THURSDAY, AUGUST 7, 1879. THE OBSERVER AND THE BAIL-

ROAD SYSTEM. The Asheville Journal is solicitous to know why it is that THE OBSERVER has ceased its discussion of "the North Carolina system," intimating that a change has come over the spirit of its dream and that it has dropped the matter "for cause." The intimation does the Journal discredit and THE OBSER-VER injustice. We had some things to say and said them. Why go over the same ground daily thereafter? When some reply demanding a rejoinder, is made to the articles which have already appeared in these columns on the subject in question, the Journal and all others interested will find out as quickly as they care to whether this paper has changed front or been bulldozed into silence. Meantime does the Journal suppose that we are ambitious for Jo. Turner's reputation of re-vamping the "old editorial" and presenting it with slight changes in phraseology every day in the year?

And now that the occasion has arisen to refer to the matter again, we may appropriately say a word as to the bearing of those articles upon Gov. Jarvis and his chances for re-nomination. It has been charged that they were written in the interest of another party whose interest it is to tear Gov. Jarvis down. No charge was ever more groundless. They were written in the interest of nobody except the people. THE OBSER-VER has no candidate for Governor. Whenever it has it will let its readers know, and right now it lets them know, mere name, United States. if they have read it all these years in vain, that it conducts no guerrila warfares. It is nothing if not open and above board, and if the friends of any other gentleman think that in saying what it has of Gov. Jarvis, it has given itself away to their man, they may wake up some fine morning to find themselves mistaken. Nothing was said of Gov. Jarvis in connection with this railroad business that would not have been said of any other man occupying the same position who had pursued the same policy. We may add, par parenthesis, that there are editors who consider that it is just as disreputable in a journalist as in an individual to take short cuts and do underhanded things, and when people come to realize this, if they ever do, they will be a little slower than they now are in the absence of proofs in charging newspapers with sinister motives.

MR. RAYNER ON THE RAMPAGE. Our whilom fellow-citizen, Hon. Kenneth Rayner, is always getting into new parties, new offices, and new troubles. It has not been long since he had a fight in Washington with a newspaper editor; shortly after that he got into a jangle with some of his superiors which came near losing him his position. Now he has transferred the scene of combat to far-away Texas, and, as the Galveston News says, "condescends to villify Collector Pease and the city of Galveston for the apparent purpose of retaining his son in the position of deputy collector at Houston." The letter, the News further says, "places the solicitor of the treasury in a most unenviable light, and the attention of his superiors might very reasonably be given to the circumstances and the general significance of this escapade, unless they are wholly indifferent to the decencies of the civil service and to the morale of the treasury department. However, the object of the letter-to maintain young Rayner in office miscarried, it is stated, he having been removed though the office which he held was not abolished.

THE OTHER OX GORED.-A Southern fool starts anewspaper and in it preach. es secession, a new war, and annihilation to all Unionists. Northern Radical papers represent him as an able, elegant and influential gentleman, representing fully the sentiments of his section, and commending him for his candor in speaking sentiments which all his neighbors hold, but which few have the courage to express. But, lo! a fool arises in the Northwest, and says the States must be wiped out and converted into provinces, chartered by the general government; provided, however, that no charter shall be issued to any State which has been in rebellion. Whereupon, the National Republican, which has always been first man on the back, whistles the Lamars man down the wind by saying: "Some rattle-head has got hold of a little weekly paper in Iowa, and is trying to rival the Okolona States." Aha! A "rattlehead" when this sort of thing come home to you. The boot is now on the other leg.

IMPEACHMENT IN GEORGIA.—Comptroller-General Goldsmith, of Georgia, in office. A majority of the committee to whom the matter was referred decided in favor of this course, and specified sixteen different counts, coming in afterwards with two additional counts, while at the same time a minority report was submitted, opposing the taking of steps against the comptroller. The House of Representatives by a large vote ordered the impeachment

NEWSPAPER CHANGE.-The stockholders of the Petersburg Index-Appeal have transferred all their right, title and interest in the paper to Mr. R. P. Barham, who has for some time past been the paper's leading spirit, and he now assumes sole charge as editor and proprietor. We congratulate him upon succeeding to the ownership of so fine a property. The Index-Appeal is an able, high-toned, newsy paper, and we trust it may continue to prosper under Mr. Barham's management.

