Quotations from Noted Authors.

The following remarkable compilation is a con-

tribution to the *Standard* from the pen of

Mrs. H. A. Deming. The reader will notice

that each line is a quotation from some of the

standard authors of England and America. This

is the result of a year's laborious search among

the leading poets of the past and present time:

Why all this toil for triumphs of an hour? Young.

Life's a short summer, man a flower. Dr. Johnson.

By turns we catch the vital breath and die. Pope.

The cradle and the tomb, alas, so nigh. Prior.

To be is better far than not to be. Swift.

Though all man's life may seem a tragedy. Spencer.

But light cares speak when mighty griefs are dumb. Davis.

The bottom is but shallow when they come. Raleigh.

Your fate is but the common fate of all. Longfellow.

Unmingled joys here to no man befall. Southwell.

Nature to each allots his proper sphere. Congreve.

Fortune makes folly her peculiar care. Churchill.

Custom does after her on over. Rochester.

And throw a cruel sunshine on a fool. Armstrong.

Live well; how long or short permit to heaven. Milton.

The who forgive most shall be most forgiven. Raleigh.

Sin may clasp so close, we can not see its face. Trench.

Vile intercourse where virtue has no place. Thompson.

Then keep each passion down, however dear. Byron.

Though penitence bewitch a smile and a tear. Byron.

Her sensual snares let faithless pleasure fly. Swift.

With craft and skill to ruin and betray. Crabbe.

EDISON'S PLANS.

What He Says of His Critics.

New York. Mr. Edison has perfected his plans

for the station that he proposes to estab-

lish shortly in this city. He has decided

to strengthen the building with heavy iron

pillars and cross beams, as the upper

lofts will be called upon to support an

extraordinary weight, that of 200 dynamo

machines. He is yet unwilling to give the

location of the building, and the question as

to just how soon it will be established remains,

he says, with the Edison Electric Light

Company. It is stated that the building will

be made to have 700 lights glow in

Menlo Park before anything practical is

done in this city. The burning of the

Western Dynamo Electric Machine

Shops in Newark on Monday last, will

necessarily retard these plans. Mr. Ed-

ison says he finds that the small carbon

filaments with a resistance of 100

ohms, and 1 1/2 lights per horse power,

will undoubtedly prove the best, and,

unless something new is foreseen, will

happen, he will use these exclusively.

Mr. Edison is much annoyed by the

adverse criticisms of some scientific

men who, he says, have condemned his

light. He says of Prof. Morton, of the

Stevens Institute of Technology: "Morton

OUR FEBRUARY CLOTHING SALE!!!

GREAT BARGAINS ARE IN STORE

FOR those who have delayed in making their Winter Clothing purchases. We prefer to turn our

Stock into Cash, open each season with the newest designs in fabrics, and increase the solid reputation

we have already achieved for keeping in every respect a first-class Stock. And we have

decided to clear out all heavy Goods, they are to be sold, and we know the only way to make quick

and rapid work is to make a price low enough and the public will respond. We have had

a successful year's business and we intend to make a clear and thorough sweep of all Winter Goods

on hand. Remember the first comes secures the best selection, and such inducements as we will

now offer happen but a few times in any person's experience. We never make any promises that we do not fulfill, the verifications

of these facts can be seen on our tables. Our prices are all marked in plain figures, and we repeat again the Goods

are to be sold. E. D. LATTA & BRO.

THE GOING MEN

Presidential Speculations--Republican and Democratic.

Wash. Correspondence Rich. Dispatch.

Your people do not talk more about

readjustment than politicians here now

do about the presidency. I asked a De-

partment official of the Interior, who is

tomorrow to-day would be nominated by

the Democrats and his reply was, "It is

hard to predict. During the extra

session," said he, "Thurman was the

man, but the Ohio election destroyed

his prospects. The late Governor Bayard

was ahead of all his presidential

competitors, and to-day, if the Con-

vention were to meet, Seymour, I think,"

said he, "would be nominated by accla-

mation. A Southern Senator and well-

known leading Virginia politician who

was present, acquiesced in what he said.

A Republican Senator, who has reputa-

tion for political sagacity, remarked in

response to a question of a similar na-

ture that he had to be satisfied if he had

100 on the result at Chicago, he would

take Calkins against the field." Said he,

"Calkins is opposed to the proposition to

divide the vote of New York by elec-

toral districts because he deprecates it

as a device to elect a President. He
