JORDAN ALUM,

Now consolidated in one property and under one A joint stock company having bought these two contiguous properties to be known under the old title of "ROCKERIGDE ALUM SPRINGS," will open

it to the public on June 1st, under the supervision of Mr. WILLIAM FRAZIER, who was before the war, and for four years after the war, in charge of the original alum springs. We think the public will find him the right man in the right place.

J. FRED. EFFINGER,

President Bockbridge Alum Springs Co.

After twelve years' absence, I return to this post of duty. It is hardly necessary to dilate to the Southern public upon the virtues and value of this mineral water. It has in the last half century made a record of cures in chronic diseases which for variety and aggravation of the cases brought under its influence is unapproached by any known mineral water in this country. The professional testimony to this effect is distinguished and unim-

testimony to this effect is distinguished and unimpeachable.

But it is of the preparations now being made by the new proprietors for the proper entertainment of the public I would say a few words.

A great work of expurgation and renovation is now going on at the old Alum Springs, including a thorough system of drainage, a new and abundant water supply of pure freestone from the mountain, repainting and new roofing, a very large introduction of new furniture, and in general a thorough overhauling of the entire premises.

The elegance of the new "Jordan Alum," its spacious and commodious "Grand Hotel" and cottages, and the beauty of its grounds, are widely spacious and commodious "Grand Hotel" and cottages, and the beauty of its grounds, are widely known to the springs-going public.

My aim and earnest effort shall be to keep this now combined establishment in a manner to give satisfaction to all reasonable guests.

An excellent livery is engaged, under a contract imposing a reasonable tariff of charges. All the customary diversions are provided for, such as band and ball room music, bowling and billiards, and all that; but I do not "bank" much on these things. My main efforts shall be directed, with the ald of an efficient staff, to make the patrons of the place comfortable and "at home," and regain, if possible, for this attractive summer resort

BUILDING & LOAN ASSOCIATION

THE Board of Directors of this association has a decided on the 1st of June as the date after which a bonus will be charged on all new subscriptions to the capital stock. There have been about 1500 shares already taken, and one or two hundred more spoken for. This, without any further subscriptions, will make a first class association, but for the reason that the ratio of supense is diminished by every addition, it is to be desired that the maximum number of shares (2000) shall be reached. Notice is therefore given that subscriptions will be received without premium being charged until the 1st day of June. New members who wish to borrow will be at once placed upon an equal footing with original members.

Christian Greeting from the Young Men's Christian Association Convention at Cleveland-Report on the State of the Church in the South -Ministerial Education-A Discussion on the Proposition to Revise the Hymn-Book.

BUFFALO, N. Y., May 28.—The ninth day's session of the Presbyterian General Assembly operned to-day with service conducted by Rev. Jared M. Charis, of South Carolina, followed by Dr. Page, of Rochester. The committee on next place of meeting reported Spring-field, Ill., as the place; that the sermon be preached in the First church of that city, and the remaining sessions be held, if the Assembly so vote, in the Capitol building, according to invitations of the Governor and the Legisla-

ture. The report was adopted. Rev. R. W. Patterson, D. D., of Chicago, presented the report of the standing Committee on Systematic Benevolence. During the past year there has been an increase of 3 synods and 36 presbyteries, organized and acting either in the Assembly's plan of benevo-lence or some other similar plan. This leaves only 7 of our synods and 52 presbyteries out of 175 that are not known to co-operate with four plan. Two of the 7 Synods and 15 of the 52 presbyteries are on foreign ground. The boards of the Church are all reported to have received increased contributions to their treasuries, ranging from about \$3,000 to \$50,000 each, except the Freedmen's Committee, which has received \$3,500 less than within the preceeding year, but it suffered no decrease in gifts of the Church. The net increase of contributions is upward of \$85,000. Almost all the regular causes of benevo-lence report balances in their treasuries. The number of collections from churches has been increased by 694 within the year. Nearly 20,000 blanks remain to be filled by non-contributing churches. The cause of home missions received nothing from 1,728 churches, and that of foreign missions was treated likewise by 2,340 churches. Further organization is needed in the synods, presbyteries, and churches. The report closed with a number of recommendations, among which was the following: That the Permanent Committee be enlarged tso as to distribute its labors

Dr. Hoyt, from the committee on bills and overtures, presented a report on an overture from the Synod of South Carlina asking deliverance of the General Assembly upon the question as to the law of the church, which was discussed at length by Dr. Hoyt, Mr. Lefevre, Dr. Girardeau, and others. The question came up upon the inquiry as to whether good and sufficient consequences from the Word of God are equal authority with the law of God, and whether this principle is to be applied to the laws of the General Assembly?

CHRISTIAN GREETING. Dr. Joseph R. Wilson, stated clerk, laid before the General Assembly a telegram from the convention of the Young Men's Christian Association of the United States and the British Provinces, now in session at Cleveland, Ohio, sending Christian greeting, &c., which, on motion of Dr. Lefevre, was referred to the committee on foreign correspondence. A proper reply was

REFORMED CHURCH OF AMERICA. Dr. Wilson also laid before the body letter from Rev. W. C. Handy, of the Reformed Church of America, who had been appointed a delegate to this General Assembly, but who had been prevented from attending, &c., who urges that the delegate from this General Assembly will attend the meeting of the Synod of which he is a member, which meets in Hudson, N. Y., June 1st. Referred to the committee on foreign correspondence.

