EUROPEAN IMMIGRATION.

The immigration to this country within the past spring and summer so far, has been extraordinarily large, and yet the tide continues with unabated flow. This may seem singular at first sight, but when we look at the condition of affairs in Europe, it can be easily accounted for. Everywhere in the governments of Europe there is unrest and dissatisfaction among the people, and in many, great suffering-suffering among the people in the towns and among the people in the country.
