

SENATORIAL DISCUSSIONS

On the Subject of the Debt of the Virginia.

WASHINGTON, May 3.—The Republican Senators met in caucus this morning to receive the report of their committee on the scope and order of business to be transacted in the proposed executive sessions.

The discussion was small this morning, the hour for the assemblage of the Senate arrived, and the caucus adjourned to meet again this afternoon.

The discussion is understood to have been confined mainly to the question as to what shall be considered contested cases to be held from action at present.

SENATE.—The Vice-President laid before the Senate the unfinished business, being the resolution for the election of officers of the Senate.

Davis, of West Virginia, then took the floor with a speech upon the debt question, in which he expressed his regret that the speeches made by the Senators from Virginia and Ohio, Mahone and Sherman, should have compelled him to discuss in this chamber a matter which he considered to be purely a political one.

Blaine or Conkling must yield. The question is, which will do it. This is what troubles Republican leaders now. If Blaine yields it practically means turning over the portfolio of State to Conkling, and the shaping of the policy of the administration by Conkling, making him virtually President.

Blaine or Conkling must yield. The question is, which will do it. This is what troubles Republican leaders now. If Blaine yields it practically means turning over the portfolio of State to Conkling, and the shaping of the policy of the administration by Conkling, making him virtually President.

THE CASWELL MONUMENT

To all North Carolinians at Home or Abroad.

The General Assembly of North Carolina at its late session passed an act appropriating five hundred dollars to build a monument to the memory of our first constitutional Governor, Richard Caswell.

It is earnestly requested that the honorable vice-presidents of the C. M. A. will push the work of collection, so that, if possible, the monument may be ready for the ceremonies of unveiling on the fourth day of July next.

It is proposed to locate the monument on the public square, in the town of Kinston. All contributions should be forwarded to JAMES A. PRIDDGEN, Treasurer of C. M. Association.

Nashville Races. NASHVILLE, May 3.—This was the second day of the races of the Nashville Blood Horse Association.

Arbitrary Arrests in Ireland. LONDON, May 3.—In the House of Commons to-day, Mr. McCarthy gave notice that he would move on an early day that the action of the Irish executive in arbitrarily arresting a member of Parliament and proclaiming the city of Dublin, is an abuse of powers granted by the coercion act and is calculated to arouse dissatisfaction and mar results of remedial proposals.

Railroad Consolidation. GALVESTON, TEX., May 3.—Arrangements have been consummated for the consolidation of the Missouri, Kansas & Texas, and the International, and the St. Louis, Iron Mountain and Southern and Texas Pacific will be consolidated from the 15th instant.

Another Democratic Victory. SELMA, ALA., May 3.—The Democrats elected their mayor and 8 out of 10 councilmen yesterday, for the first time in eight years, and the business interests united with them.

Bell Ringing by Steam. Railroad men just now are greatly interested in a novel appliance to locomotives whereby the heretofore laborious task of ringing the bell at crossings and while approaching towns and villages, which has been done by the fireman, to the manifest neglect, in many instances, of his other duties, will be automatically performed by steam power, easily regulated and controlled.

The Usual Texas Bulletin. GALVESTON, May 3.—A special to the News from Dallas, dated May 2nd, says John Preston, a notorious horse thief, was arrested there yesterday.
