HOME PENICILLINGS.

The mayor's court aint weakening worth a cent.

The churches were well attended Sunday in spite of the weather.

The comet reached its perihelion or brightest point Sunday night.

Now is the time for the festive rice bird to make its appearance.

Still warm, as the man said when the perspiration dropped on the pavement and splattered his boots.

The burglars in all probability have forgotten that one, Henry Hines, colored, was hanged here last spring a year ago for burglary.

The police were yesterday in search of a prize white woman named Ann Hawsaw, who escaped from the poor house Saturday. She is not dangerous, however.

There was a man in town yesterday with a matronly "possum and four-legged young ones, all as well as well fed dogs. When the little "possums would wander the man would whistle and snap his finger and they would come rolling in the promptness and eagerness of their obedience. It was a funny thing to see.

A gentleman yesterday told the reporter as a good item, that he had discovered in looking over his calendar, that the year '81 came in and went out on the same week day - Sunday. After thinking a second he blushed and said, "of course," when asked if every year but leap years were guilty of the same extraordinary proceeding.

Crushed Under a Load of Brick.

An old negro man named Bill Howell, who drives a dray for Mr. Hannibal Edwards was run over yesterday by his dray loaded with bricks. The mules became frightened and made a dash throwing him under the wheels. He was seriously bruised, but no bones broken, and his injuries are by no means dangerous. The mules were easily stopped, but refused to run with the heavily loaded wagon.

Typographical Errors.

Our correspondent at Wrightsville Sound, below Wilmington, writes to say there were a number of typographical errors in the letter which he had in place lately. If our correspondent will tell us how to avoid these blunders that sometimes mar the beauty of language, and distort ideas we will vote the said correspondent and a pension for the rest of his life. Errors of the type and not of the heart, count only in a printing office.

Petition for Construction of Land for the Waterworks.

The trade for the proposed site of the waterworks on Torrence lands near Little Sugar Creek not having been yet consummated, and there appearing little prospect for such consummation, the contractors will petition the county commissioners to appoint assessors to declare its value. Steps were being taken yesterday in this direction by Maj. W. W. Flemming, counsel for the contractors.

Fancy Dress Ball at Morehead.

The Observer acknowledges with thanks, the compliment of an invitation to a grand fancy dress ball at the Atlantic Hotel, Morehead City, on the 30th and 31st of August. On the committee of invitation from Charlotte are Messrs. F. J. Young is one of the managers, and Maj. Dowd, Gov. Vance and Col. J. L. Morehead are among the honorary managers. A peculiar feature of the ball is that it continues two nights, whether without intermission does not appear.

History of King's Mountain.

S. Watson Reid, Esq., of Steel Creek, this county, has accepted the agency for the sale of the "History of King's Mountain, and its Heroes." The work commences with a history of the causes which led to the American Revolution; gives an authentic history of the prominent Americans who were drawn into the contest, and concludes by giving a graphic description of the battle itself. The book is illustrated handsomely, on good paper, is beautifully bound, abounds in historical facts, and shows the editor to be every way a man who cares to know anything of his country's history.

The Festive Gun-Sling.

An August colored woman's eye got in the way of a shot from a gun-sling the other day in the woman's use, and will henceforth use, only one eye. Boys around Charlotte have been known to use such slings without that consideration for eyes which is calculated to make one feel like hugging the boy who owns and uses the sling. Is there not an ordinance against them here? But of course the way to do is to wait till somebody's eye gets put out here, and there enforce it, because we are not disturbed by what happens in August, and as there is much more room outside than inside of an eye most of the shots will of course hit something else.

Personal.

Mr. Egbert Hartly has returned from New York where he has been attending a pharmaceutical college.

Rev. Dr. Lacy is again in the city having returned from a visit to his son, Rev. William Lacy, in Moore county.

Mr. Nat Gray and son are at Morehead City.

Miss Mollie Sitt has gone to Monroe on a visit to friends.

Mr. A. H. Welch, bookkeeper for Kyle & Hammond, has returned from a two weeks visit to All-Healing Springs.

Mr. J. W. Osborne has returned from a summer visit to the mountains.

Miss Hattie Williams has gone to Pineville on a visit to friends.

Mr. Joseph Demco, of Columbia, formerly with the Methodist mission house, of this city, has recovered from a severe spell of typhoid fever.

MOKE BURGLARIES.

A Burglar Sits Down to Read Private

The burglars are again up and doing. They got in some pretty nice work Saturday night at the residence of Mr. Thos. Pope, who lives in Smithville.

Three suits of clothes, a pair of boots, and everything eatable in the house, were the result of the raid.

From Mr. Pope's the robber or robber probably went to Mr. T. L. Alexander's in the same neighborhood, for on that same night somebody was heard inside Mr. Alexander's house, but was frightened away. Mr. Alexander, working next door to Mr. Alexander, discovered a window open next morning and on investigating found a quantity of clothing missing.

