HOME PROCESSIONS.

A half dozen or more Charlotte people leave for Chapel Hill commencement to-day.

Only a few local politicians and sporting men will be anything against Grant at Chicago to-morrow.

The Catholic picnic train leaves the Charlotte, Columbia and Augusta depot to-morrow morning at 7:30 o'clock.

The cadets of the Carolina Military Institute will give a hop Thursday evening, June 10th.

People are beginning to form plans and make up parties to go to the summer resorts. They are generally looking towards Asheville.

The commencement exercises at Biddeford University begin to-morrow. The address will be delivered by Rev. Dr. C. L. Thompson, of Pittsburgh, Pa.

The handsome silver sportsman's cup which has been offered to contesting teams of the Hornets' Nest Riflemen and the Grays—the shooting to be had at the Catholic picnic at Pineville to-morrow—is on exhibition at the Central Hotel cigar stand.

Eli Cunningham, colored, who fired the pistol in the Blue's armory, Friday night, was fined before the mayor yesterday. He was fined \$2 for this offence, \$2 for drunkenness and disorderly conduct, and bound over to court on the charge of carrying concealed weapons.

It has been decided to have the grand outdoor entertainment for the benefit of the monument held on the 22nd of June instead of the 17th, the date at first agreed upon. The change was made because the first date conflicted with the Davidson commencement and other events.

The special train, which leaves the city Wednesday morning for Rockingham, will carry the delegates down for the first class fare, and tickets bought on the Western Division will be taken. The train will leave at 7 a. m., arriving at Rockingham about 10:30, and will return as soon as the convention is over.

Lutheran Picnic. St. Mark's Sunday school will picnic at Bellefont Spring, Thursday, provided the weather will permit. The school will be taken out on the train at half-past 3 o'clock in the morning, the crossings at Fifth and Ninth streets being the places selected for those wishing to go to board the train. After spending the day at the spring, and before returning, the party will be carried to Matthews' station, returning to the city about sundown.

The Cabarrus Instructions. Our information in regard to the action of the Cabarrus county convention was in a measure incorrect. The convention instructed for Robinson for Lieutenant-Governor, not for Holt. Holt was put in nomination by Chas. McDonald but received only one vote. The delegates to the State convention were also instructed to vote for J. Sol. Reid, of Mecklenburg, for auditor, and Dr. Bickle, of Cabarrus for superintendent of public instruction.

Commencement at the C. M. I. The commencement exercises at the Carolina Military Institute will occur June 11th. The annual sermon will be preached the Sunday before, on the 8th, by Rev. Dr. E. H. Harding. The orations and addresses of the members of the graduating classes will occur on the 11th at 11 o'clock, a. m., and will be followed by the annual address before the corps of cadets, which will be delivered by Maj. C. Dowd. These exercises will close the seventh annual session of the institution, and are always of an interesting nature.

From Charlotte and Begging. The Wilmington Star, of Saturday, contains an account of the begging performances of a well dressed white man who professes to be a resident of Charlotte, but the name is not given. The article says: "He gives as his reason for asking alms that he left his home in Charlotte and went to Charleston to look for work, but met with no success; that his money soon gave out, and now he is trying to get the means to pay his home. One gentleman to whom he presented the petition offered to give him work whereby he might earn the coveted amount, and told him to be on hand at his store yesterday morning at 8 o'clock to commence operations. He promised to do so, but failing to put his appearance, he is presumed to have thought begging an easier mode of raising the wherewithal."

BEGINNING THE CENSUS TAKING.

The Enumerators to Start on the Rounds to-day—Something About the Questions to be Asked and Answered.

To-day the census enumerators begin their work. In this city the work will be done by thirty enumerators. For First Ward, W. W. Phifer; Second Ward, R. H. Aldrich; Third Ward, A. A. Mears; Fourth Ward, D. G. Maxwell; For the townships, (outside the city) A. Shorter Caldwell.

