The Three Deaths. [All the Year Bound.]

Lay the dead Hope amid the flowers to rest, Smooth tenderly the daisled turf above it; Watch by the grave by memory's rays caressed. Recalling how we used to guard and love it; From its sweet dust fresh fancies may awake, Till a new d ream its gentle semblance take.

Though passionate tears fall fast as Summer rain,
Where the dead Love lies in eternal sleep;
Though life and joy may never wear again
The glory buried with it, dark and deep;
Just for that dead thing's unforgotten bliss,
A chastened charm may soothe a watch like this. But when the shrine where we have garnered up Trust, pride, devotion, shivers at our feet;
When peison, lurking in the loving cup,
Turns into stinging gall what was so sweet;
What solace broods above such bitter death?
What future comforts us for murdered Faith?

On the festive youth of the period. An old fellow whose daughter had failed to secure a position as teacher in consequence of not passing an examination, said: "They asked her lots of things she didn't know. Look at the history questions! They asked her about things that happened before she was born! How was she going to know about them? Why, they asked her about old George Washington and other men she never knew. That was a pretty sort of examination!"—Box. Adv.

THE TWIN RAILROADS.

Reports Upon the Condition of the Augusta Vir Line--Election of Offi-

The annual meeting of the stockholders of the Raleigh & Gaston Railroad was held at the company's office in Raleigh Wednesday. The Observer, of that city, prints the proceedings. Maj. J. W. Scott presided. The report of the president, J. M. Robinson, was quite satisfactory. It referred to the late three per cent. dividend and expressed the hope that a similar dividend will be paid an-nually in future.

Elections were held to fill the various offices for the ensuing year, as follows: President, John M. Robinson, Baltimore, Directors—W. J. Hawkins, W. W. Chamberlaine, P. C. Cameron, Jos. B. Batchelor, Walter Clark and R. S. Tucker. The last named gentleman was elected in place of L. W. Barringer, of Philadelphia. These directors are elected to act for both roads. Maj. John C. Winder was continued as superin-superintendent, and Maj. W. W. Vass as treasurer.

From the president's report upon the condition, etc., of the road it is learned that the receipts for the past fiscal year, ending July 31st, which extended over the period of fourteen months, were: from freights, \$223,217.69: from passengers, \$65,474.72; from mails, \$5,953.83; from miscellaneous sources, \$404.81; a total of \$295,051.05. The expenses for the same period were \$225,767.34, leaving a balance of \$69,283.71. For the corresponding months last year the receipts were \$272,906.88, showing an increase of \$22,144.17. Two additional locomotives have been added to the rolling stock, by purchase, and the sum of \$30,903.26 has been expended for steel

The report upon the condition, etc., of the Raleigh & Augusta Railway states that for the fourteen months ending July 31, 1879, the receipts were: Freight \$88,722.92; passengers, \$27,830.05; mails, \$21,733.20; miscellaneous, \$307, a total of \$119,593.18. The expenses were \$82,-906.41, leaving a balance of \$36,626.67. For the corresponding months a year ago the receipts were \$100,182.43, showing an increase of \$19,410.75. Satisfactory arrangements have been made with the Carolina Central Railroad for the transportation of freights. Two accidents, both causing loss of life, occurred during the year, but the com-pany's servants were not blameable for

What is Being Done at the King's Mountain Mine. To the Editor of The Observer;

