THE DIFFERENCE, Mr. H. I. Kimball, director-general of the Atlanta Cotton Exposition, has returned from his visit to some of the Northern and Western cities, having accomplished all that he went for. He reports the most enthusiastic receptions by the business men of the cities

which he visited, and subscriptions so liberal that the committee decided that there would be no necessity of charging for floor space and voted to give space free to all exhibitors.

We call attention to this fact because of all the Southern States there are Irregularities in the San Francisco only four which have manifested any interest in this great undertaking, which is calculated to so materially advance the interests of the South. It is difficult to understand why our people take so little interest in letting the world know what we have, and what we are capable of producing, when one Grant hasn't been interviewed for a of the chief causes of the backwardness

The interest Northern and Western men took in this work, as represented by Mr. Kimball, is proof that they intend to be present there on that occasion, and it will look badly for the South and for Southern progressive-

The United States law only required that the Legislature when in session shall vote each day for United States Senator, and though he had no doubt on these points as it was pleasant to let certain gentlemen out to go home. He would vote for the resolution.

Senator Woodin said the resolution proposed to delegate a power which the convention does not possess. The presiding officer has doubted that this sonvention has power to regulate pairing. Then why give to the committee such power? He therefore moved to lay the resolution on the table, and if the system of pairing is wanted let it be done as heretofore.
