

The Charlotte Observer.

CHAS. H. JONES, Editor & Proprietor

ENTERED AT THE POST-OFFICE AT CHARLOTTE, N. C., AS SECOND-CLASS MATTER.

SUNDAY, NOVEMBER 16, 1879.

THE NECESSITY FOR MR. THURMAN IN PUBLIC LIFE.

In the course of a lengthy editorial, in its issue of Friday, discussing the character, abilities and public services of the distinguished senior Senator from Ohio, the New York Sun says: "Looking forward to this coming contest between the corporations and the people, the services of Mr. Thurman are needed in Congress, and a movement is on foot to send him to the House of Representatives from the Columbus district, where he resides. That district is now Democratic, and though the new Republican Legislature will doubtless gerrymander the State, it is questionable if they can change its political character. Mr. Thurman is said to be averse to this suggestion, but he should bear in mind that John Quincy Adams, after having been President, considered it an honor to represent his people in the House of Representatives. "Mr. Thurman served in the House thirty-four years ago. A generation has passed away since then, but he is still strong, clear-headed, able to do good work, and well equipped for the great battle of popular rights against corporate arrogance. Such men cannot be spared from Congress at a time like the present."

The suggestion of the possibility of Mr. Thurman's return to public life will excite the liveliest pleasure everywhere. Whatever mistakes he may have made (and what man is there who never errs?) weigh as nothing against his long, brilliant and honorable record of service to the people. He is with good cause regarded as one of the very greatest men of his generation, and his retirement from the Senate will be nothing short of a public calamity. We have to-day no public man who could not be better spared from the councils of the nation. Within the last quarter of a century the Democratic party has lost no man from public life whom it could not better have spared. Senator Thurman will but add a lifetime's reputation for wisdom and patriotism if he will accept the lower station which we are informed above he can have without the asking if he will only take it.

HELPING THE BAYARD BOOM.

The New York Herald evidently entertains a very genuine admiration for Senator Bayard, otherwise why should it desire to help his boom? It discusses him in an editorial article a column and a quarter in length in its issue of Thursday, and it is worth while to note what it thinks of him and of his prospects. Senator Bayard seems the sole political survivor of the Democrats who have heretofore been talked of in connection with the presidency, if we except one or two popular generals who are destitute of experience in important civil trusts. The President should be a man whom long service at the national capital has rendered familiar with the practical operations of the government. Mr. Bayard is the only Democrat thus qualified who has not become a "lame duck," either by yielding to the inflation heresy or by disastrous and humiliating defeat in his own State. And again, the following, while neither very complimentary nor very encouraging to the party, must certainly be very pleasing to Mr. Bayard and his friends, and is entitled to a measure of consideration: "The Democratic prospect is not flattering at best. It is more than doubtful whether the party could carry New York even if Mr. Bayard, and without New York defeat is certain. But defeat with Bayard would leave the party in a far better condition than defeat with any candidate who is less respected. The Democratic party has many false steps to retrench before it can deserve success, and there is no way in which it could so convincingly return to the sound Democratic principles which it has deserted as by nominating the one distinguished man who has kept the faith and never swayed from his convictions. * * * They may be unable to elect Mr. Bayard, but they can elect him if anybody. The fact of running him would re-establish the party on its ancient foundations, giving it strength and dignity as a position, and paving the way to solid success when it shall have retrieved its shattered reputation under wise leadership, with restored unity and better discipline. There is no other prominent Democrat of whom the Herald would speak so well as it does of the Senator from Delaware—it would say because none other deserves to be thus spoken of. Does it represent the sentiments of the class for whom it professes to speak? the great mass of the independent thinking people of the North? those who elect Presidents and make and destroy parties? If so, enough said. Bayard is the man for the Democrats to nominate. He is acceptable to the Democrats of the South. If the Herald can prove that its views of the man are the views of the people whose views it is supposed to reflect, it will do Mr. Bayard the service of securing his nomination for President next year."

Excitement Over the Maine Legislative Embroglio.

AUGUSTA, Nov. 15.—The rumors in regard to the Governor and Council in regard to the count on the Republican majority in the Legislature are exciting general attention. Notices were filed with the government yesterday for hearings in the disputed cases in Franklin, Lincoln, Penobscot and Washington counties. It is reported that no hearings will be allowed in the disputed cases but certificates will be issued as already determined. A carefully compiled list shows that the Republicans have 80 members in the House and 1 vacancy by death, while the Democrats have 61 in the same branch. In the Senate the Republicans have 19 and the Democrats 12.

Gatherings in Gotham.

