The cold wave was short. See the circus advertisement. The rain has encouraged the mos-

Several unimportant cases were postponed by the mayor yesterday morning.

Several heavy railroad damage cases are on the docket for this term of the Superior court. It is said that there are about

seven hundred hands at work on the Virginia Midland Railroad. The Concord ball, postponed from

last week, took place last night. Charlotte musicians furnished the music. Maud S. is the name of a new style of Derby hat, which will be very appropriate for "fast" young women. The interest of the Hornets' Nest Riflemen in the organization seems to have been renewed with the new offi-

Last night a fight occurred in the with a pocket knife.

The very finest watermelons which have been on the market this season—Florida, Georgia or native were brought in from the Catawba bottoms yesterday and were sold at an average of about 35 cents each.

Those returned from White Sul-phur describe glowingly the \$500-ger-mans, while the man from Morehead City speaks enthusiastically of a young lady who turns a double somersault from the top of a bath house fifteen

It is related of Prof. Vantog, who is now doing the city, that on the occasion of a former visit here he wandered at a late hour of the night into Bur-well & Springs' wagon lot, where he began to eat up a countryman's camp-fire. When he had consumed about a peck of red hot coals the countryman hitched up his team and has not been in Charlotte since.

"Going Back to Dixie."

An unusually respectable old colored man in a plug hat, "biled" shirt and linen ulster, passed through the city yesterday from Washington City to Chester. He told the reporter of THE OBSERVER that he left Chester, his old home, directly after the war. He had been with the army a short while, but for fifteen years he had lived in Washington City. "But," he said, "I'm gwine back home now, to my old master. It's the best place, and he's the best man I know, after all."

The inquiry of "Novice" in another place is suggested by the fact that a great deal of the land in the township outside the city is owned either by merchants of the city, or by proprietors who live still farther away from their lands. Consequently the burden of working the roads falls on he non-landowners, in a great measture. This is complained of as an in justice. Whether it be injustice or not however, one thing is certain, that not, however, one thing is certain, that little or ne work has been done on the roads near the city this year and there is a crying need for some new road law which will meet the difficulty.

Superior Court.

Superior Court convened yesterday, Judge Avery delivered a forcible and Judge Avery delivered a forcible and exhaustive charge to the grand jury. A special venire of 100 was ordered in the Farrington case for Friday. The Union county case against Robt Jones, colored, for the murder of a white man named Phillips, from South Carolina, is fixed for hearing on Wednesday. Allen Johnson, the negro accused of complicity in the Crump murder was arraigned and a day for his trial will be fixed for this morning and a special venire of 50 ordered. The court adjourned early in the afternoon to allow journed early in the afternoon to allow a committee of the bar to arrange the calendar of the civil cases. The criminal docket will probably occupy the en-

property have been deterred, in the hope that they might recover something by keeping quiet. For instance, a gentleman of the city related yesterday that about two weeks ago he took unusual care in closing up his house before retiring, having \$100 on his person. He also loaded his pistol and put it under the head of his bed. Next morning he woke up and the money was gone from his pant's pocket which he had left on a chair in his room. He went all over the house and every door and window was closed as he had left them and how the burglar got in or

out is still a mystery.

At another house in this city a day or two since the print of a boy's naked foot, marked with the dust it had brought from the outside, was discovered on a sofa near an open window.

Nothing, however, was missing.

One or two other attempts have also been reported.

Success generally creates envy—envy begets hatred—hatred gives place to malice—malice—malice prompts mischief, and so the baneful list goes on, followed by crime and wrong doing. The Louistana State Lottery, established by the highest authority, meets with no exception to this rule. Its success, induced by integrity and honesty in its management, with liberality and charity, have caused to spring up in New Tork opponents who service descriptions and ability in redeem its provident let every one who had a linearing doubt write to be. Redmond Sentenced. News reached this city yesterday

from Greenville, S. C., that Lewis R. Redmond, the famous North and South Carolina moonshiner, had been sentenced to ten years in the United States prison at Albany and that a fine of \$2,600 had been additionally imposed. Redmond a few days ago submitted to eight charges for violation of the revenue laws and two for conspiracy against the United States government.

Man Killed in Catawba County. On last Saturday night, at about 10 o'clock, a difficulty occurred between a man named James Blalock and Pinckney Abernethy, at Ball's Creek camp ground, in Catawba county, during which Abernethy was fatally stabbed by Blalock. The stricken man died almost instantly, and Blalock ran off, but was subsequently arrested and placed in jail at Newton to await trial. Both of the parties had been drinking, which was probably the main cause of the difficulty.

Coins with Holes in Them.

