

LOCAL INTELLIGENCE.

RAILROAD DIRECTORY.

The following table shows the running of the passenger trains to and from Charlotte, on all the rail roads (Washington time):

Table with columns for destination (Richmond & Danville, Atlanta & Charlotte Air-Line, etc.) and arrival/departure times.

INDICATIONS.

WAR DEPARTMENT, OFFICE CHIEF SIGNAL OFFICER, WASHINGTON, July 14, 7 30 P. M. For the South Atlantic and East Gulf States, easterly winds, partly cloudy weather, occasional light local rains, stationary temperature, slightly higher pressure.

Local Report for Yesterday.

Table with columns for Barometer, Thermometer, Relative Humidity, Wind-Direction, Velocity, and Weather.

Meteorological Record.

Table with columns for Stations (Atlanta, Augusta, Charleston, etc.) and weather conditions (Fair, Cloudy, etc.).

Wm. E. Atkinson—Charlotte Institute, Porter Wight & Co.—\$1200, Western Gun Works—\$1000, etc.

HOME PENCILING.

The Red Rose Quintettes to-morrow night. Several very neat dwelling houses are going up just now.

Charlotte got through with the hot weather without a single sunstroke, so far as reported.

The clerks in the North Carolina and Air-Line depots talk and sing at each other through Edison's improved telephone.

A physician says if one thinks Charlotte is a clean city, let him walk through her streets, almost any of them, at 4 o'clock in the morning.

The magistrates had quite a number of minor cases yesterday morning, small trassases, family quarrels, &c. No one was sent up.

The last of the settlers has been put out of the leading den of "Five Points." The house will be fenced off and rented to decent colored people.

No king, emperor, or even railroad magnate ever commanded so much homage and respect as the ice man has done during the past week. It will not always be thus.

A citizen of Wilmington went up to Cleveland, and after staying there a few days, ate a chicken and a half and seven biscuits for supper. The water will give the veriest dyspeptic an appetite.

The communication suggesting that the ministers of the city churches make special prayer at the Sunday services for rain, came too late for publication. Let everybody now return thanks for what we have had.

The Charlotte party of three gentlemen who started over the mountains on horseback returned Sunday. It was awfully hot, so they put their horses on the train and returned, and a wise man won't venture to say anything to them about the pleasures of the horseback mode of travel through the mountains.

Tom Carrow, a colored employe of the Air-Line Railroad, went into Five Points Saturday night and tried to clean out the roost. He said he was the wild man of the Air-Line, and that the town couldn't hold him. About 12 o'clock two policemen held him, and yesterday morning he was put on the street with a ball and chain attached to his leg.

The Healthful Showers.

A sigh of relief went up from many a heart when the rain came Sunday afternoon. It is not sufficient for the needs of the farmers, but has greatly revived the parched and drooping crops. The rain was quite local in character, but during the showers of yesterday and the day before, it is believed that nearly all the surrounding country has received more or less.

Dance at Bellefont Park.

We are authorized to state that there will be a dance at Bellefont Park this afternoon, beginning about 6 o'clock and lasting until dark, or afterwards if the dancers choose. The grounds have been cleaned off, and the platform is in good condition. Mr. T. L. Jones, charge of affairs of the park, guarantees good order, and will furnish all the refreshments that may be required. This dance will be followed by another next Friday afternoon.

The Heat of a Spotted Sun.

A correspondent writes: "The numerous sun spots visible in an informed eye, are according to the latest theory, openings in the incandescent photosphere which surrounds the opaque body of the sun, and occasioned by electric storms of immense magnitude. Should we, perchance, happen to see too much of his body, we would see it, and we would not see it, for we would be changed in the twinkling of an eye, and the world be filled with a new creation adapted to its altered condition." This settles it. Knew all the time it was lightning! Henceforward let us beseech an over-ruling Providence that the photosphere may never be disturbed again while we are in reach of the sun's rays.

A Card.

To all who are suffering from the errors and indiscretions of youth, nervous weakness, early loss of manhood, &c. I will send a recipe that will cure you. FREE OF CHARGE. This great remedy was discovered by a man of great South America. Send at once to the REV. JOSEPH T. INMAN, station D, New York City, Jan 25.

Don't Advertise.