NEW YORK, November 15.—Eleventh annual Slosson 300 Garner 68. The highest run of Slosson is 107. The Cohen family, arrested on suspicion of setting fire to the tenement house, were discharged on account of lack of evidence of incendiarism.

The Churchman Burned Out.

NEW YORK, November 15.—Marshall H. Mallory, of the Churchman, was burned out yesterday. He says the engines are better type, machinery and engines are between \$40,000 and \$50,000.

Examining Harbors.

NEW YORK, November 15.—A. S. Hatch and W. M. Dunn, of the Chesapeake and Ohio Railroad have spent the past few days examining the harbor at New York, New York, and vicinity, and to the final terms of their road.

Assistant Secretary of State.

WASHINGTON, Nov. 15.—Col. Jno. Hay, former private secretary to Assistant Secretary of State, has been appointed Hon. F. W. Seward, resigned.

Happiness and Good Health.

Dr. Bull's Cough Syrup. It cures, and costs only 25 cents.

THE PENALTY OF TRUTH TELLING.

It is right hard for a fellow to know always just what to do. Here, for instance, is "Hon." Allen Rutherford, of North Carolina, who has been booted from the Southern Republican Association, at Washington, for saying that the organization was perfected for the purpose of securing fat offices. If "Hon." Allen Rutherford had lied about this thing nobody would have believed him, and now that he has told the truth he is cast out of the synagogue by his associates, and made to feel disagreeable. The part of safety for him in the future, as doubtless he realizes by this time, is to keep his mouth shut.

THE GREAT STAPLES.

Condition, November 1st, of Cotton, Wheat, Tobacco and Corn.

WASHINGTON, Nov. 15.—The following is the condition of cotton, wheat, tobacco, and corn, as issued by the Department of Agriculture to-day: COTTON. There was a decided increase in the condition of cotton during the month of October. Unfavorable weather was reported in Georgia and Alabama. In all other States it was favorable. The returns indicate a yield per acre of 170 pounds lint, against 161 last year. This yield, estimating the area of planting at 2 per cent. more than last year, would make a deficit in this year's crop of 200,000 bales of 450 pounds each. All the South Atlantic States show the same decline. Texas falls off 35 per cent. All the States bordering on the Mississippi river show decided gains.

WHEAT. Returns of November 1st to this department show an increase in the wheat crop of 20 millions bushels over that of last year. This great increase is the result of a very large yield in the States bordering on the Ohio river and Missouri. The Northwestern States show little variation from last year. Kansas and California both decline in yield. Texas, of all the Southern States, is the only one that falls off in yield this year.

TOBACCO.

The indicated product for the entire country is 98 per cent of that of last year. The greatest increase is in Tennessee, Connecticut and New York, the largest losses in Ohio, Missouri and West Virginia, with a material decrease also in Maryland, Illinois and Indiana. In general quality it is better than that of last year. The principal crop of tobacco to some extent from "house burn" is reported in Kentucky and Virginia and from frost in Ohio.

CORN.

According to returns, November 1, corn promises an increase of over 200 million bushels or nearly 15 per cent. over last year. The Atlantic and Gulf States note some decrease, but the other sections of the Union have greatly increased their yields. The Southern inland States increase nearly 30 per cent. and other sections of the Mississippi Valley nearly 20. The Pacific States report about the same yield as last year.

CRIME IN KENTUCKY.

Regulators on the Path.—They Issue a Proclamation Announcing Their Purposes.

CINCINNATI, O., Nov. 15.—A special to the Register states that Lewis Scoggs has been convicted of the murder of Waddell, in Elliott county, Kentucky, and sentenced to eight years imprisonment. Judge Riddler refused a new hearing and the case is to be appealed. The prisoner was removed from the county jail for fear the regulators would shorten the sentence. The regulators in northeastern Kentucky have issued a proclamation fashioning the declaration of independence. It recites that in view of the reign of assassination, robbery and rapine which has lasted in that region for four years, they have had to band together to protect themselves and the property of honorable people. They deny that they are a mob but assert that they are an organized and disciplined set of men who mean business. They assure good citizens that they have nothing to fear, and warn all barn-burners and murderers to leave the country and threaten them with lynch law where the State law fails of its duty.

CLOSING THE MILLS.

Until Wheat Goes Down Again.—St. Louis, November 15.—There is a movement among the millers here to close the mills until the price of wheat declines. The reason assigned is that flour is being made without loss, and that many millers have already lost heavily on contracts made when wheat was less than \$1 per bushel, and they see no little flour has been shipped from here for the last three weeks. Large amounts are in store, more than enough to supply all demand for some time. The millers are satisfied that there must be a decline in wheat prices soon. At all events they will not purchase until the price falls to a margin on flour.

