Mr. Jno. T. Ford had the engagement for his large Pinafore company, on the 19th of the present month, cancelled vesterday. He writes that the theatrical business is so uncertain in the South at this particular season of the year that he is afraid to risk a troupe of six-ty people on the road, and has consequently abandoned the extensive Southern tour he had contemplated. We long for a Pinafore better than the Holmans gave us.

Dwelling and Out-Houses Burned.

A correspondent writes us from Troutman's on the Charlotte & Statesville Railroad, that the dwelling and out-houses of a man named Morrow, near that place, were completely destroyed by fire last Saturday. Mr. Morrow was absent from home, and his two daughters, the only occupants of the house, were unable to save the furniture. The family are left in rather destitute circumstances, but their neighbors are supplying them with the necessities of life.

The com-

formed Presbytery, in session at Sardis church, in this county, were published, and at 7 o'clock yesterday evening the Yorkville Enquirer was neceived here with the proceedings copied from The Orserver in full. This is enterprise which is alike creditable to The Orserver and to its esteemed contemporary, which in all respects is not inferior to any weekly paper published in the Carolinas. Yorkville is nearly fifty miles from Charlotte by rail, but The Orserver reaches that town long before noon, and practically twenty-four hours before any other daily paper. Our South Carolina friends would do well to make a note of this fact.

We have contended to its esteemed contemporary, which in all respects is not inferior to any weekly paper published in the Carolinas. Yorkville is nearly fifty and will remain here that day and the Orserver reaches that town long before any other daily paper. Liability for Fast Driving of Fire En-

It is a matter of local interest that in a Philadelphia court of common pleas last week, the judge decided that the city was not liable for damages in a case where a citizen had been run over case where a citizen had been run over and injured by a fire engine which was being driven in a rapid and careless manner, the principle being that the public good required that the plaintiff should look to the individual who occasioned the injury, and not to the corporation within whose limits it occurred. Similar decisions have repeatedly been rendered heretofore in other cities.

Help the Neptunes.

The Neptune fire company, in an advertisement published elsewhere, ask their white friends in the city to aid them in providing for a festival to raise funds with which to furnish their hall. The company certainly deserve to be rewarded for their punctuality whenever the alarm is sounded, and efficien-cy at every fire. They are nearly always the first to get a stream on any burning building, and work "like Turks." It is to be hoped that their faithful and gallant services will be promptly recognized by the small contribution which they ask.

Director of the Mints Visits Charlotte. Hon. Horatio C. Burchard, director of the United States mints, was in the city yesterday and made an inspection of the mint property here. He was shown through the mint by Col. Cowles, assayer and melter, and expressed himself as being much pleased with the operations of the assay office, and astonished at the quantity and variety of the work done here. His visit to Char-lotte just now is not understood to be of special significance, as he has just returned from a trip to New Orleans whither he went to look after the mint there, and stopped over here on his return. He visited the Rudisill mine during the day and was greatly interested in the operations there.

Calvary Congregational Meeting.

Quite a number of the members of Calvary Mission, in accordance with previous notice, assembled at their to Dr. H. Wilder, \$105. place of worship last night, for the purpose of holding a church conference. Several members of other denominations were present. . The reports of the pastor, class-leaders and stewards were received, and, we learn, gave evidence that the church is on a solid founda-tion, spiritually and otherwise. The church discipline requires that these meetings be held once a month, but, strange to say, this is the first ever held in Calvary Mission. Hereafter, however, a church conference will be held the first Wednesday in each month. The members of the church and others participated in the proceedings, and the meeting passed off very pleasantly.

For Farmers Only.

The following is given by an ex-change as a cure for hog cholera, a dis-ease which has recently prevailed to an alarming extent in Mecklenburg coun-

"Take fresh green collard leaves, beat them thoroughly, stems and all, then express the juice and drench your pigs freely until relieved or cured, and feed your hogs twice or three times a day heavily to the full on green collards for the next six months, and you will have fine healthy hogs to fatten." But then, who is able to fill such a

prescription and drench the blessed little pigs? Our farmers had better begin in time and plant alternate rows of cotton and collards if they would save their grunters.

A General Invitation.

