THECOMING FAIR IN CHARLOTTE.

On Tuesday, November 4th, the annual exhibition of the Carolina Fair Association will be held at the fair grounds just outside the southern limits of the city, and from present indications it promises to be the largest and best that has ever been held in Charlotte. The plan of selling annual tickets at prices within the reach of every- ter were delivered by Gen. W B. Taliabody, and then allowing the helder to bring with him every member of his family, without further charge, seems to have worked well, so far, and will probably be continued. Last year the system brought, and this year it promises to bring, a very large crowd together. When it is known for certain that there is to be a large crowd at a fair, this will bring a large number of exhibitors, and the exhibitors, and the sight-seers, if the number be large enough, always make a successful fair. Last year everybody predicted that the fair must be a failure, because the organization had fallen into new and untried hands, but the neophites girded first blood of the Revolution, up their loins, and determined that there was no such word as failure in their vocabulary. A magnificent success crowned their labors in every point | crowd in attendance. of view. This year the association is

virtually under the same management, and the officers have been giving the details their attention for several hundred dollars in bank, ready to be name is legion) which must be incurred | man said: before the gates of the fair grounds can be thrown open.

Again, this year, everything considered, has been a magnificent crop year. The small grain which ripened in June was pronounced to be the best that has been harvested for several years. The season in the main has been favorable for a good corn crop. Although there was a protracted and publicly to insure the defeat of drouth during the summer, the rains Grant beyond peradventure. eventually fell in time to prevent seri-

Well-informed politiciaus doubt whether he has any such purpose, and play. A detachment of the North At-lantic squadron was present to add to be accomplished it is now too late; that the dignity of the occasion, and the a peace at this late day would almost certainly be construed by the people as the fruit of a bargain, and that it would be detrimental rather than beneficial to Governor Robinson. It is altogether probable that the great fight will go right on. The Cornell scratchers are gathering strength and headway, and most of the political prophets find the situation so complex that they have about given up prophesying as to the result of the election. On the other hand the Kelly men are positive that Senator sachusetts, Adjutant General Latta, of Hill's mission is to try to make some Pennsylvania, Col. John N. Staples, of Sort of a truce. They say that Mr. Helly met his advances in such a peremptory manner as to settle the question then and there. They report Mr. Kelly as saying: "I went into this fight to beat Samuel J. Tilden, and, now that I am sure of victory, I see no reason for backing out.' They say in adition that Tilden made the advances because he was becoming He claimed that she had the honor of frightened. It may be said, however,

Ease Attainable by the Ebeumatic.

Yes, although they may despair of relief, it is attainable by rheumatic sufferers, for there is a remedy which carries off, by means of increased activity of the kidneys—important channels for activity of the kidneys-important channels for blood purification-the acrid element to which pathologists the most eminent attribute the painful symptoms-a theory completely borne out by urin-ary analysis. The name of this grand depurent is Hostetters, a preparation, which causer contamina-tion of the blood with the ble-and a certain means of relief in dyspepsia, fever and ague, and nervous aliments. It is, perhaps, the finest tonic extant, and is highly recommended as a medicinal stimulant by distinguished physicians and analysts who pronounce it to be eminently pure and very beneficial. The press also endorses it.

To make it strictly a first-class agricultural and mechanical fair, for the promotion of healthy farming, and the display of the products of the farm and our workshops, has been the steady aim of the promoters of the association. With these objects in view the society ought to have, and we believe will have, substantial encouragement from every progressive citizen in Western North Carolina. We trust that we shall not be disappointed and that we shall have a fair that will be remembered for years to come.

"A GENTLE BELLE."

"Have you read Miss Fisher's last?" is one of our provincialisms. It is said that this is the query with which awkward young people, just going into society, break the silence when it becomes oppressive. Well, we have not "read Miss Fisher's last." We see it mentioned, however, in the literary department of the Philadelphia Times, and as we have much confidence in that paper's judgment we append its criticism, nothing doubting that it is fair and just:

Christian Reid is not a powerful writer, but she has an easy, gentle way of telling a story that is at once entertaining and soothing; the more so because | will doubtless be extreme pressure unit always is a story in which the plot is der the October corner and that sinister not burdened by dark and harrowing complications and in which the incidents for the most part are within the limits of human credulity.