The period of enumeration is by law limited to the month of June, and in cities having 10,000 inhabitants and over, according to the census of 1870, is still further limited to the first two weeks of the month. The duty of each enumerator is to visit personally every dwelling in the United States, whether family therein, and each individual living out of a family in any place of abode, and by inquiry made of the head of such family, or of the member thereof deemed most credible and worthy of trust, to obtain the names of every member of a family, and every other item of information and all the particulars required.

It is the prime object of the enumeration to obtain the name and the requisites of every person in the United States, of whatever age, sex, color, race, or condition, with this single exception—viz: that "Indians not taxed" shall be omitted from the enumeration. It is not within the choice of any inhabitant of the United States whether he shall or shall not communicate the information required by the census laws.

Enumerators are, however, instructed that they will do well not unnecessarily to intrude the compulsory nature of the enumeration. It will be found that the vast majority of cases that the persons called upon to give information will do so without objection or delay. The enumerator is not required to accept of a statement which he knows to be untrue, or to believe, as false. He has a right to a true statement on every matter respecting which he is bound to inquire; and he is not concluded by a false statement. Should any person in making statements which are obviously untrue, the enumerator should enter upon the schedule the facts as nearly as he can ascertain them by his own observation, or by inquiry of credible persons.

The foregoing remark is of special importance with reference to the statements of the heads of families respecting afflicted members of their households. The law requires a return in the case of each blind, deaf and dumb, insane or idiotic, or crippled person. It not infrequently happens that fathers and mothers, especially the latter, are disposed to conceal, or even to deny, the existence of such infirmities on the part of children. In such cases, if the fact is personally known to the enumerator, or shall be ascertained by inquiry from neighbors, it should be entered on the schedule equally as if obtained from the head of the family.

The enumerator is prohibited by law from disclosing to any person his authority to enter dwellings and to interrogate their inhabitants. The work of enumeration must be done by the enumerator in person, and cannot be performed by proxy.

Five regular schedules are created by law for the enumeration of the several subjects of inquiry as follows: Population, agriculture, manufactures, social statistics, and mortality. Schedule 4 (social statistics) is to be withdrawn from the enumeration and placed in the hands of special agents and experts. Upon schedule 1 (population) is to be entered the name of every man, woman and child who on the first day of June, 1880, had his or her usual place of abode within the enumerator's district. No child born between the 1st day of June, 1880, and the day of the enumerator's visit (say June 5th or 15th or 25th) is to be entered upon the schedule. One other household is to be entered who was a resident of the district upon the 1st day of June, 1880, but between that date and the day of the enumerator's visit, shall have died, should be entered on the schedule precisely as still living. This schedule is to be used to obtain a list of the inhabitants of the district, and, in the case of gain, or loss, are to be disregarded in the enumeration.

The various families, for the purposes of the census, includes persons living alone equally with families in the ordinary sense of that term, and also all larger aggregations of people having only the tie of a common roof and tables. A family, with all its inmates, constitutes but one family within the meaning of this term. A hospital, a prison, an asylum, is equally a family for the purposes of the census. On the other hand, the solitary inmate of a cabin, a loft, or a room, and all its inmates, constitute a family in the meaning of the census act. In the case, however, of tenement-houses and of the so-called "flats" of the great cities, as many families are to be recorded as there are separate tables.

Charlotte and Greenville. Recently the cantata, "Esther," was given in Greenville by the young ladies and gentlemen of that city with fine effect and to crowded houses. The success was so successful that the people of Spartanburg invited them to come over and present it there, which was done last week to a crowded house. We understand that they could be induced to visit Charlotte and it is suggested that they be invited. The entertainment was gotten up for the benefit of the Presbyterian church of Greenville, and the amateur actors embrace the best musical talent of that city.