I had the pleasure a short time ago to visit the mines of the King's Mountain Mining Company, located about two miles from King's Mountain Station on the Air-Line Railroad, and was much pleased and gratified by the visit. The company owns some 700 acres of land, within and near to King's Moun-

tain, and have expended large sums of money to put their mine on a paying basis. The new shaft, now 300 feet down, has struck the vein which produces now some 18 to 20 tons of ore daily, and will shortly be in shape to produce 80 to 100 tons of ore. The old shaft has been cleaned out and supplies the new shaft with an abundance of fresh air. The tunnel to the new shaft, 40 feet down, is also complete, and a tram-way under construction. At present only one-fourth of the stamp mill (40 stamps) is used, but the mine is now leaves and stamps) is used, but the mine is now leaves and stamps) is used, but the mine is now leaves and stamps of the latest and not proper evidence, as it was anterior to the election. Mr. Arthur Macy, the superintendent, seems to be the right man in tendent, seems to be the right man in the right place and reduces his work to a system. He is bound to succeed. With such a stirring, pushing president as Pennsylvania's famous war governor, and heavy New York and Philadelphia stockholders, there is but one result in view, viz: Success! Let us hope that many other such companies will be formed that are able and willing to spend money and await the results.

spend money and await the results.

The military display at the fair will not be so brilliant as usual. There will not be a large number of companies not be a large number of companies present. None are ordered out, as no encampment is to be held, as was the case in 1877 and 1878. Several commands will parade, the Durham Light Infantry among them. The Raleigh Light Infantry will also parade. A majority of the companies will be represented by their rifle teams in the contest for the flag, which is anaually awarded the team making the best score at 200 yards. It is thought that the Norfolk City Guard will be here, though this is not definitely known.

WINSTON & MORESVILLE ROAD.

Directors' Meeting-Transaction of Important Business.

The board of directors of the Winston, Salem & Mooresville Railroad met at the call of the chairman at Mocksville, Tuesday, the 30th ult., and we are glad to be able to state, in the absence of the official proceedings, upon the authority of the Mooresville and Rowan directors, that the directory are in good spirits, and had the wisdom and courage to take some important steps towards the prosecution of the work.
In accordance with the wishes of nearly all concerned, and certainly with the interests of the road, the directory ordered its location to Huntsville

on the Yadkin, fifteen miles beyond Mocksville, and it is very gratifying to know that bona fide pledges are already made that will construct the road-bed to that point. Huntsville is, we believe, about thirteen miles from Winston, and nearly due west of it on the Yackin. The board further appointed a committee to wait upon the commissioners of Rowan county, and call for the \$6,000 in bonds authorized by Scotch Irish township. These will be issued, for there is no way of dodging it, and will complete the road-bed from Third Creek to the South Yadkin.

The grading from Mocksville to the South Yadkin will be complete in a few weeks, and indeed there is no reason, why with a moderate and steady effort, the first thirty miles shall not be graded

in a very short time. Fifteen per cent. of the subscriptions have already been called for, and it was ordered that the whole of the remainder be immediately called for, as far as Huntsville and to be paid in money or taken in contracts. The board further called a meeting of the stockholders at Mecksville, for the 19th of November, when there will be a reorganization of the board, and

probably the election of a president.

MINING MATTERS. Reports of Operations in Rowan, Montgomery and Chatham.

Sallsbury Watchman. has sold the Holtshouser mine, and turned his hands right into another adjoining the same property, which he is also confident will prove a success. Mr. F. R. Williams, of Covington, Ky., is the purchaser of the Holtshouser mine, which he and his associates propose to work with additional facilities. Mr. Hovey is now developing what is known as the Hanes mine. He has a shaft of 50 feet, a good vein and a cheering pros-pect. This will be the fourth mine Mr. Hovey has opened in this vicinity, and in which there are at this time nearly two hundred hands busily employed.

Montgomery County Cor. Salisbury Watchman. Hon. Benjamin Wilson, of Wilson-burg county, West Virginia, has been spending several days at Flaggtown, inspecting the works of the Beaverdam Mining Company. We learn he goes home well pleased and will send down

another engine at an early day.

John Lyon, a Spaniard, had the good fortune, a few days ago, to "wash out" a nugget of gold weighing fifty-six penny-weights. This nugget was found in the Island Creek "diggings," on the land of Mrs. M. A. Smith. At the Worth mine, Alexander Dennis found two nuggets weighing respectively ten and eighteen pennyweights. and eighteen pennyweights.