Col. Walter Clark, of Raleigh, has remembered us with a copy of the South Pacific Times, of Callao, Peru, giving an account of the progress of the South American war.

A CLEAR SET-OFF.

It is a square stand-off between the maniac of the Okolona States and the driveling idiot of the Lamars Sentinel. The public has come to know the Okolona fellow pretty well. He wants all the Yankees killed or banished, the Confederacy established within the next day or two and Jeff Davis inaugurated President. The Radical papers quote him weekly and Congressman Frye is his agent; these have given him what notoriety he enjoys. The Lamars Sentinel rooster is a recent product. Lamars, it should be understood, is a town or village somewhere in Iowa, that sweet-scented commonwealth of the Northwest, and its Sentinel man has it just as badly on the stalwart side as the Okolona knave has it on the "rebel" side. He is a centralizationist, "with all that the name implies," and this is the way he lets drive. Taking for his text, "We are a Nation," he thus discourses:

Step to the front, stalwarts, and show what it means to be a nation. Change the name-call the nation America or Columbia

Then abolish the States. The moral and political revolution that preceded the war declared this republic a nation-not an aggregation of States.

The war confirmed it.

If this is a nation, there are no States. If there are States, then there is no

The two cannot co-exist. But this is a nation, therefore the States have ceased to exist. Whatever recognition the former States receive from the nation is a national menace.

Therefore, States, as such, must disappear from the nation and the national legislature. The national Senate must either be abolished or transformed. The Senate is infinitely more dangerous to our national existence than the

The Senate is a tangible concern, and even formidable recognition of States

and of State sovereignity.
So long as it exists in its present form it is a threat against national sover-The great work of centralization, or nationalization, which is the same thing, imperatively demands the instant suppression of the Senate as a

representative of equal rights. If we are to be a nation we must dare to be logical—and stalwarts are logical. With Grant in the White House we would show the rebel brigadiers what it is to be a nation.

After abolishing or so changing the Senate that it did not represent States, we should lengthen the presidential term to ten years and let Congress elect the President. We would abrogate all the so-called constitutions in all the so-called States,

change the names to provinces or departments, and permit them to conduct their affairs under charters granted by No charter would be granted to any

State that had participated in the rebellion during the present generation. All laws passed by these provinces or departments would be subject to veto by the President and his Cabinet. In other words, this great republic

would be a nation, with all that that Of course no rational Southern man believes that this fool represents anybody but himself, and no square and candid Southern man will try to create the impression that he reflects public sentiment in the North, but in the economy of nature nothing is lost and it may be that even the Lamars fellow was not born altogether in vain The South can pit him against her own idiot, and when the Radical newspapers copy Okolona with a hand too free, instead of replying to them or to him the Democratic press can insert a clipping from Lamars. The appearance of this new factor in politics reduces the situation to just this: either the Radicals must let up on the Okolona States or else they must embrace the Lamars Sentinel. They must not attempt to repudiate their own jackass and then try to make us responsible for the braying of ours. The thing can't be done.

THE FINLEY MATTER. That arch enemy of the "Nation," Mr. Finley, of South Carolina, has probably joked himself out of a second lieutenancy in the army. He is a nephew of Senator M. C. Butler. He applied to the President and to the Secretary of War for one of the second lieutenancies soon to be filled. He was accepted, and meeting shortly afterwards with an an acquaintance who asked him how he came out. he responded that he had gotten the place notwithstanding he was "a d-d rebel." The youth said this with a laugh and his aquaintance went off and magnified the circumstance and young Finley is in hot water all around. However, he will be more careful hereafter how he discharges his mouth in Washington, especially since, as the Washamong those to pat the Okolona States ington Post remarks, he was "a redhand rebel" of eight years when Zach. Chandler was leading the retreat from Bull Run.

THE GLOVER REPORT.-The New York Star publishes an extra edition containing the full text of the Glover report. It occupies forty-two and a paper, and is printed word for word as | more are supposed to be in the pit. prepared by ex-Congressman Glover is to be impeached for misdemeanors himself. This report—one of the most important documents of its character that has ever been promulgated-is destined to have a large circulation and to do effective service in the national campaign of next year.

