Graded School Election.

It must not be forgetten that the graded school election occurs June 7th, just one week from to-morrow. In contemplation of the national and State politics, let us not forget that which is of much greater importance to us than the question of who shall be President or who Governor. It will require over six hundred votes to carry the election in favor of the school, the number of voters registered in the late election being something over twelve hundred.

Catholic Picnic.

The managers of the Catholic Sunday school picnic have decided to have the picnic Wednesday at Pineville. They expect to carry out in full the programme as published some time ago. In addition to this, Capt. E. J. Allen, the jeweler, has offered a very handsome hunting silver cup to be contested for by teams from the Hornets' Nest Riflemen and the Grays, under whatever rules they may agree upon, the team to consist of ten men from each company. The train will leave the Charlotte, Columbia & Augusta depot at 7 o'clock and the fare for the round trip will be fifty and twenty-five cents. The ground selected is a beautiful grove near the town and among the attractions within reach is a fish pond. The managers hope to make theirs the pienic of the season.

King's Mountain Mine Doing Good

Mr. W. A. Stanton, who recently succeeded Mr. Arthur Macy, as superintendent of the King's Mountain mine, was in the city yesterday afternoon, and brought with him 214 ounces of amalgam which is to be separated at the assay office. This was taken from a "cleaning up" after a run of 157 hours. The mine is now working 100 hands and is doing better than it has done for several years, a rich vein having recently been struck in the new works. It is already one of the most thoroughly equipped mines in the country, and works a forty-stamp mill. As is well known, the mine is owned by a company in Pennsylvania, of which ex-Gov. Curtin, of that State, is president. During the past two years they have spent upwards of \$60,000 on the work, all of which has been distributed in the neighborhood except what has come to the machine shops in Charlotte, an amount by no menns inconsiderable. Mr. Stanton reports that the only thing in the way of the company is the scarci-ty of fire wood, or rather of teams to had the large amount daily consumed in the furnaces, at reasonable rates.

Reduction of Telegraph Rates.

On the 1st of June the Western Union Telegraph Company will operate under a new schedule of rates, which will be about twenty-five per cent. cheaper to all principal points in the United States. For instance the rate (for ten words) from Charlotte to New York is \$1; thereafter it will be 75 cents except when sent to other than the gen-eral office. For any point in North Carolina the rate does not exceed 60 cents. The reduction will be very sensibly felt in Charlotte, where thousandsof dollars are spent annually for com mercial purposes of The reduction is quite remarkable for such a monopoly Mecklenburg.—W. Testerday, To-day and To-morrow.

The war is over-the battle-fields of the recent unpleasantness are evergrown with flour or are cultivated farms—the old names once so familiar to every reader of a newspaper are daily disappearing among the silent majority, and yet the sur rises and sets—new issues present themselves and the mottled web of life is spun on—but one thing seems fixed and certain that in each June and December in the city of New Orleans Generals G. T. Beauregard, of La, and Jubal A Early, of Va, conduct with exact fairness and justice the semi-annual drawings of the Louisiana State Lottery Company, and over half a million of dollars are given away. For particulars write to M. A. Dauphin, New Orleans, La., or same person at No. 319 Broadway, New York City.

Do You Want Health? Why will ye die? Death, or what is worse, is the inevitable result of continued suspension of the menstrual flow. It is a condition which should not be trifled with. Immediate relief is the only safeguard against constitutional ruin. In all cases of suppression, suspension or other irregularity of the "courses," Bradfield's Female Regu lator is the only sure remedy. The Mull Matter,

To the Editor of The Observer:

CAMP CREEK, N. C., May 24th, 1878.

This is to certify that I was at Mary Mull's one night with P. M. Mull, Mary Mull, White Reynolds, Pink Reap, George Morgan, Louisa Williams and Jane Sane, now Hicks, when Miller Walker was there with a raiding party. About dark some one fired, and in a few moments we heard a horse running, and in an instant struck the house. We all—White Reynolds with us—went out to see what was the matter. We asked the parties what was the trouble, and they said somebody was shooting at them, after which we turned and saw a horse lying against the house. Next morning the parties showed where the horse was hitched, it being about thirty or forty yards from the house. The parties were camped between where the horse was hitched and the house. There was no liquor captured there that RILEY TALENT. between where the horse was hitched and the house.
