Red hot some more.

People yesterday were talking principally about Arctic seas, Polar bears, mountain caves and things.

An unmailed letter addressed to Alick Johnson, Charlotte, remains in the Wilmington postoffice.

Yesterday was the hottest, according to the signal station reports. The mean temperature was over 88.

Trips to Bellemont Spring have been unusually popular for the last few days. It is one spot around Charlotte to which the heat does not penetrate.

A festive chicken-embertzer visited the coop of a citizen of "Stumptown," night before last, and relieved it of several of the feathered tribe.

There was no session of the mayor's court yesterday morning, and no occurrence yesterday which was calculated to disturb a peaceful serenity.

It is stated by persons who know that there is a young man in the first society in this city who can stand flat-footed and turn a somersault.

The name of the impostor who has been advertised by the people of Olin, Iredeil county, is T. W. Lindsay, and not L. W. Lindsay, as has been printed in the newspapers.

The police have murdered only four dogs thus far. They report that the owners of collarless canines have learned to keep their dogs tied at night, when the slaughtering must take place, and allow them to run at large in the day time. Last year a reward of 25 cents was awarded for each dog captured or killed, but this year the whole of the slaying must be done by the policemen.

Accommodations for Excursionists.

Mr. H. C. Eccles will kindly open up the dining room of the Metropolitan Hotel to-day, to such persons as come in on the stockholders' train bringing their own lunches with them. Chairs and tables will be provided and visitors will thus be furnished a pleasant place where they can enjoy their dinners and take a rest and all without any charge whatever. Doubtless many of the excursionists will avail themselves of Mr. Eccles's courtesy and appreciate it.

Acknowledgment.

The managers of the entertainment for the Home and Hospital desire to return sincere thanks for the assistance given them in their undertaking Tuesday evening. Their labor was lightened and made a pleasure by the cordial kindness and liberality of all to whom they applied for help. The lawn party was by this universal kindness made a success. The receipts were \$124, the expenses about \$30. This will relieve the institution from all debt except about \$20.

TRY PEAR

A PROSPEROUS CITY

At the Other End of the Air-Line Railroad—A Glance at Atlanta.

One of THE OBSERVER scribes was permitted to look in upon the city of Atlanta, in enterprise and commercial activity one of the leading cities of the South, and destined to still farther and more rapid improvement and enlargement. It was during the hottest days and they have had there, and in what is known as the dull season elsewhere, but it was neither especially hot nor at all oppressive. Atlanta is rapidly growing without cool breezes, particularly during the night; by the activity and everlasting stir of its people, there is or never appears to be anything like a dull season. The city is rapidly growing, and it is not surprising that it is rapidly growing, and it is not surprising that it is rapidly growing.

The petition of D. M. Sifford and others, praying the board to establish a public ferry across the Catawba river, to be known as Sifford's Ferry, and also to lay off public road, to lead from the upper Fuchsage road, near Wm. Hartgrove's, to said Sifford's Ferry, coming on to be heard, and it appearing to the satisfaction of the board that the advertisement has been made as required by law, and that the petition order issue from the board to the sheriff of the county, commanding him to summon a jury of good and lawful men, to lay off said road, assess damages to land owners, and report his proceedings to the board.

The following named persons were drawn as a jury for the third week of the Superior court, to-wit: A. H. Hartsell, J. S. Davidson, W. C. Foad, W. C. McCord, W. N. Prather, T. L. Alexander, J. C. Johnston, E. W. Kinley, J. L. Davis, W. A. Williams, J. H. Irwin, W. G. Knepp, S. Rowe, G. L. Johnston, Thos. A. Cathey, W. G. Garrison, S. F. Quey, M. M. Moore, Geo. Jordan, W. L. Cochran, Wm. Dennis, H. H. Capps, E. W. Grier, W. A. Gillespie.

The jury drawn for August term of the Inferior court is as follows: D. N. Mitchell, R. C. Cochran, S. W. Rea, Wm. Hoover, J. G. Shannonhouse, E. P. Cochran, R. B. Pippins, S. M. Gallant, J. W. Stevens, J. M. Morris, Jacob Hoskins, S. H. Blankenship, R. W. Egan, moreland, H. J. Stansil, S. A. Jordan, L. A. Hipp, J. M. Reid, W. G. Hodges, G. Watson Sloan, B. L. Alexander, R. H. Flow, Thos. Improvements. An addition, and a very decided improvement, was made in the large store of Wittkowsky & Baruch by the erection of an arcade in the rear of the room, projecting out twenty or thirty feet. The floor thus formed is used exclusively for clothing. It adds very materially to the space of the store, and instead of detracting from adds to its appearance. There are to be other attractions in the counters, etc.

