The following extracts will be read with interest by many persons in Charlotte and elsewhere, friends and acquaintances of the subject of them:

The Raleigh Observer says: "John A. Wilson died in Charlotte at noon yesterday. A telegram received here yesterday from Mr. W. L. Springs, a cousin of the late R. A. It will accordingly arrive at 12:40 tonight. The particulars with reference to the funeral will be announced tomorrow.

### Appointment of a Receiver.

Judge Schenck having decided at chambers, in the case of T. H. Gaither vs. A. R. Kelly, of Mocks ville, Mr. Kelly took charge of the factory a few days ago and it is now in operation.

A Nuisance that Can be Remedied, A city correspondent writes as follows: "Can you not stir up our city authorities, or street commissioner, or whoever is the right party, to have the noxious weeds moved down on the sidewalks, vacant lots, and railroad banks. The odor of the dog fennel is sickening, and the crop of thistle, dock, fennel and other pests is awful for the gardener to contemplate, as he thinks of the seeds to be wafted into the gardens, so laboriously kept clean."

The adaptability of the car itself for this purpose has already been described. Mr. Joseph Fischesser is sole agent in this city for the brewery, and has a standing order for one hundred kegs a week. Of course seventeen other will step in and say that they had blooms several days ago, but this sort of thing wen't do. It is a well established fact that the first cotton bloom is never allowed to develop, but is born to fade and waste its sweetness on an editor's table. The women testified that they were in the house with Dal Thrower who was lying in bed ill from the effects of the wound which Kingsbury had inflicted, from dark till a late hour, and Dr. Meacham testified that he had remained at the house from 10 or 11 o'clock till the next morning. There would not be so many little graves in cemeteries and churchyards, if parents used the means within their seach to save the sickly offspring, whose span of feeble life is in their keeping. The busy baby brain requires constant food, the sensitive nerves want steady toning, the rapidly changing tissues, incessant nourishment, eiten the mother is herself nervously debilitated, and bodily worn out; mother and children may gain a new lease of life and health, by the persistent use of Scott's Emulsion of Pure Cod Liver Off with the Hypophosphites of Lime and Soda. It is softer, and as nice as milk, and both will learn to love it just as well. Don't fall to try it for any form of debility, and for all forms of infantile wasting, such as Marasmus, Ricketa or any scrofulous tendency, its restorative powers are wonderful.

Few people understand how large fortunes are amassed so rapidly in stock operations, Messrs. Lawrence & Co., Bankers, N. T., have just published "two unerring rules for success," and full details, so that any one can operate. Mailed free. Their new combination system of dealing in stocks is wonderfully profitable. By this method thousands of orders, in various sums, are pooled into one immense capital, and co-operated as a mighty whole, thus securing to each shareholder all the advantages of vast capital and best skill. Profits divided every 30 days. \$15 would make \$75 profit, \$100 would return \$1,000, or 10 per cent. on the stock in the month, and so on, according to the market.
