A pet rattle snake has died in Wilmington. Another friend of the anti-prohibitionists gone. But they will not mourn this one much as he was a pet snake and not a bitist.

During the late warm spell the thermometer registered on 15th inst. 97 degrees at the Greenwich Observatory.

Philadelpia Record: Midhat Pacha, was a civil-service reformer, and see where he has landed. He has no more influence in his country than George William Curtis has in the United States.

China has gone in for retrenchment and reform with a healthy vim. She has accredited one ambassador to represent her simultaneously at the courts of Berlin, Vienna, Rome and the Hague.

China here sets a commendable example to the United States, which still persists in sending ministers abroad when she has no more use for them than an elephant has for two trunks.

OCEAN TELEGRAPHS have made such of these entirely useless.

The Philadelphia Times says: Governor Foster, with the true genius of the politician, it seems, proposes to make some political capital for himself out of the attempted assassination of the President.

CRUELTY TO ANIMALS. Raleigh News-Observer.

The first conviction under the Bergh law for the prevention of cruelty to animals seems to have occurred in Martin county, where Stewart Rogers, colored, was tried before Justice J. L. Ewell, last week, for killing his mule by knocking it on the head with a fence-rail, and on conviction was fined \$25.

PROSELYTIZING IN THE SOUTH

The Atlanta Constitution of yesterday has an article on Mormonism in Georgia, from which we clip the following, which shows that the "salts" have been making progress lately, and more of them than any body else anywhere.

In the western district of North Carolina we think the "converts" will be found to be very few and far between.

Here is another invasion of individual rights to which we call the attention of anti-prohibition stump speakers. Why this negro own the mule? and had he not a right to knock "our property" on the head? Surely "our liberties" are gone when a sovereign negro can't bust his own mule's head with a fence-rail.
