TUESDAY, JULY 5, 1881.

OUR HALF SHEET.

It has been a custom in THE OBSER-VER establishment for twelve years to give its employes the 4th of July, and we suspended Sunday morning with that intention, but in view of the intense interest pervading all classes of our people in regard to the condition of the President, we issue a half sheet this morning containing such information as had come to hand up to 12 o'clock last night.

THE PRESIDENT'S ASSASSINATION

Speaking as a Southerner and in the name of Southern people, we deplore the assassination of President Garfield, and whether it is successful in taking his life or not, we must hope that there is not, in all this broad South land, a single individual who is so lost to all sense of sympathy towards the President of this country as to rejoice over the attack upon his life.

And yet the attack has been made in broad, open daylight; in the capital of the nation, and in the full blaze of the civilization of the XIXth century. A crazy lunatic sends a bullet, at least on the errand of murder, into the mortal frame of the one man who writes his name as President of these United States, and the one life which stands between Arthur, Conkling and Grant as the rulers of this country, and a nation weeps, not idle tears, but agoniz-

Can we, will we believe that this is one of the accidents of life, or shall we believe that

"There is a divinity that shapes our ends, Rough hew them how we will,"

Or shall we go further and find if we can any pretext upon which to base a reasonable conclusion for so base an act of treachery, not to say of revolution. "They have sown the wind, and they shall reap the whirlwind," were not truer words in the days of Hosea, than in the days of Garfield and Washington corruption. If we go back only a few short years we find Mr. Garfield, as one of the chosen, trusted leaders of his party in Congress, pouring out vituperation and maledictions, causelessly and untruthfully, upon a large section of those who ought to have been his own people. And if we could forgive him for the DeGolyer fee, and the \$329 transaction, his record in the Louisiana infamy is enough to damn the character of the vilest politician on this earth. And then with all this black record, his partisans smothered the voice of the nation by a system of bribery and corruption, known only to the disciples of his party, and shamelessly bought his way into the White House, while a nation stood aghast at the infamy thus crowned with seeming

No one dreamed of the assassin's bullet, but the history of the world furnishes no instance where power has been peacefully enjoyed that has been thus secured, and Mr. Garfield's incumbency of the highest office within the gift of the people could not furnish us with an exception to the rule. Within the four short months since his inauguration he has seen his party rent in twain, and he himself lies to-day a monument to his own infamy. Thank God no Southern man has been implieated in this deed for which the nation justly blushes, but thrice thankful are we that no Southern statesman's name is tarnished with any such record as emblazons the political escutcheon of James A. Garfield, et id omne, in their mad thirst for power. These are harsh words to write of a dead or dying prestruth and:

"No soul can soar too loftily whose aim Is God given Truth, and brother love of man. Living, the South expected nothing from James A. Garfield beyond a partistatesmen, and write high up on the temple of liberty at which we worship, that the perpetuation of republican tives of the United States in London government on American soil, does not | and Paris: depend on the life of any man. Le roi est mort; vive le roi.

God, whether it be by furnishing a lunatic to assassinate partisan rulers, or whether it be by teaching common justice to those who are called upon to administer our laws. Laws will be and judicial officers will administer them under the broad palladium of constitutional limitations, in the inter-

WASHINGTON NEWS.

CONDITION OF THE PRESIDENT.

Latest Telegrams Showing Unfavorable Symptoms, and the Anxiety of His Friends.

EXECUTIVE MANSION, WASHINGTON. D. C., July 4.—We held a consultation with the physicians in charge of the President's case at 7 a. m. this morning and approve in every particular of the management and of the course and treatment which hasbeen pursued.
FRANK H. HAMILTON,
of New York.

D. HAYES AGNEW,
of Philadelphia.
WHITE HOUSE, July 4.—The following telegram has been received by Mrs. A. F. Rockwell: RIVERDALE, N. Y., July 4.

Mrs. A. F. Rockwell, Executive Man-

For Mrs. Garfield-At such a time I will not presume to recall myself to Mrs. Garfield by directly addressing her—yet I cannot remain silent. May I not hope, madain, that through your courtesy and good judgment the afflicted lady may receive the assurance of my heartfelt sympathy and earnest prayers for the welfare of her and hers. Of course hundreds are at hand to render all service for the patient, but if I can aid in even the most trivial way, command me I entreat you, and dear madam, believe me,
Most respectfully,
CLARA MORRIS.

