CONKLING TO VISIT THE SOUTH.

It is reported that Conkling purposes visiting the South sometime next fall to make the acquaintance of the Southern people. He is now reduced to the necessity of openly fighting the Republican party or of taking a subordinate position in it under Blaine, his bitter foe. He is not the man to take a subordinate position, for he has just egotism enough in him to believe that he was born to rule, and force of will enough to compel a great many people to practically acknowledge it. Besides this he is a man of big brain, indomitable purpose, unlimited brass, unquestioned courage, unsurpassed energy and perseverance, a good hater and a better friend than politicians usually are. Perhaps this is one of the reasons rope until he gets over the shock of of his following, and will account for how he holds his followers in hand when he enters a contest. That he has great talents and wonderful influence over other men no one will deny. They who know him best do not believe that he will sit quietly down and bear the humiliation that Blaine has The late Justice Clifford was a most

put upon him at Albany. But what will he do? The New York Herald, which was to some extent his mouthpiece during the early stages of the conflict with the administration, and the battle at Albany, intimated pretty broadly that in the event of defeat he town is beginning to put on airs. She would devote himself to the organizawill be a great city some of these days. tion of a new party-or anti-monopoly party, thus dividing, crippling and destroying the Republican party, and Jim Blaine with it. We believe his highest ambition will be if he is to be ignored by the party which he has been so instrumental in building up and maintaining in power, Sampson-like,to runs though he perish with it.

This may be partly his object in visit-Sitting Bull was induced to surrender | ing the South, to see what the chances are of securing co-operation in his kind to him and secured his confidence scheme. He will find but little encouragement in this section, for our people will take little stock in new parties and still less in him. The Southern people have no reason to admire him, for among all their bitter misrepresenters and haters he was the most unrelenting. From his senatorial seat he never lost an opportunity to fling inpostmasters that hereafter every fail- sults into our face and spit out ure to settle promptly, at the end of slander against us. The South knows all this and can never accept any overtures from as mendacious and unrelenting a foe as Roscoe Conkling. Let him come South. It will do him good, perhaps, to learn something about us by personal observation, but as a political mission it will be a signal

## THE AREA OF TEXAS.

The Rev. Dr. Burrows, of Louisville, Ky., recently made a visit to the "Lone Star" State, and gives the following as his idea of the area of that State: "The first impression one gains in traveling through Texas is one of bigness. Figures give but an indefinite idea of its immense extent. The six New England States, New York, Pennsylvania, New Jersey, Delaware, Maryland and Virginia would not cover its area by 6,000 square miles. The great States of ritory. The execution was in public and was witnessed by from 8,000 to 10,000 people. The mother and sisters of the boys, and a young lady to whom the oldest one was engaged to be married visited them in the cell just before the execution where a heartrending scene occurred, and the ladies had to be finally removed from the cell in a frantic, crazed condition. They begged piteously for the life of the boys, but begged in vain, while the crowd were outside impatiently waiting for the show, eager to see two human beings swing into eternity.

These public executions are brutal and demoralizing. Executions should be in private and only witnessed by the number of persons necessary to dispatch those condemned with all decent

WASHINGTON, July 27 .- The following has been sent by the Secretary of State to our Lowell minister at London. At 1 o'clock p. m. the President's condition is greatly improved. Pulse down to 90, temperature and respiration normal, appetite good. His sleep last night was very refreshing. Signed,

Secretary.

UNOFFICIAL BULLETIN.

EXECUTIVE MANSION, July 27 .- 2 p. m.—The very favorable symptoms noted in the last official bulletin still continue. The President is free from fever and resting quietly. Doctor Agnew returned to Philadelphia to-day, but Dr. Hamilton will take his place here to-night or to-morrow morning. UNOFFICIAL BULLETIN.

EXECUTIVE MANSION, 4:15 P. M .- At 1:15 p. m. Dr. Bliss reports continued and steady improvement in the President's condition. He has been very quiet and comfortable throughout the lay. Has taken nourishment in increased quantities without any symptoms of gastric disturbance. Has slept peacefully at intervals without anolynes and up to this hour has been entirely free from fever. All his symptoms in the judgment of attending surgeons are full of encouragement.

EXECUTIVE MANSION, 7 p. m .- The President is still resting quietly. He has been able to take more nourishment to-day than for several days past, and up to the present hour has had no febrile rise of temperature. His wound has just been dressed. It looks well and has continued to discharge healthy pus in sufficient quantity during the day. His pulse is now 96, temperature 98.5, respiration 20.