STATE OF THE CHUCH.

Rev. J. R. Quarles, from the committee on narrative, presented a report giving an account of the state of religion within the bounds of the General Assembly. The report says: Looking over the entire territory, and observing its hills and valleys, it is noticeable that the highest points, where the sun of prosperity is most fully seen, are upon the Atlantic seaboard in the Synods of the highest points, where the sun of prosperity is most fully seen, are upon the Atlantic seaboard in the Synods of Virginia, North Carolina, South Carolina, and Georgia. In these parts of the field the work appears encouragingly prosperous. In the Synods of Memphis, Nashville, Kentucky, Alabama, Mississippi, Missouri and Arkansas, the hill tops are not so high and the valleys seem somewhat deeper; and yet the view upon the whole has more of light than of shadow. We enter the low grounds of weakness and need as we go into the Synod of Texas. Here we go into the Synod of Texas. Here the shadows seem to prevail, and God's people find their faith somewhat sorely tried. Texas is a mighty empire in prospect, but our people within its borders are but a feeble folk. Following the points upon which the Assembly has asked information, the committee

1. That there is a record of official fidelity sent up from all parts of the church. Many of the reports empha-size the zeal, the self-denial, and the faithfulness of the ministry. Some of them complain of the right of the pastoral duty of visiting on the part of the ruling elders. A few declare that the office of deacon is not filled in some of their deacons are not alive to the importance of their work.

2. As to an attendance upon the ordinances of God's house, and an appreciation of them, the testimony is substantially unanimous that the condition is

amusements seein to be giving but little trouble. Covetousness is mentioned in some of the reports as prevailing to an

healthier sentiment and a correspondngly better practice.

8. In worshipping God with their substance the reports, almost without exception, show an increased and growing fidelity on the part of God's people. 9. Except in Texas, from a few weak Presbyteries elsewhere, the reports would indicate that our fields are well supplied with spiritual husbandmen.

10. The colored population seems to have passed, for the present at least, our reach. They prefer their ownpreachers and services. In some sections they are reached by Sunday schools; in a few cases we have colored churches. But it is manifest that we can influence them now only by helping to train their ministers.
Surveying the whole field, say the committee, we have reason to thank God and take courage for another year

The report of the committee against a contract with Scribner & Co. for the publication of certain books, &c., gave rise to an animated discussion. Dr. D. O. Davis was opposed to pro-vincialism, and Dr. Mullally thought this term not applicable to the Southern Presbyterian church.

Mr. Hamilton, from the auditing com-mittee, presented a report stating that they had examined the books and papers of the treasurer, all of which are found to be well kept, and the pay-ments sustained by proper vouchers.

The report of the committee on systematic benevolence reported that \$59,215 were contributed last year to foreign missions, being about \$11,000 over the receipts of the previous year. Sustentation received, \$18,526; evangelistic fund, \$10,958, or \$2,528 more than the year previous; invalid fund, \$10,248; publication, \$8,009; and \$10,-335 was expended in aiding candidates for the ministry to complete their education, &c. The Tuscaloosa Institute received \$2,000, and the work of the colored eyangelists \$597. The whole amount contributed to all the funds

Results of Genius.

The artist who drew the graphic picture representing a woman in the act of leaping from a high bridge, which has decorated all the dead walls of the city for the past two weeks, must find a melancholy satisfaction in reflecting that his work has caused two young women to attempt suicide in the same way, and that one of them was successful. Genius is always flattered by appreciation, and the more vigorously expressed the better.

Forty Years' Experience of an Old Nurse.

Mrs. Winslow's Soothing Syrup is the prescription of one of the best Female Physicians and Nurses in the United States, and has been used for forty years with never-falling safety and success, by millions of mothers and children from the feeble infant of one week old to the adult. It corrects acidity of the stomach, relieves wind colic, regulates the bowels, and gives rest, health and comfort to mother and child. We believe it the best and surest remedy in the world, in all cases of Dysentery and Diarrhea in children whether it arises from teething or from any other cause. "Women Never Think."

If the crabbed old batchelor who uttered this sentiment could but witness the intense thought, deep study and thorough investigation of women in determining the best medicines to keep their families well, and would note their sagacity and wisdom in selecting Hop Bitters as the best, and demonstrating it by keeping their families in perpetual health, at a mere nominal expense, he would be forced to acknowledge that such sentiments are baseless and false.—Picayune. larger than the entire Synod of Virginia and gave an account of the re-

4. Intemperance is everywhere be-wailed as the monster evil of the day. But few churches, however, find it amongst their members. Worldly

visited by special outpourings of the spirit of conversion. The church at Fulton, Mo., has probably been more highly honored in this respect than any other. But the majority of the reports indicate that the spirit has been present, adding to the motion to set apart the history of the church at the spirit has been more calcosa institute. The subject and report were discussed at length.

The report, with modifications by the chairman, was adopted.

alarming extent.

5. One of the most painful features of the situation is the general report of the neglect of family worship. The family is the integer of the thurch in miniature. Defection here demands the earnest confection here demands the earnest confection.