EXECUTIVE MANSION, July 4, 10 a. m. -The feeling of suspense which prevailed late last night among those at the Executive Mansion was relieved somewhat by the official bulletin issued this morning. This was plainly observable in a more hopeful expression of their faces after reading the bulletin. Among others present when the bulletin came from the physicians were Secretary Windom, Postmaster James, Gen. McVeagh, Gen. Swain, Marshal Henry, and Col. Rockwell. Postmaster General James particularly seemed more hopeful and expressed himself much more hopefully than he did at a late hour last night. Secretary Windom says he never lost hope, though his anxiety at midnight last night was intense. He felt then that the case was extremely critical, but he has always believed that the President's courage, calmness of mind and great vitality would carry him through safely. "If, he says, "The injuries are to prove fatal it seems to me that we should have had an increase of dangerous symptoms last night, instead of a slight improvement which we find this morn-

Washington, July 4.—Dr. Bliss, one of the President's physicians, authorizes the positive contradiction of a rumor in circulation to the effect that he has stated that President Garfield's case is

practically hopeless, and that there is no use misleading people EXECUTIVE MANSION, 10:50-The physicians have succeeded in relieving the pain in the feet and legs of which the President this morning complained, and which was due to the injury of nerves leading to the lower extremities. The symptom was not regarded as a dangerous one, but the pain if allowed to continue might act unfavorably by causing restlessness. The President's condition in other respects has not changed since the date of the last official bulletin. He is now resting quietly and his physicians continue to be cheerful and hopeful.

Secretary Lincoln is quoted by the morning papers as saying at 2 a. m. that "Hope was dead." He, however, denies having made any such remark, and says that while his anxiety at midnight last night was intense, and while he was alarmed at the unfavorable turn which the President's condition seemed to be taking, he at no time lost hope, and that this morning he does not see why the President's chances of recovery are not as good as at any timo sine he was shot.

Mrs. Garfield had a good night's rest last night, and is at her husband's bedside this morning, feeling refreshed and

EXECUTIVE MANSION, WASHINGTON, D. C. 11:50 a. m.-There is no material change in the President's condition. Dr. Agnew, an eminent surgeon of Philadelphia, who came here this morning to consult with the President's attending physicians, says that in his judgment there are some features of the President's case, which are extremely encouraging. Among these is the fact that the kidneys and intestines are entirely uninjured, and capable of performing their functions. The liver is lacerated to some extent and the large nerves leading from the spine to the lower extremities have been so injured as to cause pain which the President refers to his feet. The stomach ident, but it is our duty to write the | however, retains nourishment and the patient is slowly gathering strength to meet secondary inflamation when it occurs. As yet there is little evidence of it, and nothing to indicate that it will be of extraordinary extent or severity. Dr. Agnew regards the President's condition with much hope-

EXECUTIVE MANSION .- 12:20 p. m.the constitution, as interpreted by her gard as extremely critical, but not without hope.' Secretary Blaine has just sent the

"An important consultation was held this morning, at which Dr. Agnew, of will pass away. We will become a were present. The result is not reas-

up hope. (Signed) Secretary." while the case is still critical, there is enacted which will be less sectional, every reason for hope of his recovery; and considering the nature of the wounds the situation is favorable as it possibly could be. Regarding the crisis the doctor said: "If the President passes ests of justice and for the good of through to-day without losing strength every patriot North or South. So mote it will be exceedingly encouraging. The crisis, however, cannot be definitely fixed as there may be a change at any time." The doctor said that examinations which have been made confirm the opinion that the ball is located in the neighborhood of the liver.

dent's vitality we hope for favorable results. Of course we cannot venture an opinion, hence we aim to bulletin facts as they appear from time to time, for the purpose of permitting the public to draw their own conclusions through the aid of the medical fraterni-

12.15 p. m.-Dr. Pomerine an eminent surgeon of Ohio, who served as surgeon in Gen. Garfield's regiment during the war, saw the President this morning, and expresses the opinion that the next 24 hours will determine whether the case will prove fatal or not.

EXECUTIVE MANSION, 2 p. m.—There has been no material change in the President's condition since the date of

issued regarding the President's condition is considered by the medical pro-

was written. 2:25 p. m.—The President awakened from sleep a few moments since and said to Dr. Bliss who stood by his bed side: "Doctor, I feel better than I have at any time since I was wounded." 2:45 p m-The attending physicians continue to express a hopeful opinion of the President's case. Peritonitis has not supervened as yet and there are no more indications of it than there were this morning. The condition of the President therefore although critical, is no worse than was to be expected.

EXECUTIVE MANSION.-The Secretary of State has just sent the following

To Hon. Amos Townsend, Cleveland, O. The President's condition has not materially changed since morning. At this hour—half past two—he is suffer-ing less pain. He is entirely calm and courageous. His mind is clear and he accepts whatever fate God may ordain for him, with perfect resignation, and to the final result. (Signed)

JAS. G. BLAINE.

The following telegrams have been received:

MONTGOMERY, ALA., July 2, 1881.

NEW YORK, July 4th, 1881. Secretary of State, Washington, D. C. I have just learned, with the deepest regret and indignation, of the horrible attack upon the President's life, and sincerely trust he may recover. CAMPERALE, The Charge De'affairs of Italy. Senator Martines, Minister from

President and people of the United Mr. J. F. Elmore, Confidential agent in this country of the Provisional Government of Peru forwarded on Saturday a letter expressing the deep sorrow

The anxiety which has been very in tense all this evening has certainly deepened a great deal in the last hour, and in the city at least, gravest apprehensions are entertained of a fatal