The practice of mutilating coins by punching holes through them has become so common that the government officials have been compelled to establish a scale of depreciation as follows: Double Eagles with holes in them are only worth \$19.00.
Silver dollars with holes in them are worth 85 cents.

Half dollars 35 cents. Quarter dollars 18 cents. Dimes 5 cents.

This is a government order, and is regarded generally by the banks, railroads, &c.

He soon returned and began to curse the Judge furiously, when the sheriff was ordered to take him to jail, where he now is. His father is one of the wealthiest and most prominent men in the county, and also a very determined man. There is no doubt at this writing that the Judge's right in the premises will be legally scrutinized. The father has employed two of the ablest counsel at the bar and the matter will, very likely, first come up on a presentment against Judge Shipp. The question will perhaps resolve itself into this:

"Was the contempt committed in the was ordered to take him to jail, where think the matter will soon be determined, for one of defendant's counsel is Col. J. M. McCorkle, a gentleman for whose legal attainments and high toned parameter of the father supreme Court at once.

Thanking you for the publication of this card I promise not to be provoked or condescend to notice anything further emanating from Mr. McKee or any other servant of the "Conrad Hill Gold" VAN

The City Not Liable for Labor on the Township Roads,

To the Editor of The Observer. Having noticed that several great journals of the country take pleasure in answering questions propounded by their subscribers, I am induced to submit to you the following question: "Where can I find the law, or section of law that authorizes the township trus-tees to exempt the 'hands' of the city of Charlotte, from working the public roads." The present road law reads as

Sec. 4. All able-bodied male persons between the ages of 18 and 45 shall be required under the provisions of this act to work on the public roads, except the members of the board of su-

pervisors &c., &c.

Mark you, it does not say all ablebodied male persons in the county, but merely says all ablebodied male persons. The law being based upon the township system this must mean all able-bodied male persons in the town-

[The decision in the case of F. I. Osborne vs. the Commissioners of Mecklenburg, 82 N. C. Reports, that residents of the city were not liable to taxation for the working of the roads unation for the working of the working of the roads unation for the working of the road der the Alexander road law, is equally der the Alexander road law, is equally applicable to any law providing for the improvement of "roads and highways."

Provisions requiring labor are on the same footing with those levying tax. The fact that the people of the city are taxed for their streets, in all such statutes excludes them from taxation for township roads, but when a general county tax is levied for a particular improvement such as a bridge, or the like,

he city is also liable. The Title to the Conrad Hill Minc. WARD BONANZA MINE, DAVIDSON Co., N. C.

To the Editor of The Observer.

Living at the above mine, remote from the railroad and seldom seeing your paper, it was only through a friend that my attention was directed to the card of Mr. John F. McKee about the Conrad Hill Mine in your issue of the 21st. 1 ask space in your valuable columns to refute its erroneous charges. I am unacquainted with Mr. Mckee, but I know he is an employe of the Conrad Hill Gold and Copper Co., hence his unwarranted attacks. He asserts that I have the reputation of laying claims to mining lands, but always fail in my land suits, and that my action for the possession of the Conrad Hill will share a similar fate. These charges are entirely gratuitous. I own considerable mining interests in Davidson and other counties, and am in quiet posseserable mining interests in Davidson and other counties, and am in quiet possession either in person, by tenant or with co-owners. Individually I have never been a plaintiff in any action; never a defendant but once, and in the latter case no complaint was filed but a retraxit was taken and a gentlemanly applogy made by the plaintiff to me in open court. As executor I instituted an injunction action and was sustained, as the records of Davidson Superior Court and the Supreme Court of the Court and the Supreme Court of the

My uncle, the late Col. A. B. Stith, waged an ejectment action for the Conrad Hill, whained a verdict and judgment for possession, which the Supreme Court reversed on a mere technicality. At this trial it was discovered and naved by defendants counsel that the deed from hancy Trotter to Philip Headrick conveyed only a life estate. This construction of the deed was an dorsed by every lawyer present, and it was upon this information that I. &c.— March 6 9-32d. Futures steady.

Mr. McKee says that four learned lawyers have advised that the title is clear in the Conrad Hill Company. I have submitted my title to several of the best lawyers in the State, among the number Hon. W. H. Bailey, the late Hon. B. F. Moore and Mr. Hay-wood W. Guion. It has also been examined by two of the most prominent legal gentlemen in New York, and all

concur that my title is perfect, and the New Yorkers made a cash offer for it. The Supreme Court reports are good authority, permit me to quote the following extract from Roberts vs. Forsythe 3, Dev. 26, and compare the habendum and tenendum and warranty clauses of Nancy Trotter's deed to Philip Headrick.

"This deed was in the usual form to haben-dum, where it proceed to habendum which ed as follows:
