

The Charlotte Observer. SATURDAY, JULY 30, 1881. OUR MINES.

Salisbury Watchman BECK MINE. This property lying ten miles from Lexington, contains 95 acres. It is near the Silver Hill and Silver Valley mines. A company has been formed to develop the property, which is thought to be rich.

The Reed Gold Mining Company of Cabarrus county have come into a rich pocket-have found a large quantity of cumulation of rain water. small particles and three nuggets weighing from one to five ounces. They worked only four days this week and were forced to stop on account of failure of water. As soon as the water supply can be made reliable, they will continue the work. They are driving tunnels and working the surface. The income of late has amounted to a hundred dollars a day.

THOMASVILLE NOTES-Among the mining men recently visiting Thomasville, are John C. Rahminy, of New York, W. B. Hart, of Rhode Island, G. R. Herring, Bergen, N. J., S. T. Maffley and Philo Norton, of Philadelphia, Frank Rudd, of New York, and Henry Mathey, M. E., of New York.

ALLEN MINE .- The water is being taken out of the main shaft and another shaft is being dug from which Superin-

tendent Crump says they are taking out ores of much better grade than from the old shaft. They work a force of 10 to 15 hands.

fatally. BALTIMORE GOLD AND SILVER MINE. A large boiler and fixtures and machinery have been added to this mine which will enable them to work on a

large scale. STELLE MINE.—Supt. Popplein gives nformation to the effect that the ores now taken from this mine are exceedingly rich, and will assay up in the hundreds.

HERRING GOLD .- Prospects flatter-ing. They are running two Howland pulverizers, and say they realize a hundred dollars per day. It is their intention to add more machinery which will enable them to greatly increase the vield.

WARD MINE.-Messrs. Mafiley and Norton are erecting machinery on this than four weeks. The end will be property for working surface deposits | reached after a while. and low grade ores.

tail which he thinks will average \$15 a few bed clothes. per ton.

the State on prices paid. County Treasurer J. B. Neathery has up to date this year paid \$17,370 for ublic school purposes, against \$21,000 for the whole of last year, and the summer schools have not been paid.

Wilmington Review: Chesnut street, between Second and Third, was almost entirely submerged and almost utterly impassible this morning, from the ac-

The friends of prohibition seem to be taking courage and getting their backs up. We heard this afternoon that a prohibitionist went to an anti and offered to take a bet of \$50, which anti had offered to make, that the bill would be defeated by 20,000 majority. Our same informant says that anti backed. Two \$1,000 city bonds, bearing 6 per cent interest, were sold in this city a

day or two ago for \$1,040 each. A few years ago these bonds were consideraly below par, but since the Democrats have been at the helm the bonds have title to the property. The sale is bona steadily advanced until now they are fide, and it is the intention of the Bossteadily advanced until now they are at a premium and very few for sale.

Goldsboro Messenger: The Newbern district conference, M. E. Church South, will convene at Ormand's Chap-el, Snow Hill Circuit, August 11th,

The house of Mr. Nathan Hinson, in New Hope township, was struck by

A boiler exploded on Monday at the saw mill owned by Blount & Miller,

two colored men, near Dudly in this county, killing Lewis Kornegay, colored, who happened to be at the mill waiting for a load of lumber.

Asheville Cilizen: The Western North Carolina Railroad is making

the terminus of the road. In 'a few days, Marshall will be reached, and so, the work goes bravely on. Capt. J. M. Jones, one of the very ex-

branch of the Western North Carolina Railroad, has graded three miles and a

tain" in Montgomery county. He has on last Friday night, together with discovered a vein of quartz and soft everything that they contained, except

lege by erecting new cotton mills. The sale of separate parcels of real estate is postponed until August 16. Kidney diseases afflict the greater part of the human race, and they are constantly on the In-crease, but where the virtues of Kidney Wort have become known, they are held in check and speed-ily cured. Let those who have had to constantly

THE GENUINE

miles south of Lexington and seven miles southeast of Linwood, contains four hundred and thirty acres of land. The mountain proper, about 200 feet higher than the surrounding country, rheumatism, and other maladies are completely removed by it. Ask those who have used it what it has done for them. For sale by all Druggists and Dealers generally. Gold Hill in Rowan county, is one and

a half miles west from Silver Hill and next adjoining the "Weed Mine." This latter has been developed to the depth of 70 feet, and was said to be paying. It was recently purchased by Mr. Weed, of New York.

