**BEN BUTLER**  
**SPEAKS A FEW WORDS ABOUT THE NORTH AND SOUTH.**  
Baltimore Sun.  
Gen. B. T. Butler, being at this time a gentleman out of politics, has been making a winter cruise in his yacht America to the West India Islands and Florida. He has just returned, and being in New York on Monday, was, as a matter of course, welcomed by one of those bold "interviewers," who are always ready to pounce upon a conspicuous politician. Of his voyage he said but little. In Cuba he found a very friendly feeling towards the United States, mingled with some expression of regret that our duties on sugar are so imposed as to prevent the producers from sending it to us with any reasonable profit. Of Florida he spoke in glowing terms. He said the people there were making money and sick of politics, rather thought that the Mahone movement would be favorably received at the South, but that the white people there "will never vote for the Republican party, nothing that has Republican attached to it." His reason for this opinion was that the young men of the day "have had instilled into them from the time they were old enough to know anything, as which is as much a part of their existence as anything can be, that the Republican party and everything attached to it is the destroyer of their patrimony, the slayer of their parents, and the enemy of their country. Believing these things as strongly as they do, is it to be wondered at that they never have voted for the Republican party, and is it unreasonable to argue that they never will?" He held that nothing but a break-up of the stalwartism in both parties and a reorganization on new issues can destroy the sectional feeling that continues to be manifested both at the North and at the South. Intimidation at the South was getting to be a thing of the past, he said, but is on the increase in Massachusetts. Not intimidation by the shot-gun, but "by something that is more disastrous to a free vote than a thousand shot-guns." The intimidation was practiced in Massachusetts he went on to explain. "A man," he said, "who firmly believes in his principles and as firmly advocates them is not afraid of a shot-gun, but he is afraid of his wife and family. With a shot-gun you influence but one vote. The manufacturers influence thousands of votes by the meanest kind of intimidation. With their thousands of workmen they do not care to man that if he votes for the Democratic party, he will lose his place, but the facts show that when he has so voted he has been discharged. The workmen know this, and they do not vote." Of course, as Gen. Butler has been repeatedly defeated in his long-cherished aspirations to be Governor of Massachusetts, his explanation of the cause of his defeat is to be taken with a grain of salt. Yet undoubtedly the repression of the Democratic vote, not only in Massachusetts, but in several of the other New England States, has been managed largely in this way. There is, moreover, both point and pertinence in his remark that the system of intimidation that compels a man to vote against his political principles rather than see his wife and family starve is the meanest kind of intimidation.

**The Raleigh Postoffice.**  
A dispatch from Washington says: Governor Holden, of North Carolina, arrived here to-day. It will be remembered that when the Democrats obtained possession of the Legislature of North Carolina they impeached and removed Gov. Holden from office, and he was perpetually disfranchised from holding any State office thereafter. He was subsequently appointed postmaster of Raleigh by President Grant and reappointed by Mr. Hayes. He was a few weeks since nominated by Gen. Garfield for another term, but subsequently his nomination was withdrawn and the name of Mr. John Nichols substituted for his. Governor Holden is generally considered, was due to the influence of Judge Tourgee, who lived in the same congressional district with Gen. Garfield for a long while and is on very intimate terms with him. Governor Holden's friends claim that he has given universal satisfaction in the administration of the Raleigh postoffice, and that all the influential Democrats are desirous of his retention. The effort will be made to induce the President to send in his name again, and it is said both the North Carolina Senators will support him. The President and the Postmaster-General have both received a large number of letters from prominent citizens of Raleigh asking the retention of Governor Holden.

**FIRE IN AN ASYLUM.**  
**A Brave Attempt to Rescue Three Insane Patients—An Exciting Scene.**  
ANNA, Ill., April 18.—A fire broke out in the bath-room on the fourth floor of the north wing of the Illinois Southern Hospital for the insane at this place at 11:30 o'clock last night. After getting the patients out of a window was made to check the flames, but as the building had a mansard roof it was not until the centre building was reached that the fire was mastered. Three patients were discovered in a room on the second story of the north wing, entirely surrounded by the flames. The throng upon the ground witnessed their frantic efforts to burst through the ground windows with breathless excitement. Two ladders were procured and placed upon a window, and although the flames curled around the ladders, three times men started up, but were forced by the heat to return. One gallant fellow named Grace ran up the ladders, thrust an axe into a window and commanded a colored patient named Nelson to cut his way out. He simply threw the axe away and again it was given him, and the crown below, as with one vice, yelled to him to cut the grating loose. This time he did it and escaped. Grace again showed his courage by ascending the ladder and going into the room, now ablaze all about him. He held a hand to his forehead and after a hand-to-hand conflict with a patient named McClelland, who was nearly dead from the heat, but desperately determined to stay in his room, Grace forced him heading through the window and parties outside caught him. Grace inhaled the heat and suffered intensely afterward, but is not in danger. A patient from Monroe county named N. Ferkle, was burned to death. These patients were all taken from the halls, but in some way wandered back. The loss is estimated at \$150,000. Ferkle is the only patient missing.