EXECUTIVE MANSION, 9:20.—The President's condition to-night is admitted by his attending physicians to be more unfavorable than it has been during the day, but the change is not regarded and the President has been more or less restless from that cause, and the pain due to the laceration of the nerves wounds, stood ready to fight or die in leading to the feet. The attending his father's defence. The scene begphysicians are very reluctant to express any positive opinion upon the morn, warm and tranquil as the face of facts stated in to-night's official bulletin, but they are hopeful that the temperature will fall and the pulse grow less rapid during the night as was the case last night, and that the condition of the patient to-morrow morning will not be worse than it was this morning should these anticipations be realized. The attending physicians say they have very strong hopes of the President's final recovery. Since the date of the last official bulletin (7:45) p. m.) his temperature and pulse have slightly decreased, which is taken as an indication that the views above expressed are not without foundation. At the present time all that can be posstively said is that the situation of the President is critical, but that there are indications of an abatement of unfav-

BLISS. morning. J. K. BARNES,

> GRAPHIC ACCOUNT OF THE SHOOTING. As the President, accompanied by Secretary Blaine, was entering the de-pot of the Baltimore and Potomac Railroad at Washington Saturday morning to take the train for Long Branch, he was shot twice by a man named Charles Jules Guiteau, who had been lying in wait for him. This occurred at 9:20 a.m. The first ball from the assassin's revolver struck the President near the left shoulder and passed out by the shoulder blade; the second struck him in the back over the left kidney. The President turned at the his party who had preceded him rushed to his assistance. The assassin was instantly overpowered and arrested. The President was carried to a room on the floor above, medical aid was summoned and stimulants administered. The great, strong man thus basely stricken down soon rallied from the shock and was borne in an ambulance made to ascertain the nature of the

orrhage was believed to be taking place. Morphine was hypodermically injected and he became easier. AT THE DEPOT. The first shot not being noticed by the President or his companion, the second and the fatal one found Mr. Blaine on the sill of the door, who instantly called for help. It is believed that the second shot was intended for Secretary Blaine. Guiteau wanted to be consul at Paris. Last fall he bored Blaine with simple-minded letters proposing to take the stump in Maine, and was not regarded as a useful man in the campaign. He has been stopping at the Riggs House, and has shown no peculiarities during his stay to lead to the belief that he is of unsound mind. Secretary Blaine's private secretary says from what he knows of the persistent appeals of Guiteau that he must have intended to shoot Blaine. The

second shot gave him a very-narrow

wounds. The gravest fears were en-

tertained. The patient remained con-

scious, conversed cheerfully and hope-

fully, but his pulse was high, he was

suffering some pain and internal hem-

Col. Jameson, who was to have had charge of the President's party, was the first to communicate the sad news to the cabinet officers. From the scene to the rear of the train was a distance of perhaps 200 feet. As though drawn by an invisible power the presidential party in a second was surging toward the room where the prostrate form of the President lay. Five members of the cabinet were then present Messrs. Blaine, Windom, Lincoln, Hunt and James. In a few minutes Attorney-General MacVeagh, who was at his office when the deed was done, had arrived. The President's son Harry, scarcely realizing what had happened, for but little blood fell from the wounds, stood ready to fight or die in morn, warm and tranquil as the face of nature in early spring, encouraged the brightest thoughts and happiest feelings in the hearts of the company that was to journey with the President. Now their countenances were black with sorrow. "President Garfield assassinated," exclaimed Secretary Hunt. "Impossible." No, if a meteoric stone had singled him out as its victim it could not be more improbable. Secretary Lincoln realized in an instant his position. The son of an assassinated President and the Secretary of War of another victim by the assassin's hand, he quickly gave the order for the troops stationed at the arsenal to hold themselves for immediate orders. The same was done by the Secretary of the Navy, who directed that the marines should be held for similar orders. Meanwhile word was sent to Surgeon General Barnes, Drs. Norris, Lincoln and Woodward, requiring their immediste presence at the depot. With the messengers trooping over the pavements it was not long before every part of Washington was informed of what had happened, and the fact became generally known. Then a crowd soon assembled, and in less than ten minutes Sixth street and B street were packed with people, and the news of the horrible affair flew from mouth to

mouth and spread over the city like

wildfire. An attempt was made to rush

tary Hunt about fifteen minutes ago said there was no perceptible change in the President and that his symptoms were very favorable. The President partook of a quantity of

same as when his condition was last reported. 6.20 p. m.—There is strong feeling outside of the White House that the President's condition is more critical at this time than it has yet been. This impression rests undoubtedly on remarks privately made by those who are conversant with the case and whose avenues of information are of the best possible character. No official bulletin will be probably issued at present and it is held the physicians in attendance are deferring a bulletin that a change for the better will occur shortly.

orable symptoms. Postmaster General James and Secretary Hunt'express themselves as confidently hopeful that the President's condition will improve during the night as it did last night, and that there will then be very strong reasons for expecting his final recovery.

with her daughters, Mrs, Larabee, at Solon, Ohio, owing to the recent death of Thomas Garfield, the President's uncle. The news of the President's assassination was not broken to the old lady her trials most nobly, and her fortitude has assisted us in our work very much. With her continued aid and the Presi- that when the news was imparted to of policemen, summoned by telephone,

NO. 3,838.

This was all she said at the time. Since then, however, more encouraging news has been forwarded regarding the