The committee of invitation of the 20th of May celebration held a meeting yesterday afternoon and decided to extend a general invitation to the citizens of North Carolina and of adjacent States to visit Charlotte and participate in the festivities of that occasion. All organizations, whether military or civic, will be welcomed. The committee desire to say that while the purses of the citizens will not bear the stress necessarry to provide for the style of entertainment which we would like to extend to visitors, still all will be gladly received from whatever quarter they may come. It is to be hoped that the day will soon come to be generally observed throughout North Carolina, and that all persons who do not see fit to celebrate it at home will come to Charlotte and join in with us.

Holy Thursday Services at the Cathelic Church.

The religious services at the Catholic church to-day (Holy Thursday), will be comemorative of Christ's entry into the Garden of Gethsemane, with the three apostles, to pray that the cup which the Father had given Him to drink might pass from Him, and of the watch which the disciples were told to keep when it was said of them that the Spirit is willing but the flesh is weak." Three persons will be in the church throughout the day, watching and praying, the members of the congregation performing this service in alternate hours, while the scene of Gethsemane will be illustrated on the altar. In some churches the priests wash the feet of twelve poor persons in the church, in imitation of Christ washing the feet of the apostles, but the custom, we believe, is not observed here. The services on Holy Thursday, and during the remainder of Holy week are of a peculiarly solemn and interesting character.

Hemicide in Union.

A passenger on the 8.20 train from Wilmington last evening reports that the body of a white man, who was killed the evening before near Monroe, was brought into the town yesterday. He gathered no particulars except that the man was shot down in the road by another man, with whom he got into a difficulty relative to the powers of speed of their respective horses, and that the slayer succeeded in making his escape. An effort was made to obtain further particulars of the tragedy last night by telegraph, but as the office at Monroe cless about the time the chickens go to roost, it was impossible to communicate with the town.

Railread Gossip. There is a remarkable lull in railroad circles just now. The freight business

is growing lighter, and the passenger business remains about the same. There is some talk of a general change of schedules about the middle of the present month or the first of next, but nothing definite is known. The change will probably not take place till the through mail (the White Star Line) is put on the line via Charlotte. There have been no developments in

connection with the union depot. We were told that the work would be begun in the spring, and behold one month of the spring has gone.

County Matters.

At the meeting of the board of county commissioners yesterday, a petition was read from citizens of Lemley's township, asking that the citizens thereof be allowed the privilege of voting on the question of establishing the prohibitory liquor law for that township. The petition being signed as required by law, the election was ordered o take place on the first Thursday in

partially assimilated by the blood. Pale, haggard mortals, with dyspeptic stomachs, impoverished circulation and weak nerves, experience a marked and rapid improvement in their physical condition by availing themselves of that sure resource of the sick and debilitated, Hostetter's Stomach Bitters. This genial tonic and alterative lends an impetus to the processes of digestion which insures an adequate development of the materials of blood, fiber, and muscular tissue. Moreover, it soothes and strengthens overwrought or weak nerves, counteracts a tendency to hypochondria or despondency, to which dyspeptic and bilious persons are peculiarly liable, and is an agreeable and wholesome appetizer and promoter of repose. The infirmities of age, and of delicate female constitutions, are greatly relieved by it; and it is a reliable preventive of, and remedy for, malarial fevers. apr2 1w

The disgust so generally felt for the taste and smell of Cod Liver Oil is almost proverbial. It seems to be peculiarly nauseous to the consumptive and scrofulous patients, to whom the whole medical profession know it is specially beneficial. Endeavors have vainly been made to disguise its objectionable characteristics, by mixture with coffee, brandy, or by the process of deoderization, which impairs its efficacy as a nutrient.

A Really Beneficent Discovery.

A Remedy that has been Remedied. A Remedy that has been Remedied.

The invincible repugnance felt by almost every one to the smell and flavor of Cod Liver Oil, has prevented tens of thousands of the victims of debility, from reaping the benfits of peculiar healing and nutritive properties. The almost hopeless consumptive, the martyr to rheumatism, the barely living shadow of men, women and children that emerge from the clutches of malarial fevers, all of these know, or at least their doctors know, that of all discovered remedies, this oil is the best, and often the only one that will build up their wasted bodies, and restore their shattered nerves, and far more effective than the oil by itself is Scott's Emulsion of it, with the Hypophosphites of Lime and Soda. This is the finest and most natural food and medicine in the world, and wholly deprived of its disagreeable qualities.
