

SOCIETY DIRECTORY.

MASONIC. PHALANX LODGE No. 81, A. F. & A. M.—Regular meeting every second and fourth Monday nights.

For the South Atlantic States, local rains and partly cloudy weather, north-east to southeast winds, rising barometer and lower temperature in the northern portions.

INDEX TO NEW ADVERTISEMENTS.

Wanted—P. F. D. Just received—Alexander & Harris. Sparkling Catawba Springs. Dr. E. Elliott. The Irish lands for sale—J. P. Irwin.

HOME FENCIBLES.

—Rev. Mr. Cheshire, recently of Chapel Hill, has accepted a call to St. Peter's Episcopal church in this city.

—What with Vennor, no blackberries, prohibition, the 17-year locust and small pox in the air, what will be doctored with is to become of us.

—The salatory orthopteron insect, of the family Locustidae, and the genera sciridum, is what the learned bugologist calls him.

—Revelations Coming. It is J. F. Butt, who has been traveling South with the panorama "Revelations," for a year past in the city.

The Devil Turned Loose. A county magistrate said: "You might say in the paper that the devil seemed to be turned loose among the colored women in the country.

A Good Movement. The police made a raid on several dens for the nightly collection of colored people, last night, and arrested twenty of them, under the vagrant act.

Second Appearance of the Juveniles. The juveniles, it is understood, had another splendid audience last night, and played their parts better than on the former occasion.

Election of Officers. At a meeting of the Hornet fire company last night, the following officers were elected for the ensuing year:

False Reports. Some trouble has been created among the colored washer-women in the city by the report which has been spread among them that the new city charter imposes a tax upon their labor.

A Serenade to Mrs. Jackson. The New Orleans Democrat says: "Last night at 11:30 o'clock, headed by a band, the officers and members of the Mississippi Fire Company No. 2 marched to the St. Charles Hotel and there serenaded Mrs. T. J. Jackson and daughter.

Habitual Costiveness. Habitual costiveness is the bane of nearly every American woman. From the most delicate to the stoutest, it is a disease which undermines their health and strength.

A LOVING JOKE. A prominent physician of Pittsburgh said jokingly to a lady patient, who was complaining of her continued ill health and of his inability to cure her, "Try this medicine."

A Safe and Sure Method of restoring the youthful vigor of the system is furnished by Parker's Kidney and Bladder Pills, which is described by the author in his book on "The Urinary System."

VARIOLA.

THE SMALL POX SCARE IN CONCORD.

The Fact Ascertained that One Case of Varioloid Has Been Discovered, and Quarantined.

Early yesterday morning reports were freely circulated that a case of small pox had been discovered in Concord.

By virtue of authority vested in me, and upon the advice of the board of health of Cabarrus county, I hereby give notice that a case of small pox having developed itself in the vicinity of the depot, all persons are hereby forbidden to avoid going into that neighborhood, or visiting in the locality in which the patient resides, being a small white house on the east side of the railroad, near the old tank.

Approved and countersigned by W. G. MEANS, Mayor.

The public are assured by the undersigned, the board of health of Cabarrus county that all proper care will be taken that vaccine virus has been ordered, and all persons are required to apply to F. M. Henderson, M. D., or some other physician for vaccination.

Approved and countersigned by W. G. MEANS, Mayor.

CONCORD, N. C., May 13, 1881.

There is no case of small pox within the corporate limits of Concord. A case of varioloid has developed near the town limits. It will be moved to-night to an isolated place two and a half miles distant, and all precautions have been taken to prevent its spread.

WASHINGTON, May 13.—The Senate in executive session this afternoon confirmed the nomination of Don A. Pardee to be Circuit Judge for the 5th judicial district, and Geo. H. Gilmer to be postmaster at Richmond, Va.

Wonders of the Microscope.

A thousand wonders in nature are lost to us through the microscope.

Think of dividing a single spider's web into a thousand strands, or counting the arteries and nerves in the wing of a gossamer moth.

Yet, by aid of the powerful lens of a microscope, it is found there are more than 4,000 muscles in a caterpillar.

Spiders have been seen as small as a grain of sand, and these spin a thread so fine that it takes 4,000 of them, put together, to equal in size a single hair.

WASHINGTON, May 13.—The President sent in the following nominations to-day: Postmasters—F. B. Pratt, at Canton, Miss.; Elizer B. Harrison, at Fayetteville, Ark.
