AMONG THE MOONSHINERS.

What Has Been Done in the Way of Breaking Up Illicit Distilling.

Col. W. H. Chapman, revenue agent in this district, was in the city yesterday. In the course of conversation with him relative to "moonshiners" in the district, he said that he had just been figuring on the seizures in the district for the fiscal year ending June 30th, and found that they footed up as follows: 1,000 cases of illicit distilleries seized, 905; number of stills, 180; extra caps and worms, 22; beer tubs, 4,367; number of gallons of beer, 354,450; gallons of singlings, 4,616; number of gallons of whiskey, 2,793; gallons of pomace, 2,500; barrels of meal and malt, 450; number of wagons seized and sold, 13; horses and mules seized and sold, 22; number of pounds of tobacco, 18,393 all of which has been sold, the proceeds going to the Treasury. In the course of the conversation Col. Chapman remarked that there were few distilleries in the United States that afforded such opportunities for distilling, or such inducements to persons to become "moonshiners" or illicit distillers. The whole western part of the district, more especially, was supplied with fruit, corn and plenty of water easily utilized—all that is necessary to make the whiskey except the will and the still. He thinks that there is yet considerable illicit distilling going on, but states that the facilities now afforded for discovery are breaking it up, there being better than at any time in the history of this business in this part of the country. This, it is claimed, is chiefly due to a growing sentiment against the practice, and to the fact that there are now so many government distilleries—those that pay the license—that the owners will not allow those who do not pay to run in opposition to them.

Excursionists Passing Through.

The excursion from Wilmington to the head of the Western North Carolina Railroad, arrived in the city last evening at 7:30. There was a small crowd on board—considerably less than one hundred—and the crowd received very few accessions here, as the excursion had not been advertised in this locality. There were frequent inquiries about it during the day, but no one could tell anything about prices, the time of the stay in the mountains, &c. The train was attached to the regular train on the Statesville road, and left at 9 p. m. It will arrive at the tunnel this morning for breakfast.

The Sharon Picnic.

There is one thing that the rain didn't succeed in doing, and that was breaking up the Sharon picnic. Notwithstanding the unfavorable character of the weather, a large number of excursionists had been secured yesterday, and a pleasant day was made of it until the people were driven in by the rain. The minister was present and thanks were returned for the regular train on the Statesville road, and left at 9 p. m. It will arrive at the tunnel this morning for breakfast.

The Recent District Conference at Concord.

Of the recent session of the Charlotte District Conference, at Concord, the proceedings of which have already been published in this paper, a correspondent writes as follows: "Eighty-eight representative men of the churches, elected by their respective quarterly conferences, including pastors in charge and local preachers who are ex-officio members of the district conference composed this conference complete. "There were some absentees on this occasion, though the representation was good, no pastoral charge being without a representative. Every interest of the church was carefully 'looked into' by the faithful, vigilant and excellent presiding officer, Rev. W. H. Boyd, D. D., who dispatches business with remarkable ease, infusing into all the exercises life and spirituality. He is dignified, patient, kind and impartial, but very firm in his attitude as a church lawyer, commanding and receiving the respect and admiration of the entire body. "It has been my fortune to attend several district conferences, and take pleasure in saying that they were more harmonious, pleasant and apparently profitable proceedings than those of this session; not a single jar, jostle or even dispute throughout; all was Concord and harmony, verily."