Sunday morning Mrs. J. P. Thomas waked and discovered that a light which had been left burning in the room, was gone. She called her husband, Col. Thomas, who got up, pistol in hand. When he reached the passage he saw a light burning in his study. He went to the door and looked in. Seated at the table, the lamp burning brightly, was a burly negro, his back toward the door. He was quietly looking over Col. Thomas's private papers, and seemed absorbed that he had not heard the approach of the Colonel, who stood at the door, hesitating to shoot, inclined to believe from the very boldness of the intruder that it was not exactly a case of burglary - at least not one in which the revolver should be used without ceremony. So the Colonel spoke. The negro jumped and as quick as a shot was out at the open window. Colonel Thomas rushed after him and fired three shots; the last as the figure of the man disappeared around the corner of the house. Nothing was missed in the house except one suit of clothes, although the man had been to the dining room and eaten a midnight supper. From various disorders it was gathered that the thief had been through five rooms in the house.

Some one suggested yesterday that this was a very nice case, and that he was searching the Colonel's papers for a prohibition speech that he might destroy it.

Col. Thomas says he would not be able to recognize the man as he did not know him, although he might have shot him dead in his seat. He did not do so, fearing that it was some one who belonged on the place.

Improvements at the Rudisill.

The Rudisill mine is being vigorously worked under the management of the present lessees, Messrs. Stewart and McDowell. The mill is now running, and three Pomeroy concentrating tables, for saving the sulphurets and what gold the amalgamated plates do not take up, have been added. A fully equipped assay office has been added, and the work of the concentrators is carefully watched. The pump shaft has been sunk 65 feet, and a 250-foot level has been struck. The mine has also been enclosed with a 400-foot-square plank fence.

The Chicago Ideal Jubilee Singers.

Again favored the OBSERVER with a most delightful serenade last night. They are a company of five colored men and women who passed through Charlotte last Spring with the Ideal Uncle Tom's Cabin troupe. They left the troupe at Richmond and have been in Charlotte for about two weeks. Their voices are remarkably fine and their singing is decidedly superior to anything of the kind we have heard. They are as they say now "on the make" and they will certainly give value received to any who may desire to employ them or attend their entertainments.

A North Carolinian Distinguished in Europe.

Doctor Warren Dey, the well-known American physician in Paris, was a representative of the American Medical Association at the recent International Medical Congress which met this month in London. He is also a representative of the same association to other kindred organizations throughout Europe. Dr. Warren is a North Carolinian and was a distinguished surgeon in the Confederate army. He was a resident of Raleigh for a long while, but after the war removed to Baltimore, where he became famous. From Baltimore he went to Egypt, where, from a fortunate treatment of the Pasha during a severe illness, he received the title, Bey.

The Big Show Coming - A Reminiscence.

The OBSERVER has been officially notified that W. C. Coup's new united monster shows and Paris hippodrome will be in Charlotte on or about October 20th. Yes, yes, and there are those who are a little thing that took place at Coup's circus last fall.

It was pretty cold and a young gentleman from the country was asked in by some of the wicked town boys to take an "undershirt" before going down to smell the saw dust. The idea of calling it an "undershirt" and in fact the undershirt itself tickled the fancy of the young man from the country and in the goodness of his soul he took an "undershirt" before going down to smell the saw dust, so when he had rubbed his eyes, he wiped himself for the coming happiness and cast his optic on the ring he said disgustedly: "My golly, boys, this is the first infernal suckus I ever saw where the trick mules come in afore the horses and gals, all in a line."

A Suggestion from New Orleans.

We have probably not yet tried the best plan to get the railroads to build a passenger depot worthy of the importance of Charlotte as a railroad town. We tried begging, but there was no success; we tried railing, but the soulless corporations didn't get sorry for us; we tried bulldozing, but the "dozers" has not yet operated on the bull-headed railroads. There is still another plan which the New Orleans people have adopted to accomplish the same purpose.

The property owners in the neighborhood of the proposed improvements have been invited to assemble and take "active steps" as the Democrat describes it. "Active steps" probably means something in the nature of a consideration.

How much property in that portion of the city where the trains, except the Carolina Central, now stop would be enhanced it is not worth while to attempt to prove to reasonable people. The building of a new hotel would in all probability follow the erection of the depot, and the accumulation of business and pleasure around this nucleus would be such as to make it in a short while the most desirable part of the city. It is certain that property would appreciate more than enough to balance the amount which would be required to induce the railroads to erect the depot. Is it not worth while to "see about it," at least?

NEARLY ALL THE ILLS that afflict mankind can be prevented and cured by keeping the stomach, liver and kidneys in perfect order. No medicine will do this as quickly and surely, without interfering with your duties, as Parker's Ginger Tonic. See advertisement.

Knight of Honor

Among our readers will be interested in knowing that the State Grand Lodge of this order meets in Raleigh to-day at 2 o'clock p. m. It is the only body in the State which has the power to legislate for the good of the order. The members are now paying the 86th assessment, and one assessment now pays sixty-seven death claims of \$2000 each. These assessments average not far from \$1000 on the average. The order numbers over one hundred and twenty thousand members. June 30, 1881, was their eighth anniversary.