A city subscriber writes as follows: "In the absence of advertisements of the railroad companies, please oblige some of your subscribers, by informing Asheville for the summer, via the Atlantic, Tennessee & Ohio and Western North Carolina, and via the Air Line and Spartanburg and Asheville; also, the price of excursion tickets on the 22nd."

Rev. E. A. Wingard.

The Charleston News and Courier of Saturday contains the following complimentary notice of a Charlotte minister: "This eloquent and popular young divine resounded the city yesterday, and is to supply the pulpit of the Wentworth Street Lutheran church for a few months, whilst the pastor, Dr. Dowman, is absent for his health. Mr. Wingard is endowed with gifts as poet and orator that will cause many of our citizens to embrace this opportunity to wait upon his ministry."

Chief Marshal.

The executive committee of the Carolina Fair Association have selected Major Iredell Jones, of Rock Hill, S. C., chief marshal of the annual fair to be held this year in November. Major Jones is a gentleman of large business experience and a practical farmer. A native of North Carolina, he cannot but feel a deep interest in the success of the fair, and will doubtless be the means of bringing our next exhibition a large number of South Carolina citizens will have the appointment of the assistant marshals.

From the Mines.

Messrs. Chatard & Motz, owners and operators of the Brewer mine, came up this week with another lot of gold which has been turned over to the assayer. They report first rate progress. During the recent diggings, they have come across a lot of tin ore, about 75 or 80 per cent mixed with the gold ore. The presence of tin in this section of the country is unusual, but the combination with gold is more remarkable. They have as yet made no efforts to develop the tin-bearing qualities of the mine, being, at the present at least, satisfied with their progress in getting out gold.

Training for the Fall Races.

Arrangements were begun yesterday at the fair grounds for training the young blooded horses owned by persons in this city and county for the race track. It was their first intention to send them to Raleigh with the expectation that they would first run there, at the State fair in October, but it has been found more expedient to train them here. There are a half dozen or more of them, two and three year olds, all of the very best blooded stock. They will be in charge of Mr. E. H. Woods. The track will be thoroughly overhauled, and put in good condition before any running is done.

In this connection may be mentioned the fact that an effort will be made to have races on the track here, some time during the fall.

Personal.

Mr. B. R. Smith returned from New York Sunday, and will spend a few days in the city with his brothers. Mrs. Jackson and daughter leave today for the Buffalo Lith Springs, Va., where it is their purpose to spend the summer. Mrs. Jackson will spend next year in Baltimore with her daughter who will be a pupil of Mrs. Carey's school.

Mr. Robt. Morrison recently returned from the Louisville Medical College where he went to attend a course of lectures with a view of entering upon the practice of medicine. He took both courses at once and will begin immediately to practice his profession. He will probably locate in Gaston county, at or near Tate's factory.

Amateur Minstrels.

An event of considerable local interest will come off to-morrow night, when the Red Rose Quintette minstrel company will make their first appearance. They will give a minstrel performance in the opera house, beginning at 8 o'clock, and continuing until 12 o'clock, which will be in all respects similar to those given by regularly organized traveling companies. The members have been practicing at different times for some months, and during the last few weeks have been rehearsing regularly. It is regarded that they have attained a remarkable degree of proficiency in song, dance and character sketches. There are also in the club some first rate musicians. It has fifteen regular members, all of whom will be on the stage to-morrow evening. The performance will doubtless attract a large crowd. The price of admission is 25 cents; for children, 15 cents. The programme will be given to-morrow.

The Approaching Theatrical Season.

The theatrical season will open this year about the usual time, and the prospects for the South are excellent. As Charlotte generally gets most of the companies that visit Richmond, the following from a paper of that city will be of interest here: "The regular season at the theatre will open as early as August 25th with a gigantic minstrel troupe, followed by Wyman, Fay Templeton, and Ford's Children's Pinafore company. The regular season will open September 1st with the Adah Richmond Troupe, and so far the following companies are booked: The Union-Square Company in The Banker's Daughter, The Florences, Milton Nobles, the Emmet, Abbott's English Opera Troupe, Frank Frayne in St. Slocum, Maggie Mitchell, Eliza Weathersby's Frolics, John McCullough, Robson & Crane, Rice's Evangeline Company, Adelaide Nelson, the Oates Comic Opera Troupe, Frank Bangs in Daniel Druce, Fanny Devont, the Fifth-Avenue Fatinitza Opera Troupe, Lawrence Barrett, Lilliputian Opera Troupe, and so far not less than four Pinafores."