Excitement Over the Maine Legislative Embroglio.

AUGUSTA, Nov. 15.—The rumors in regard to the Governor and Council in regard to the count on the Republican majority in the Legislature are exciting general attention. Notices were filed with the government yesterday for hearings in the disputed cases in Franklin, Lincoln, Penobscot and Washington counties. It is reported that no hearings will be allowed in the disputed cases but certificates will be issued as already determined. A carefully compiled list shows that the Republicans have 80 members in the House and 1 vacancy by death, while the Democrats have 61 in the same branch. In the Senate the Republicans have 19 and the Democrats 12.

Gatherings in Gotham.

NEW YORK, November 15.—Eleventh annual Slosson 300 Garner 68. The highest run of Slosson is 107. The Cohen family, arrested on suspicion of setting fire to the tenement house, were discharged on account of lack of evidence of incendiarism.

The Churchman Burned Out.

NEW YORK, November 15.—Marshall H. Mallory, of the Churchman, was burned out yesterday. He says the engines are better type, machinery and engines are between \$40,000 and \$50,000.

Examining Harbors.

NEW YORK, November 15.—A. S. Hatch and W. M. Dunn, of the Chesapeake and Ohio Railroad have spent the past few days examining the harbor at New York, New York, and vicinity, and to the final terms of their road.

Assistant Secretary of State.

WASHINGTON, Nov. 15.—Col. Jno. Hay, former private secretary to Assistant Secretary of State, has been appointed Hon. F. W. Seward, resigned.

Happiness and Good Health.

Dr. Bull's Cough Syrup. It cures, and costs only 25 cents.

DECLINED WITH THANKS.

Invitation to the Officers of the Chamber to testify as to the Disasters.

NEW YORK, Nov. 15.—The Chamber of Commerce has declined the invitation to the officers of the Chamber to testify as to the Disasters.

For N. Y. and Charleston, S. C. The court adjourned until Monday, the secretary, Mr. Shaw, being instructed to see when the captain of the Champion would attend. It is understood that there is no way to compel them to attend as they are amenable to the United States inspectors, where the steaming belongs, and this being New York territory, if any, must take place there.

The Manchester Cotton Market.

MANCHESTER, Nov. 15.—The Manchester Guardian says: "Friday's quotations were a little firmer than they adhered to all around that have been during the present excitement. Transactions, however, were quite limited, as prices were beyond the reach of buyers except for small and urgent business."

Two Fever Cases at Memphis.

CINCINNATI, Nov. 15.—A special from Memphis states that reports of the fever having again broken out there are untrue. There have been only two new cases in the city in the last ten days. No alarm is felt. Of these two cases one caught the fever while visiting an old case and the other is from a house not disinfected.

Loading of the New Cable.

NORTH EASTHAM, MASS., Nov. 15.—The steamer Farraday came to anchor, off Nansett lights at 10 a. m. The wind is southwest and fresh, the sea smooth and the time favorable for the landing of the cable.

A Harmless Explosion.

CLEVELAND, Nov. 15.—The main boiler in the plate mill of the Cleveland Rolling Mill exploded last evening, scattering iron in all directions. One man was killed. The fireman was slightly injured. Damage, \$20,000.

Burned to Death in His Bed.

PETERSBURG, Nov. 15.—While Edward Grammar, aged 85, was asleep in his residence on Prince George county, Thursday night, the house was set on fire and before he could escape he was burned to death.

Tornado and Fire in Kentucky.—The Constitution.

LOUISVILLE, November 15.—A dispatch from Paducah says considerable damage to buildings, &c., was done by a heavy rain and wind storm. The constitution of Kentucky is now stated to be safely locked up in the State vault and fresh as of last made. Fire last night nearly destroyed Ferguson, Smith & Co's mill, together with nearly 2,000 bushels of wheat. Loss, \$25,000; insurance, \$9,000.

Storm in Indiana and Ohio.

CINCINNATI, Nov. 15.—At Pooah and Princeton, Indiana, and South Bend, Ohio, considerable damage has been done by storm.

The simplest, safest and surest means to relieve the baby of colic and induce slumber is Dr. Bull's Baby Syrup. Price only 25 cents a bottle.

TELEGRAPHIC MARKET REPORTS.

NOVEMBER 15, 1879. PRODUCE. BALTIMORE—Wheat: Southern 44.45; West 44.10; mixed 44.25; Pennsylvania 43.85; Maryland 43.50; prime Penn 43.15; Maryland 42.80; mixed 42.45; No. 2 42.10; No. 3 41.75; No. 4 41.40; No. 5 41.05; No. 6 40.70;