On the mountain are five well defined quartz veins. These veins all run near ly parallel with the length of the hill and seem to be perpendicular fissures. The theory of resident miners is that

these veins join at a depth of say 150 or 200 feet. The largest vein is three feet wide, while the other four will average two feet. There is one shaft open to the depth of 28 feet, besides which there are sev-

eral prospect holes. This new shaft has cut a vein of honey-combed, pyritifer-ous quartz, three feet in width, bound by a mass of soft talcose slate. The body, or underlying rock seems to be a talcky slate of grayish color. The ores taken from this vein show a

rich point of coarse gold-some of the particles approaching a half grain in weight. No assay has been made ex-cept by pan. This shows a value in free gold of from 10 to 28 dollars per ton. The presumption is that the veins will up into suppower to the visited by heavy rains yesterday morn-ing, and, from what we can under-stand, it is probable that they were very general. Salisbury Watchman: Died in Tex-as, on the 10th instant, Mr. David run into sulphurets after passing water level, though at present the indications are very slight.

On some of the other out-crops there are evidences of copper, but in no great quantity. The land is well timbered and lies

well for mining purposes. The mountain is owned by five heirs,

who reside in three States, and they are anxious to dispose of the property for the purpose of division. Gen. G. W. Smith, at Linwood, Davidson county, will show the property and all letters of inquiry may be addressed to him. He is in position to assure a sound title. There will be nothing like an extravagant price asked for the property.

Excitement in Albany--A Strange Man With a Strange Gun.

ALBANY, N. Y., July 27 .- Much excitement was created here at noon today by a rumor that an attempt had been made to shoot Governor Cornell. The particulars of the affair are as follows: At 11:30 o'clock an unknown man walked up the stoop of the old capitol, and was about to enter the building, when the superintendent of the building, Thomas Hyde, noticing the strange appearance of the man, who was carrying an old-fashioned gun on his shoulder, stopped him and asked him where he was going. He replied: "I am adjutant-general of this State." Hyde, judging that the man was crazy, and fearing that some harm to the State officials was intended, asked for the gun. The stranger declined to give it up, whereupon a desperate struggle ensued for its possession, Hyde finally securing it. The gun proved to be un-loaded. The stranger, who is evidently not yet recovered from the effects of a

that we can hear from in which early planted corn will make anything at all -it is a complete failure. Late corn has also been injured seriously by the drought, but with seasonable rains from now on it will make a pretty fair

Cotton has also been cut short, but to what extent we can not say. We can only hope that the damage is not as great as the fears of the farmers would make us believe.

Kernersville News: The convicts on the C. F. and Y. V. R. R. made a break this week, four made their escape and one was shot.

F Durham Recorder: We stepped into Blackwell & Co's office a day or two since, and saw a telegraphic order for one million cigarettes. This branch of their business is rapidly increasing, and their cigarettes and long cut is getting to be as famous as their smoking

tobacco. Haywood Blalock, and a colored man was before the mayor last week on a charge of taking hands from manufacturers here, and carrying them to the West. The charges were sustained, and the parties bound over to court in bonds of two hundred dollars.

Wilmington Star : This section was visited by heavy rains yesterday morn-

> as, on the 10th instant, Mr. David Kerns, aged 74 years. Deceased was formerly a resident of this county.

China Grove is afflicted with typhoid fever. We learn that three persons are suffering from this disease now, while Dr. Archie is about recovered from a severe attack.

Died near Amity Hill, Iredell coun-ty, July 21st, little Tommie, son of G. A. and S. B. Masters, aged about three years.

We have been informed that a mineral spring has been discovered on the old Roberts place near Lexington, N. C. the water of which is very similar to that of the famous Saratoga Springs.

Reliable information has reached us to the effect that every county beyond the Blue Ridge will go for prohibition. We regret to learn that the drouth has been very severe in that part of Davie known as the "Forks," generally a land of Goshen, where scarcity is al most unknown. A gentleman from that section has told us that the corn and cotton crops are almost a total failure, especially on uplands. There has not been rain enough since corn was planted to wet the ground an inch deep. The tobacco crop is also a fail-