Charlotte Institute.

It is announced that the next session of the Charlotte Institute begins September 10th and ends June 10th, 1880. The success of the first year of the Institute under the very efficient management of Rev. W. R. Atkinson is sufficient guarantee of what may be expected of it in the coming collegiate year. All its departments are kept up to a high degree of excellence, and Charlotte feels that at last it has an institution for the education of young ladies which is in all respects worthy of the place. The school is preliminarily in the hands of the principal in forming his corps of teachers associated with him those whom this community has often and for a long time tried and found wanting in no excellence. While his combining with other schools seemed to be a pooling of the schools and scholars of the town the principal has not "made a corner" in education, nor put up his terms; on the contrary his prices are the same as those heretofore charged. The principal especially claims that the institute is as economical a boarding school as any first class institute in the State, and says that he is pleased to convince parents that it is not more economical to send elsewhere. This is an important consideration to those for whom it is more convenient to send to Charlotte than to any other place.

Improvement of Church Buildings.

A committee has been appointed to make arrangements for and superintend the work of improvement of St. Peter's Catholic church. The building is to be made higher, the steeple to run to the height of seventy feet, and the front of the church to be improved and beautified. The congregation is small, but they have determined to spend between \$1,500 and \$2,000 in these improvements, which will add greatly to the appearance of their church. It is designed that the work shall be done during the present summer.

Trees Killed by the Hot Weather.

A gentleman just from Edgefield, S. C., reports that on the road between that place and here, he saw and examined a young forest apparently undergrowth from which the large trees had been cut, which had been completely killed. The only explanation is the extremely hot and dry weather, which the young trees, by reason of having been previously protected in a measure by the larger ones were, unable to stand. The same occurrence is alleged to have taken place at another point on the Charlotte, Columbia & Augusta, Railroad.

A New Mail Route.

WASHINGTON, July 14.—Gen. Brady, acting Postmaster-General, to-day closed the contract for the carrying of a mail tri-weekly from Bayou Sara to Red River landing, to connect with the steamers Cannon and Gay. This service vice and that from the Red River landing to Shreveport will begin August first.

A Banker Sunstruck in St. Louis.

St. Louis, Mo., July 14.—Wm. J. Lewis, a prominent merchant and banker of this city, was prostrated by the heat at Carondelet, six miles below here this morning, and died in 20 minutes. Mr. Lewis belonged to the firm of Barthead, Lewis & Co., bankers, was president of the Commercial Bank and one of the most active and influential business men in the city.

The Anti-Keogh Leaven Working.

WASHINGTON, July 14.—The President to-day suspended Thos. Powers, collector of internal revenue for the second district of North Carolina, and appointed in his stead Elisha A. White.

DIED.

Of cholera infantum, July 13th, at 11 o'clock, p. m., at the residence of Mr. James Davis, Virginia Lee Savage, infant son of N. L. Savage, age 6 months. To this is the second case of cholera infantum in this city.

Case Attainable by the Rheumatic.

Yes, although they may despair of relief, it is attainable by the use of a certain remedy which carries off, by means of increased activity of the kidneys—important channels for blood purification—excess of uric acid, the pathological element which produces the painful symptoms—some of which come out by urinary analysis. The name of this grand preparation is Hostetter's, a preparation likewise celebrated as a remedy for constipation, which causes contamination of the blood with the bile—and a certain degree of relief in dyspepsia, fever and ague, and nervous ailments. It is, perhaps, the most valuable extant, and is highly recommended as a medicinal stimulant by distinguished and experienced physicians who pronounce it to be eminently pure and very beneficial. The press also endorses it.

Yes, I am Proud of the Name—Woman's Best Friend.

To relieve the aching heart of women and bring joy where sorrow reigns supreme, is a fore which the smiles of kings dwindle into utter indifference. To do this is the special province of Dr. J. Bradfield's Female Regulator, which, from the numberless cures it has accomplished, is appropriately styled Woman's Best Friend. The distressing complaint known as the "whites," and various irregularities of the womb, to which woman is subject, disappear like magic before a single bottle of this wonderful compound. Ask your druggist for it.

New Advertisements.

CHARLOTTE INSTITUTE. NEXT SESSION BEGINS SEPTEMBER 10TH. AND ENDS JUNE 8TH, 1880.

Undertaking.
