Only three Wilmington merchants went on the Cincinnati excursion.

The Morganton Blade reports that salmon have been caught in the Cataw-

ba river near Marion. us what he said.

Wilmington have decided to adopt the 26th of May, the anniversary of Johnston's surrender, as memorial day, in-stead of the 10th of May, the anniversary of Jackson's death.

Tarboro Southerner: The Rev. Jos. E. Carter is expected to arrive in Tar-boro on next Saturday and thereafter preach regularly in the Missionary Baptist church once a month, beginning next Sunday. He is the pastor of the Baptist church in Wilson.

The construction of the turnpike road from Morganton to Marion is progressing finely. The enterprise is a very important one to the people of that section of the State, and they propose to celebrate its completion by a grand barbecue on the 4th of July.

Monroe Enguirer: Thomas Rollins, champion gourmand of the world, has taken Monroe in his grand foraging rounds. After putting into his capacious receptacle 12 biscuits, 36 hard-boiled eggs and 13 cups coffee at a single meal, the beholders were astonished, and at his cry for more, the man who promised to "foot the bill," slid out at a side door, and has not since been seen.

Wilmington Star: There was unusual activity in the harbor yesterday. In some places one could almost walk across the "raging Cape Fear" on tim-ber and turpentine rafts. The river was so stocked with rafts that large vessels found it difficult to move about. The steamship Regulator wanted to go across the river, but found it almost impossible in consequence of the scarcity of room.

METHODIST CONFERENCES.

Meeting of the Church Bodies in the Country This Year.

In all, ninety-three Conferences will the United States. By far the greatest interest is taken in the General Conference which assembles in Cincinnati on May 1. The session is held only once in four years, and there are three, and perhaps six, bishops to be elected. This point will be decided by the Conference after taking into consideration the needs of the Church. Three bishops have died since the last Conference was held, and so great is the interest taken in the matter that wire-pulling is already going on, and several European delegates have already arrived to be on hand early and look over the battlefield. Two men who are certain of elec-tion, so it is said in inside circles, are Dr. J. F. Hunt, president of Drew Theological Seminary, and Dr. Cyrus D. Foss, president of the Wesleyan University. Other prominent candidates are Rev. Dr. Warren, of Philadelphia; Dr. Stratton, of San Francisco; Dr. Wolden, of Cincinnati; Dr. Fowler, of New York; Dr. Kynett, of Philadel-phia; Dr. Fuller, of Atlanta, Ga., and

Dr. Hoven, of Syracuse.

There will be a biter contest over the election, and new candidates with small backing are springing up on all.sides. A number of secretaryships and other small favors within the gift of the Conference will be well contested.

The Meaning of "Boom."

Everybody, it seems, has been misinformed as to the origin of the "boom"of the term, we mean, not of the "boom' itself, which everybody knows owes its origin, along with the "hum," to the N. P. "Boom" has commonly been supposed to be derived, not from the "booming of the bitten," but from the booming noise made by a river in flood. It seems that there is a much more plausible explanation than this. Miners in the far West have a practice of conducting explorations by means which they call "booming." It consists in damning up some gorge on a mountain side and allowing the water from melting snow to accumulate till an immense reservoir has been formed. When the pond is full, an outlet is made, and the water rushes down with irresistible force, overwhelming everything in its path. Rocks, trees and boulders are hustled along, the top soil is carried away, and huge ravines are cut in the mountain side. Sometimes gullies of seventy-five and a hundred feet wide are formed, extending to the foot of the mountain. Rich veins and deposits of ore are often uncovered by this process, and the word "booming" describing it is seen to have some real significance. It is singular that the word "boomer" is used among the native Australians to signify anything great or wonderful. A large animal of any kind is called a "boomer," though more frequently the word is used by the settlers to indicate the male kangaroo. The term is seen again in the "boomerang" and many other native words,

The Florida Railroad Cases,

Special to the Baltimore Sun. WASHINGTON, March 19.-In the United States Supreme Court to-day Senator Vance, of North Carolina, as attorney for the Western North Carolina Railroad Company, made a motion to Vestern North Carolina Railroad Company and other parties. The bond under the order of the court was required to be in the sum of \$100,000 and to operate as a supersedeas in the Florida railroad cases. The grounds of the motion are substantially that the approval of the bond was based by Mr. Justice Bradley on the consent given by Benastor Vance, as counsel for the Western North Carolina Railroad Company, without any judicial examination as to the sufficiency of the security required to be given, and that the parties who signed the bond as sureties were not worth the sums of money that they made affidavit they were worth, and that the approval of the bond was procured by false and fraudulent represen-

A Candidate with the Measles, Philadelphia Times. A leading Democratic candidate for the nomination for Governor of Missouri is down with the meusles. He kissed a Kansas City girl baby whose father expects to be a delegate to the convention. If politicians must keep up this old-fashioned practice of kissing girl babies they had much better wait until they have grown beyond the measles stage of life; girl babies are ever so much nicer to kiss after they have got to be sixteen or seventeen.

YOUTHFUL VAQUEROS.

Daring Feats Performed on Horse-

back by a Boy and Girl.

