No More Broken Whalebones.

After spending over twelve thousand dollars in experiments, Dr. Warner has perfected a material for boning corsets called

CORALINE

ITS ADVANTAGES ARE: FIRST. It cannot be broken. A reward of \$5

will be paid for every corset in which the Coraline breaks with six months ordinary wear.

SECOND. It is more pliable than whalebone and adapts itself more readily to the movements of the body.

THERD. It is not affected by cold, heat or moisture. FOURTH. It is the cheapest and most service able corset ever made.

THE CORALINE CORSET is made throughout of superior materials, and is warranted in every respect. If not found entirely satisfactory, the purchase money will be refunded. Ask for

Dr. Warner's Abdominal Corset. With extension front. Unequaled for beauty, ele-gance and style. And

The clock in the tower of the First Presbyterian church, at Newark, N. J., stopped Monday morning about three o'clock. Of late the clock has been erratic in its record of the time. The city timekeeper was asked to attend to it, and made an examination. He found that the wheels were clogged with a mass of twine, hay, grass and other stuff, which the sparrews had collected from the streets. They had flown in through a hole in the dial, depositing it to make their nests. The rubbish had been slowly carried around by the wheels until it had become tightly wedged among them. There was nearly half a peck of it.

The Liverpool Daily Post, a high authority, prefers the bull side of the new crop. It says: "The American crop may reach 6,500,000 bales against 5,757,000 last season, or an excess of 743,000 bales. From this must be deducted 3½

Saving a Child From a Rattlesnake

One of those instances in which the hero for an extreme emergency is found, occured at the residence of Major Russel, in Anderson county, on day before yesterday. Maj. Russell's little grand daughter, about six years of age, and some other children were playing on the lawn when the little girl was bitten on the foot by a rattlesnake. Her cries and the announcement of their cause carried consternation among the family and others present. No remedy was at hand, and the distressof the little girl's mother was heartrending; Dr.A.K. Durham, dentist, of this city, being present on professional business, made himself master of the situation by applying his lips to the bite and sucking out the deadly venom, while he sent to procure some whisky. The whisky being brought, a large dose of it was ad-Greenville, S. C., News 5th inst. ing brought, a large dose of it was administered to the child, and at last accounts she was doing well, the bitten foot being only slightly swollen. Those who were present and witnessed the circumstances, avow that the noble and self-sacrigcing treatment of Dr. Durham saved the child's life. Few men would have run the risk involved in drawing the poison into the mouth and drawing the poison into the mouth and spitting it out, and it would be a very dangerous thing for persons having a sore mouth or decayed teeth to do. Dr. D., it is said, experienced a sensation in the lips and mouth, but nohly endeavored and succeeded in extracting the poison from the wound.

A JERSEY STIR UP!

Quiet old Mt. Holly, N. J., has had a stir up—unequaled in its magnitude since Washington passed through on his way to Monmouth, Mr. Charles Salies, a leading citizen and president of the Vincentown Mari Ce, sent a dollar to M. A. Dauphin, New York, and got back \$15,000 for his venture on half ticket of No. 87,090 in the April drawing of the Louisiana State Lottery. On June 14th over \$500,000 will be divided, in sums from \$100,000 dewn, amangst those who shall have followed his example in sending their investments to M. A. Dauphin at Ne. 212 Broadway, New York city, N. Y., or same person at New Orleans, La.

Beecher's Meney.

Philadelphia Record. One of the mysteries of the age is what Henry Ward Beecher has done what Henry Ward Beecher has done with his money. At one time he was in receipt of \$20,000 from his church, \$10,000 from his newspaper, \$20,000 from his newspaper, \$20,000 from his lecturing and \$10,000 from his lectur the value and ordered it burned. In an hour the track was all clear. In order to make his own car go he put an end to another which didn't belong to him.

The present value of vineyards in California is reputed by President Haraszting, of the State Board of Viticultural Commissioners, to be about \$35,000,000, the income from which amounted last year to \$3,500,000. He is of the opinion that within three years the vineyards will be yielding to their owners \$5,000,000 a year, or 10 per cent. on \$50,000,000 valuation.

This Year's Cotton Crop.

The Liverpool Daily Post, a high authority, prefers the bull side of the new crop. It says: "The American crop may reach 6,500,000 bales against 5,757,000 last season, or an excess of 743,000 bales. From this must be deducted 3½ per cent. on 6,500,000 bales for extrawaste, say 227,000 bales. Egypt is sending 450,000 cantars, equal to 90,000 bales of American weight, less than last season, and the shipments from Bembay are estimated as likely to be 50,000 to 100,000 bales less, say 65,000 bales of American weight, making, with the deficit from Egypt, a total of 155,000 bales, or with the 227,000 bales extra loss in spinning the American crop, an aggregate of 382,000 bales to be deducted from the 743,000 bales excess in the American crop; and leaving 861,000 bales as the actual excess to be dealt with this season, the greater part of which will have disappeared by the end of September. People now wonder at the size of the crop. In October they will wonder what has become of it. Of course there is no scarcity of cotton, but there is not so much of it that it need be thrown away; and time will show that regarding cotton on its own need be thrown away; and time will show that, regarding cotton on its own merits, there is nothing to justify the doleful view just now being taken of the prospects of the market."

AN OLD LADY writes us: "I am 65 years old and was feeble and nervous all the time, when I bought a bottle of Parker's Ginger Tonic. I have used a little more than one bottle and feel as well as at 30, and am sure that hundreds need just such a medicine," See advertisement.
