THE CENUINE

In Candahar when a young woman becomes sweet on a young man she sends him a hair-pin, meaning, "that is the kind of a hair-pin I am." If the young man is like Barkis, he pins a hand-kerchief in his cap with the hair-pin, signifying, "You can bet your sweet life I am on it worse than an Injum." This amounts to an engagement, and a notification to all the felks of the fact, and then they get married. This plain and simple way of doing business saves a deal of swinging on the gates, burning kerosene of of nights, buying ice-cream and standing the liveryman off for buggles. DR. C. Hepatitis, or Liver Complaint,

DYSPERSIA AND SICK HEADACHE.

Symptoms of a Diseased Liver. PAIN in the right side, under the edge of the ribs, increases on pressure; sometimes the pain is in the left side; the patient is rarely able to lie on the left side; sometimes the pain is felt under the shoulder blade, and it frequently extends to the top of the shoulder, and is sometimes mistaken for rheumatism in the arm. The stomach is affected with loss of appetite and sickness; the bowels in general are costive, sometimes alternative with lax; the head is troubled with pain,

accompanied with a dull, heavy sen-sation in the back part. There is gen-erally a considerable loss of memory, of having left undone something which ought to have been done. A slight, dough is sometimes an attendant. The patient complains of weariness and debility he is easily startled, his feet are cold or burning, and he complains of a principle sensation of the plains of a prickly sensation of the skin; his spirits are low; and although he is satisfied that exercise would be beneficial to him, yet he can scarcely summon up fortitude enough to try it.
In fact, he distrusts every remedy.
Several of the above symptoms attend