Resignation of Mr. Simonton.

NEW YORK, July 27 .- James W. Simonton, who has occupied the position of general agent of the New York Associated Press for the past fourteen years, to-day tendered his resignation, and Mr. James C. Hurston, at present London agent of the association, was appointed to succeed him. A desire to attend to his private business was the main cause for Mr. Simonton's severing his connection. The association in accepting his resignation at the meeting to-day, authorized the executive committee to express their appreciation of his services in the following

communication: The executive committee of the as sociated press, to whom was entrusted the duty of preparing an expression of the opinion of the association in regard to the voluntary retirement of J. W. Simonton, as general agent of the association, report as follows:

"That Mr. Simonton has been the general agent of the association since November 5th, 1866, and that in all these years he has discharged the duties of his responsible and arduous work with great fidelity to the several members of the association and with general acceptance to the public. The office is one which requires capacity, integrity and industry, and we have never found our general agent wanting in any of these qualities. Mr. Simonton leaves the association with his own free will, and not at the request or wish of any of its members. Breeze LONDON, July 27.—A dispatch from Madrid says the Cardinal Archbishop, of Toledo, Primate of Spain, in a pastoral letter read in every church of his diocese has most violently attacked the Italian people and government, inciting all Catholics, even princes, statesmen, and if necessary use force and arms to restore independence and the temporal power of the Pope in Rome. The Italian minister at Madrid earnestly protested, and the Spanish Cabinet declared that it severely blamed the Primate's language and would cause a strong remonstrance to be made to him. The dispatch from Madrid to Reuter's Telegram Company says the govern-ment has not submitted the pastoral letter to the Council of State, but will verbally express to the Primate their dis-approbation of his language and will make no reply to the communication of Cardinal Jacobini, Papal Secretary of State, on the subject. The Spanish Ambassador at the Vatican will notwithstanding have instructions to communicate to the Pope the regret of the Spanish government at the distursurbance, attending the removal of the remains of Pious IX.

Ten Million Bales in Texas. The New York Cotton, alluding to the splendid prospects in store for Texas as a producer of cotton, states that all its "advices from Western Texas agree that the opening up of the country by the new railroads has worked a revolution in men's minds as to the adaptability of those enormous expanses of country for successful cotton culture. It is found that, far from being almost a desert, the land is as fertile and well watered as any in the South. Texas is only waiting for men to produce 10,000,000 bales per annum in its own limits." A Dewn Town Merchant,

Having passed several sleepless nights, disturb ed by the agonies and cries of a suffering child, and becoming convinced that Mrs. Winslow's Soothing Syrup was just the article needed, procured a supply for the child. On reaching home and acquainting his wife with what he had done, she refused to have it administered to the child, as she was strongly in favor of Homeopathy. That night the child passed in suffering, and the parents without sleep. Returning home the day following, the father found the baby still worse; and while contemplating another sleepless night, the mother stepped from the room to attend to some domestic duties, and left the father with the child. During her absence he administered a portion of the Soothing Syrup to the baby, and said nothing. That night all hands slept well, and the little fellow awoke in the morning bright and happy. The mother was delighted with the sudden and wonderful change, and although at first offended at the deception practiced upon her, has continued to use the Syrup, and suffering crying babies and restless nights have disappeared. A single trial of the Syrup never yet failed to relieve the baby, and overcome the prejudices of the mother. Sold by all Druggists. 25 cents a bottle.

SKILL IN THE WORKSHOP.

To do good work the mechanic must have good health. If long hours of confinement in close rooms have enfeebled his hand or dimmed his sight, let him at once, and before some organic trouble appears, take plenty of Hop Bitters. His system will be rejuvenated, his nerves strengthen-ed, his sight become clear, and the whole consti-tution be built up to a higher working condition.

## Wholesale Grocers

1217 CARY STREET,

RICHMOND, VA.

Because of the cheap rates of transportation, and the location of Richmond, she offers spe inducements to Who'esale Buyers in North Carolina. We claim to stand at the top.

upon the fact that a chemical grown in our section is better adapted to make a GOOD, PURE, satisfactory smoke than ANY OTHER tobacco grewn in the world; and being situated in the INEART of this fine tobacco section, WE have the PICK of the offerings. The public appreciate this; hence our sales EXCEED the products of ALL the leading manufactories combined. None genuine unless it bears the trade-mark of the Bull.