The Maryland Democrats. BALTIMORE, August 6.-The Democratic State convention to nominate Attorney-General and clerk of the Court of Appeals, assembles in this city tocandidates for Governor, Comptroller, and things look badly for the comptrol-ler-general.

Attorney trends and clerk of the court
of Appeals, assembles in this city tomorrow. There is no opposition to
Hon. Wm. T. Hamilton, of Washington county, as the party candidate for Governor, and he will probably be nom-inated by acclamation. Mr. Hamilton was United States Senator from this State, his time expiring in 1875. For comptroller and attorney-general the present incumbents will be nominated.

Three Persons Killed and Three Wounded by a Boiler Explosion. ALBANY, August 6.—At 4.30 o'clock this afternoon the boiler of the engine Sacramento, which was having its safety-valve gauged in the Boston & Albany Railroad round-house at Greenbush, exploded, instantly killing three men and wounding and scalding three others. The engine was thrown 40 feet, turning completely over in the air.

CLEANING NORFOLK OUT.

Lunch and Lapping Up the Fire Water.

NORFOLK, August 6.—Norfolk has been thronged with visitors who arrived last night from North Carolina. They represent the mercantile and various other branches of the trade of every section of that State, and come here as guests of the merchants of Norfolk, who were desirous of extending their business relations to points they have not heretofore reached, and of becoming personally known to many with whom they have been doing business. Ample provision was made for the entertainment of the excursionists while here. They were welcomed by the mayor at 1 o'clock to-day, andimmediately afterwards sat down to a banquet spread for two thousand guests. After partaking of the repast various toasts were prepared, which were responded to in a graceful and appropriate manner by Hon. John Goode, Mayor Jno. S. Tucker, and others, of Norfolk, and Judge Hilliard and others, of North Carolina. This afternoon the excursionists embarked on board the steamers Florida and Banks and were carried to Old Point where they will remain and witness the dress parade and then re-embark for a ride to the

THE KENTUCKY ELECTION.

The Vote Lighter but the Democratic Majority About the Same.

LOUISVILLE, August 6.—The unofficial but definite returns from about 50 counties show a falling off of about one-third in the aggregate vote, but about the usual Democratic majority. The Republicans have made legislative gains but the General Assembly that two years ago was 114 Democratic on joint ballot, continues Democratic over 100. Blackburn's majority for Gover-nor is variously estimated at from 20,-000 to 40,000. The vote recommending the call for a constitutional convention, though supported by both parties, undoubtedly failed of the required constitutional majority. The election was unusually quiet all over the State, no serious difficulty being reported. The Greenbackers have certainly elected two members of the lower house of the Legislature, but their aggregate vote is insignificant. In this county Blackburn gets 6,961, Evans 4,049. At the last gu-bernatorial race McCrary, Democrat, received 9,706, and Harland, Republican,

WHAT THE FEVER IS DOING.

Eleven New Cases and One Death at Memphis Yesterday-Prominent Pa-

MEMPHIS, August 6.-Fleven new cases of fever were reported this morning, 5 white and 8 colored. Among the former are W. B. Richards, E. D. Harris and Mrs. Leak. One death has oc-curred since last night—Elizabeth Fleetch, at 234 South street. The city remains remarkably quiet, but one ar-rest having been made during the past twenty-four hours. Rev. Father Faher, Ed. Moon, and the wife of Chief of Poice Athey, continue to improve. The weather is clear and warm.

Fines Against a Packet Company Remitted.

WASHINGTON, August 6.—The Secretary of the Treasury has approved the opinion of the solicitor of the treasury and decided to remit all fines and penalties incurred by the vessel of the Memphis & St. Louis Packet Company by carrying an excess of passengers during the exodus of colored people from the States of Mississippi and Louisiana.

Strikers Reject Overtures of Peace.

READING, PA., August 6.-The Reading Hardware company recently made a proposition to their striking moulders about 140 men, to increase their pay and give them the price list. The proposition was considered at a meeting of the men last evening and unanimously rejected. They struck for an advance of 25 per cent. and price list and refuse to accept less. They are receiving help from moulders at other places.