The Railroad Meeting To-day. The directors of the North Carolina R. R. Co. and the committee on proxies were in session yesterday preparing business for the annual meeting of the stockholders which is to take place in the court house at 11 o'clock to-day. They will hold a meeting again to-day at 10 o'clock. The stockholders' train, unless unexpectedly delayed, will arrive in the forenoon, and will leave late in the afternoon. The meeting will be a large crowd of course, as these trains are always jammed. It won't be at all warm for the stockholders and their families on the train!

Alleged Cure for Whooping Cough. We referred yesterday to the prevalence of whooping cough among the children in a certain section of the city. Since then we notice the following in a newspaper, claimed to be a remedy for the malady: "Take the child to the gas works, when the process of making gas is going on, and permit it to inhale the fumes as long as it is deemed safe. It is said that the experiment has proved it complete success in every case in which it has been tried—the child invariably returning home cured."

Spain and the South Coast War—Attacks on the Spanish Government. MADRID, July 9.—In Congress yesterday the Minister of the Marine stated that the government had no intention of sending a man of war to Chilian waters, as Spain had in connection with either of the belligerent republics, Senor Castellar, continuing his speech in advocacy of the punishment of the authorities of Puerto Platz, for insulting the Spanish flag, urged that the public press be permitted to discuss freely all important questions, and he incidentally characterized the government of restoration as reactionary. He said he knew of no restoration which had prevailed against a revolution, for it was impossible to govern against the wishes of the people. It is to be remarked that there have been other and similar attacks on the government by members of the opposition lately.

Registered Matter—Important Regulations. Among the latest regulations issued from the Postoffice Department, is the following: Postmasters and their employes are forbidden to address a registered package for the sender, to place contents therein, or to seal a letter or affix stamps—this must in all cases be done by the sender; but they must not fail to see that the stamps cover the full amount of postage and registry fee, as when registered matter is received at a postoffice for delivery not having necessary stamps affixed to cover the postage and fee, it is not to be rated up for collection from the person addressed, but must be delivered without any charge. The postmaster receiving such a package will report to the Third Assistant Postmaster General, the additional amount of stamps which should have been affixed, and the same will be "collected from the postmaster who received the package of letter" for registration and forwarded it without the necessary postage stamps affixed as required.

COUNTY COMMISSIONERS.

Proceedings of Yesterday's Meeting.

The board of county commissioners met again at the court house yesterday. Present, all the members. The minutes of Tuesday's meeting were read and approved. The supervisors of public roads, under the signature of Wm. H. Hartsell, all appeared with one exception, and were sworn in. The law was read and the supervisors instructed upon such points as were not clearly understood. A petition signed with names, asking for a change in the public road on the south-west side of the city, so as to run straight through the Torrence property from Trade street, was presented, and action upon it postponed until Friday.

C. L. Gibson, for listing taxes in Paw Creek township, was allowed \$20; and J. W. Hood, for similar service in Morning Star township, was allowed \$15. The petition of D. M. Sifford and others, praying the board to establish a public ferry across the Catawba river, to be known as Sifford's Ferry, and also to lay off public road, to lead from the upper Fuchsage road, near Wm. Hartgrove's, to said Sifford's Ferry, coming on to be heard, and it appearing to the satisfaction of the board that the advertisement has been made as required by law, and that the petition order issue from the board to the sheriff of the county, commanding him to summon a jury of good and lawful men, to lay off said road, assess damages to land owners, and report his proceedings to the board.

WESLEYAN FEMALE INSTITUTE, STAUNTON, VA.

We direct attention to the advertisement of this popular seminary. It is located in one of the healthiest climates in the world. It presents attractions unsurpassed. Its better prospects than any other school of the kind, and its beautiful grounds, attractive, scenery grand. This school is attended by boarding pupils from seventeen different States. This school requires strict economy, especially in dress. With these advantages, we are not surprised that this popular institution enjoys a national reputation and draws its pupils from all sections of the Union.

The Duffy Mine. Mr. Rhyne, the owner, and Mr. Richards, the lessee, of the Duffy mine, in Gaston county, were in the city last evening, with glowing accounts of the mine. The best specimen of operations was caused by the necessity which arose for sinking a new shaft in order to get rid of the foul air in the mine, and after this causing a delay of twenty days, the mine is being again operated with a full force and with better prospects than ever before. The amount received for toll last month, when the mine was not run more than fifteen days—not however, from want of ore—would pay 8 per cent on \$1,000 or \$1,000. Monday is represented now as in splendid condition, and a ten-stamp mill run during the 36 hours ending Tuesday evening, took up 502 pennyweights of amalgam from the plates outside of the battery. Yesterday 1000 pennyweights were taken up, and Mr. Richards claims that he can make the mine average this amount per day. He confidently asserts that it is the best mine in North Carolina.
