuable paper; committees have
been appointed to solicit funds; gentlemen entreated to assist the association by collecting for it; and the result has been an amount not quite \$200 raised, which has been expended in the relief of over sixty cases, amounting to over one hundred and fifty persons; a treasury at this moment entirely empty, and at least thirty cases of extreme want

and at least timity cases of extreme want appealing for assistance!!

Does not this appeal of living and suffering humanity at our doors, merit answer and relief, before we undertake to commemorate in joyful and costly fashion the deeds of those who have passed beyond the cares, the joys and the screen

rows of this life? I trust the treasurer's report at the next meeting of the relief association will show that while remembering with loving pride those who have passed away from us, we are still as citizens and Christians, mindful of those, who, in the language of our blessed Savior, are "always with us." Charlotte, April 7th,

On the 7th inst., Lent Walker Hunter, infant son of J. N. and M A. Hunter; aged 14 months and 10

BUTTERICK'S

It is endorsed by the direct personal testimony of men of national fame and of strictness of speech. It is not too much to say that no medicine ever had such support in its favor as a specific. The word of any one of the eminent divines who underwrite this antidote to dyspepsia has deserved weight. Their united witness joined with the experimental use and annivaried the preparation by weight. Their united witness joined with the ex-perimental use and approval of the preparation by well-known physicians, removes all doubt. It is, beyond question, a wonderful therapeutical agent. —Editors Beligious Herald, Va. SPRING CATALOGUES And Metropolitan Fashion sheets for April, just received at TIDDY'S BOOK STORE.

March 28, 1879. Professional.

T ER W. BATTLE, M. D. Having removed his office to the first floor over the Traders' National Bank, can be found there all hours during the day, and at his residence cor-ner Seventh and College streets, at night, feb7 3m.

DR. E. H. GREENE.

TENDERS his professional services to the peo-ple of Charlotte and vicinity.