Germany, France and Thiers's Statue Paris, August 6.—It is understood that the German government has offered no impediment to the inhabitants of Metz, who wish to attend the fetes at Nancy, on the occasion of the unveiling of the statue of the late M. Thiers. The French government, to avoid any semblance of fomenting agitation on the fronter, will not be represented at the forthcoming demonstrations in hon or of the late M. Theirs at Belfont.

The Detroit Regatta.

DETROIT, August 6.—At a meeting of the citizens and the Detroit river navy, last night, it was decided to hold open to all the amateur regatta at this city August 27th and 28th. Prizes valued at from \$1,200 to \$1,500 will be given. The Shoewaccaemettes, Waho-wahsum, Wyandotte and other crews will probably participate in the four-

A Ferrible Fall.

CHICAGO, August 6.—The scaffolding on the dome of the new music hall, up-on which six men were working, fell this morning, precipitating them 60 feet to the ground. Five of them were terribly injured.

A \$100,000 Fire in a Canadian Town Ovillia, ONT., August 6.—A disastrous fire occurred here last night, destroying more than twenty buildings in the very heart of the town, and causing the loss of property to the amount of \$100,000.

Thirteen People Browned in a Mine. LONDON, August 6.-Water has burst into the Luding Glaeck mine, at the Seabeze collieries, in Prussia. Two half columns of the fine type of that corpses have been recovered and eleven

BRIEF FOREIGN ITEMS.

Official reports state that the grain in the south of France has been harvested in excellent condition, and that in the north and west a good average crop may be expected. English treasury bills to the value of £1,476,000 sold Tuesday at 13 1-16 per cent. per annum for three months bills and 151/8 per cent. for six months bills.

A Handsome Specimen. The following is one of many cards that have at ested the honesty of the distribution of the outsiana State Lottery Company:

384 Canal st., New York, June 28, 1879. The undersigned certifies that he was the holder of one-tenth of single-number ticket No. 35.495. Class E., in the extraordinary drawing of the Louisiana State Lottery, which drew the capital prize of one hundred thousand (\$100,000) dollars, o Tuesday, June 17, 1879, said ticket having cos the sum of one dollar at the office of M. A. Dauphin, 319 Broadway, New York City, and that the amount was promptly paid in full on presentation of the ticket at the office of the company in New Orleans.

[SIDORE LICETERSTEIN, Orieans. ISIDORE LICHTENSTEIN,
The next drawing will take place August 12s and the reader can gain any information on app cation to M. A. Dauphin, P. O. Box 692, New Celeans, La., or same at No. 319 Broadway, No York City.

Jul 29 1w

What is Hay Fever ?

ase Attainable by the Rheumatic. Hostetters, a preparation likewise celebrated as a remedy for constipation, which causer contamination of the blood with the bile—and a certain means of relief in dyspepsia, fever and ague, and nervous aliments. It is, perhaps, the finest tonic extant, and is highly recommended as a medicinal stimulant by distinguished physicians and analysis who pronounce it to be eminently pure and very beneficial. The press also endorses it.

Something New Under the Sun. A new era is dawning upon the life of woman. Hitherto she has been called upon to suffer the ills of mankind and her own besides. The frequent and distressing irregularities peculiar to her sex have long been to her the "direful spring of woes unnumbered." In the mansion of the rich, and in the hovel of poverty alike, woman has been the constant, yet patient victim of a thousand ills unknown to man—and these without a redemy. "Oh Lord, how long!" in the agony of her soul hath she cried. But now the hour of her redemption is come. She will suffer no more, for Dr. J. Bradfield's Female Regulator—Woman's Best Friend—may be relied on to cure all the diseases peculiar to women. Try it and be convinced.

A Card. To all who are suffering from the errors and in-discretions of youth, nervous weakness, early de-cay, toss of manhood, are, I will send a recipe that will cure you, FREE OF CHARGE. This great remedy was discovered by a missionary in South America. Send a self-addressed envelope to the REV. JOSEPH T. INMAN, Station D. New York City.