Venno for the last of August.

Venno's forecast for the latter part of August is as follows: "Eighteenth, hailstorms and frosts probably in some portions; 19th and 20th, heat and storms; 21st, sultry and showery; 22nd sultry and windy; 23rd and 24th, heat and wind; 25th and 26th, heavy storms on the lakes, on the St. Lawrence and around New York; 27th, 28th, cooler weather, with rains and frosts in the northern section; 30th, fair and pleasant with cool evenings and nights, with indications of returning heat."

Mayor's Court.

At the mayor's court yesterday morning Robt. Deary was fined \$2.50 and costs for assault and battery on John Ozment. Ozment asked for a peace warrant, swearing he was afraid of Deary, but the warrant was refused at Ozment's cost.

James Pettel, colored, was up for conducting his shaving business on Sunday. He appealed to the Inferior Court from a fine of \$10 and costs.

Sue Adams, an old Five Pointer, having returned from the State penitentiary, went to swearing and was fined \$5 and costs.

Douglas Grey, the negro whose wife from Thomasville came in with the excursionists Saturday and accused Grey of bigamy and of having forsaken her and five children, acknowledged the crime and was sent to jail for his appearance at the Superior Court.

A Whiskey Case.

The Inferior Court continued its sittings yesterday. The case of the State against Mr. W. R. Cochrane occupied its attention throughout the day. Mr. John Means testified that Mr. W. R. Cochrane had sold a drink. After elaborate arguments of counsel to the jury and the plea of the defendant as to whether Mr. Cochrane was bound to have a license immediately from the county commissioners, as to whether the old board of aldermen were the legislative power of the city, and as to whether the ordinance was passed and whether they had the right to revoke the city license which Cochrane had. Justice Waring quietly charged the jury that the license from the commissioners was necessary; that the old board was acting legally and that they had the power to revoke the city license. In conclusion he charged that if the jury believed Mr. John Means who testified to the spirits having been sold, that Mr. Cochrane was guilty. The jury was hung last night and will probably be hung this morning. At least that was the impression of a large number of citizens who know the jury.

A Young Lawyer Charged with Forgery.

Richmond Dispatch. Some days ago, upon the return of the Commonwealth's Attorney to the city, his attention was called by one of the gentlemen whose names had been used to some forgeries committed by Percy L. Carrington, a young lawyer of this city. Upon his complaint Mr. Witt began inquiries, and is now about to institute proceedings against Carrington, charging him with forging a check purporting to have been drawn by George P. Haw, and for passing the same upon Thos. J. Starke, and thereby obtaining twenty-five dollars.

Since inquiries have been made other forgeries have come to light. Among them is a check for \$25, drawn on the State Bank, payable to the order of Percy L. Carrington, attorney, and signed by E. G. Talbot, Co. and endorsed by Leigh & Lathrop and Percy L. Carrington, attorney. It is said that Mr. Carrington was indebted to a party in the city to the amount of \$15, and gave this check in payment and received \$10 in cash. This check was passed on Mr. Farrara, who passed it to Mr. Francis Dusch, who deposited it in the First National Bank. The book-keeper in the bank, as soon as he saw the check, was satisfied that the signature of Lathrop & Leigh was a forgery, and before sending the check over to the State Bank for collection, took it to Messrs. Lathrop & Leigh, who at once pronounced it a forgery.

Young Carrington left the city about two weeks ago. He was last heard of in North Carolina.

Esophagitis.

New, quick, complete cures, urinary affections, smarting, frequent or difficult urination, and kidney diseases. \$1 at druggists. Depot, J. H. Macken, Charlotte, N. C.

THE EVILS THAT ATTEND SUCCESS.

Success generally creates envy - envy begets hatred - hatred gives place to malice - malice prompts mischief - and so the baneful list goes on, followed by crime and wrong doing. The Louisiana State Lottery, established by the Legislature, meets with no exception to this rule. Its success, induced by liberality and charity, have caused to spring up in New York opponents who try to create all kinds of false reports as to its permanence and ability to redeem its promises. Get every one who has lingering doubts, and New Orleans, New Orleans, to establish the truth that all that is promised will be performed.

BURNETT'S COCOAINE.

For Premature Loss of Hair - A Philadelphia Opinion. One year ago my hair commenced falling out until I was almost bald. After using Cocaine a few months, I have now a thick growth of new hair. No. 514 Broadway, New York.

Burnett's Flavoring Extracts always standard.

DIED.

In this city, yesterday afternoon at 5:15 o'clock, Mrs. M. K. Ott, aged 30 years. She was taken place from her residence at 4 o'clock this afternoon. Friends and acquaintances are respectfully invited to attend.

MARKETS BY TELEGRAPH

AUGUST 22, 1881.

PHOENIX.