A New Order Organization. A new lodge of the Order Kshar Shud Barel was instituted Sunday, May 31st, by Rev. S. Mendelson, of Wilmington, by the name of North State Lodge No. 194 O. K. S. B., District No. 3, with the following officers for the ensuing term: President—R. M. Kopf. Vice-President—Leon. Secretary—W. M. Morris. Assistant Sec.—N. Schloss. Treasurer—D. Goldberg. Conductor—M. Lichtenstein. Assistant Conductor—A. A. Nathan. Past President—J. H. Baugarten. Mining Notes. Mr. Joseph Rowark has struck several rich veins on a place a mile this side of Huntersville, within the past few days—only nearly three feet wide and another about eight inches. Gold is found in large quantities in brown ore which is easily worked. The superintendent of the Simpson mine, Mr. D. F. Hartfield, has orders to have estimates made and secure timber for putting up shafts, and to go on with the work at that mine. Mr. S. J. Warren, who has been prospecting and examining the mines of North Carolina for the last two or three years and reporting upon them to people in the North, has recently effected the Ferris mine, five miles from the city, upon which work has already been commenced, and the Phifer and Henry mines, below Matthews, in Union county, upon which work will be commenced in a short time. He is negotiating for the sale of several more. Mr. Warren is now superintending the work at the Ferris mine.

Giving a False Fire Alarm.

Sunday morning about 4 o'clock the fire bell was sounded and the police went around to ascertain the cause. They saw retreating figures, and ordered them to halt. They did not stop and policemen Stephens fired his pistol twice with a view to their capture. One of them surrendered. They were subsequently captured and ordered to appear before the mayor yesterday morning. One of them appeared, but proved that he had nothing to do with the ringing and was discharged. For other reasons his name is not given. The other has not been heard of and it is reported is not in the city.

Political Matters in the Seventh District.

Our correspondent at Statesville writing yesterday, says: The figuring to-day as to the result of the township primaries of Iredell show at this writing (2 p. m.) that 21 delegates are in attendance at the meeting in Shelby. The unopposed delegates 13, and 9 delegates to be heard from. Twenty-six votes carries the county. Davie county unanimously voted instructions for Robbins, Saturday.

Carolina Central Sold.

The Carolina Central Railroad was sold at public auction in Wilmington, yesterday, under a decree of the court, and bought by G. R. French for the committee of the bondholders for \$1,200,000, which was the only bid made. It is learned from private sources, that Mr. Murchison, of Williams & Murchison, and two other gentlemen of Wilmington, acted as the agents for the sale of the bonds, and are, therefore, among the owners. It is understood that Mr. Murchison desires the presidency of the road, and will probably get it. Another report is that there will be a proposition to establish a free known as general manager, and that the present superintendent, general freight agent and other officers, will be retained in their present positions.

The Confederate Monument.

The Duty of the Women of Charlotte in Connection Therewith. To the Ladies of Charlotte: In pursuance of an invitation extended through THE OBSERVER, on Saturday morning, to the ladies of the city to assemble at the Central Hotel, to devise ways and means for the erection of a Confederate monument, I went thither, hoping and expecting to see a large assemblage, but my fond anticipations were not to be realized. Out of all the ladies in the city but seven had responded to the call. I blush for this apparent want of patriotism and pride, of love and gratitude, that should animate every heart at the mention of our Confederate dead. Surely it is little cause to do, even if it be our best, in return for their devotion to the Cause, which they sacrificed at the altar of duty. Do you not remember, how in the days so long ago past, in the enthusiasm of the hour, when drums were beating, music playing, banners flying, we in our pride at their bravery, tucked our coats, and in our enthusiasm, we sent them forth to war? Oh! they were our fathers, brothers, husbands, lovers, sons, and some, alas, returned not again, but to-day are sleeping their last long sleep on many a battle-field. We, the daughters of our fathers, the daughters of Gettysburg to the shores of the Gulf, from the Atlantic to the Mississippi, are green hillsides, marking the resting place of our Confederate dead. True, some who were loved by us, may be lying in this particular cemetery, but "somebody's darling" is sleeping here, and as we do for him so others may do for our boy, who donned the gray and went forth to death.

