INDORSED BY PHYSICIANS, CLERGYMEN, AND THE AFFLICTED EVERYWHERE. THE GREATEST MEDICAL TRIUMPH OF THE AGE.

Boston firm, above referred to, sent sample packages of canned goods to Messrs. H. K. & F. B. Thurber of New York, who pronounced them "just the thing." Chicago also took kindly to the new food product, and the business soon grew to large proportions. Al-though there are several concerns in this city engaged in canning baked beans, one firm practically monopolizes the business; and in making a state-ment of their operations, the rapid the business; and in making a state ment of their operations, the rapid growth of the industry is well indicated. In 1877, the first year they began the business, the sales of canned baked beans were confined almost exclusively to the Eastern States, and about 200,000 will continue to grow brighter for sev-cans were marketed. In 1879, the trade had extended all over the country, and some 375,000 cans were disposed of. In 1880, Europe and Australia had become

purchasers and the sales amounted to 900,000 cans; while the present year the firm proposes to pack and ship away 1,500,000 cans. South America is just taking hold of the article, and the de-mand from this source will swell this year's trade very considerably. After repeated experiment it is believed that the height of perfection has been reach-ed, and that canned baked beans are identical with the dish which for so many years has been one of Boston's institutions. They are baked in steam purchasers and the sales amounted to many years has been one of Boston's institutions. They are baked in steam retorts, and are so prepared as to make the quality uniform. Packed in three pound cans, containing two and three-quarters pounds of beans and one-quarters pounds of beans and one-quarters of a pound of pork, they may be shipped to any part of the globe. Their introduction into Europe and Australia was accomplished under the name of "Beans and Bacon," the home-ly title "Pork and Beans" not being at-tractive to the fastidious foreigner. When it is remembered that in the cen-tennial year canned baked beans were an unheard of luxury, the fact that the When it is remembered that in the cen-tennial year canned baked beans were an unheard of luxury, the fact that the world will probably consume at least 4,500,000 pounds of the product this year may be accepted as a proof that there is "something new under the sun." Well, that hain't the ager—not the Ar-kansaw kind; it's only the first faint preliminaries." He stopped to re-light this cigar and then continued: "I hain't long to live, and I don't keer to stretch the thing any. Tellin' the truth has allus been my strong p'int, and allus will be. Maybe ye'll git some idea of the Arkansaw ager when I tell ye that I once unjintud both shoulders in sha-kin', and it was a light shake at that. When I had on one of my reg'lar dou-ble back action shakes I could jar a jug of whisky out of the crotch of a tree twenty-eight rods off. Nobody dast pile up cord wood within half a mile of my cabin, and that's a solemn fact. I devoured kyneen just as you eat corn

Electricity in China. London Dally Telegraph.

While profoundly scorning the West-ern barbarian—or, as they prefferen-tially designate him, the "foreign dev-il"—Chinamen, whose capacity for at-tending to their own interests is justly tending to their own interests is justy renowned, exhibit praiseworthy alacri-ty in turning to account scientific in-ventions owing their origin to Europe-an ingenuity and research. The elec-tric telegraph, however, has hitherto baffled their endeavors to utilize it, through its intrinsic inadaptability to the peculiarities of the Celestial written language. They found it impracticable to pack away 80,000 or 90,000 characters into a telegraphic cipher code; and had