Stickton (Cal.) Mail. A gentleman who lives on the Stanislaus river, close to its junction with the San Joaquin, told a Mail reporter Raleigh papers report that Jo Turner spoke in Raleigh Friday night on the he not known his informant to be enrailroad question, but they fail to tell | tirely trustworthy. He said that near The Ladies' Memorial Association of er about twelve and the other fourteen years of age, who frequently jump into the saddle in the morning and ride all day among droves of wild cattle, which would surely gore them to death should they become unseated. Both carry lariats, and if they see a calf in the drove that has escaped being marked, they run on to it, the boy throwing his rope and catching it by the head, and the girl bythe feet, after which the ears and brisket are duly cut. But this is not all. On the ranch is a large bottom of undergrowth, in which roam hundreds of wild hogs. Of these the boars are perfectly ferocious and will fight when pressed the least bit. The children mounted on their well-trained horses and carrying in their hands the lasso which they so skilfully handle, dash headlong after these hogs over all sorts of ground, up and down steep banks, catching one out of nearly every drove they scare up. Last summer they caught over thirty in this manner. When the lasso is thrown around the head and feet of the hog and he is stretched out so that he can do no harm, the boy gets down from his horse and ties the hog's feet with pieces of rope carried along for the purpose. His horse stands as firmly without as with a rider, being trained to that work and never having done any other. A wagon is sent for the hog, which is placed in a strong pen and soon tamed so that he can be fattened for market. A few days ago the boy was riding in the undergrowth, when he started up a deer. Putting spurs to his horse he got near enough to the deer to throw his lasso on to his

> The Deputy Marshals --- What Democrats and Republicans Say.

horns, but he did not have time to fas-

ten the other end of the lasso to his sad-

dle before the fleet-footed animal was off with rope and all. These children

have been riding constantly ever since

they were big enough to sit on a horse.

The Democrats feel happy, because on the subject of the appointment of deputy marshals the Democratic mem-bers of the House have accepted the decisions of the Supreme Court and passed a section to the deficiency bill which does not give Mr. Hayes the slightest pretext for vetoing it. Never-theless, it contains substantially what the Democrats want, and possesses the great merit of having originated with General Garfield. One of the "stal-warts"-Mr. Cowgill, of Indiana-says he had rather have no deputy marshals at all than have them appointed in accordance with the action of the House yesterday. Other stalwarts are very bitter on Mr. Garfield, who, they say, made a terrible slip-up. I hear that Mr. Blaine, when the bill reaches the Senate, will make a ferocious attack on the deputy-marshal feature of it, and that other Radical Senators will follow suit, with a view of inducing the President to veto it. I asked an Illinois Democratic member of the House today what Northern Democrats think of it, and he replied, "The President can-not frame a plausible excuse for a veto." "We have acted wisely," said he, "and have completely taken the wind out of the sails of the Republicans. Hence Conger & Co. feel it keen-

Homicide in Onslow. Wilmington Review A few days since, in Onslow county a white man, evidently laboring under mental aberration, called at the house of another white man and requested assistance to go and get his wife who, he claimed, was at the house of a neigh-bor near by. The occupant of the house declined to go to his assistance, upon which the insane man seized one of the children who was in the room at the and threw it out of doors. Upon this the mother of the child and wife of the man who occupied the house screamed for help, when a colored man, employed upon the premi-ses, came into the house with a pitch-fork in his hand and attempted to drive the insane visitor out of doors, but the latter seized the weapon and wrenched it from the hands of the colored man. After getting possession of the pitch-fork he attacked the occupant of the house, and inflicted quite a severe wound upon his face and nose. He then attacked the wife with the same weapon, but before he could strike a blow the husband drew a revolver and shot the insane man, killing him instant-

The Negro in Georgia.

Dr. Tucker, in the Christian Advocate, shows beyond question that the financial status of the negro in Georgia is something remarkable. The "man and brother" is demonstrated to have "set out in life fifteen years ago, without capital and without experience; he has lived until this time, from which we may infer that he has had something to eat and something to wear; he lost a large part of his earnings by the patri-ots of the Freedman's Bank, who trans-ferred the funds to a higher latitude; and since then has accumulated more ney for the Western North Carolina Railroad Company, made a motion to vacate and set aside the order made by Mr. Justice Bradley, on the 2d day of February last, approving the bond executed by the Western Division of the Western North Carolina Railroad Comin the State. The increase in the number of acres returned in 1879, over the return of 1878, is thirty-nine thousand three hundred and nine."

The Salvation Army at Work. The officers of the salvation army have fairly opened the campaign in New York, and propose to stay there and "keep hup" the fight. Mayor Cooper, however, has decided that they cannot be permitted to preach in the streets of the city, as they are not ministers of any denomination. Their provincial dialect and free use of the letter "h." coupled with their evident want of education, are being made the subject of good humored raillery in the New York journals, but the chief of the army says that they do not go in for elegant discourses, because they talk to people who do not understand or care for such who do not understand or care for such

Beauregged's Defense a success.

When the case of the interference of the Post-onice department with the Registered Letter and Postal Order mail addressed to The Louisiana State Lottery Company, or to M. A. Dauphin, New Orleans, La., or the same person at No. 319 Broad-way, New York City, N. Y., came up, Gen. G. T. Beauregard, one of the Commissioners on behalf of the State of Louisiana, so ably defended the pet institution of the Crescent City that the Post-master-General has rescinded his order of inter-ference in time for the next drawing, April 18th.