We hear of Confederate monuments all around us, at Richmond, Raleigh, Wilmington, Columbia, and shall Charlotte be behind them all? A thousand times No! Then let us go to work and have a monument of which we shall be proud. Shall come to be accomplished by strenuous efforts, and earnest endeavor, and that too on the part of the women. It seems to me this is especially our work, though all should be interested in it, and lend a helping hand. It belongs to every citizen, but especially to the women, who are confined to any social circle. Jew and Gentile, rich and poor, alike fought and died, and the friends of each have a right to pay tribute to their memory. They do not stand back for men, but C. O. D., but let each one feel that she has a personal interest, to do what she can, and work accordingly. Now, the Memorial Association proposes to give an outdoor entertainment, on the 22nd of June, at which they hope to realize several hundred dollars, perhaps a thousand. The association being small, can do but little if left to work alone. So it is necessary that every woman—yes, and man too—shall come to us, and in a few days, perhaps a week, another meeting will be called, and it is most earnestly desired, that every lady in the city, who can, will attend. Of course there are heads of families and some few others who can not be present, but friends, if you can't come yourselves, why then send your sisters, your cousins and your aunts. And dear ladies, come with your hearts full of the memory of our brave boys, never let it be said that we are not in the front ranks of the movement, but let mothers talk of their bravery for ages yet to come, and tell how they fought and died, and let us with ready hands work to erect a monument that shall be a point with which every heart shall be proud to be associated, and show their records upon it, and brothers to children yet unborn.

A Sister of ONE WHO FELL. Charlotte, N. C., May 31st, 1880.

A Pistol in a Millinery Establishment.

Marshall Mott is the name of a negro boy arrested by Constable Orr yesterday, in front of Mrs. P. Query's store, on a warrant charging him with larceny. Let me see Mr. Query, afore I go," said the prisoner, and the officer consented to accompany him up stairs. Just before he reached the top, he made a leap which landed him on the floor and another which carried him out of the two story window. The officer arrived just in time to see him disappear, and, running to the window drew his pistol and fired at the negro, who by that time was going at full speed across the lot in rear of the store. The ball missed its mark, but the firing of the pistol in a room adjoining that in which the seamstresses of the establishment were gathered produced a decided commotion. One of the number fainted, and the nerves of several others were so severely shocked that they did not re-attach themselves to the evening. The officer was upbraided for his conduct, but replied that he did not know or did not think of any one being in the other room. An effort was subsequently made by Mr. Query to get out a warrant for the prisoner, but the latter suggested a difficulty in bringing any specific charge and the matter was abandoned.

A Sensation in Shelby—A Maniac in the Streets.

Just before noon yesterday, Mr. Phillip Wilson, a well known and esteemed citizen of Cleveland county, who lives about a mile and half from Shelby, appeared on the streets of that town in a perfectly nude state, rushing wildly along the sidewalk, towards the centre of the town. His appearance produced such a shock that he was allowed to proceed along several blocks before he was captured and removed to the jail. His mental condition was brought about by religious excitement. Key Mr. Nelson, of Hendersonville, has been conducting a revival meeting in Shelby for several weeks, and a high state of religious excitement has prevailed in the community, people coming from all the surrounding county to join in the meetings. Last Friday night Mr. Nelson preached a sermon on "Consecration," and when he had concluded Mr. Wilson, who had been a regular attendant upon the meetings, arose in his seat and addressed the congregation, betraying the first symptoms of insanity. His friends thought he was laboring under excitement which would soon pass away, but it was subsequently found necessary to confine him in a room at his home. He grew more and more excited, and finally becoming uncontrollable, he ran out of the dwelling, and made his way to Shelby, tearing his clothes off as he went. Mr. Wilson is about forty years old and owns considerable property. Up to the time of his participation in the meeting, according to our information, he had never given any symptoms of mental disease whatever. The matter has produced a decided sensation in Shelby.

WOMAN'S WISDOM.

"She insists that it is more important, that her family shall be kept in full health, than that she should have all the fashionable dresses and styles of the times. She desires to see that each member of her family is supplied with enough good Blue Pills at least once a week, to keep their health, to prevent a fit of sickness with its attendant expense, care and anxiety. All we need is to exercise their wisdom in this way."—New Haven Palladium.
