ITEMS OF INTEREST.

Duluth will erect a statue of Proctor

Knott out of gratitude to the "big 'ad"

he built the city in his famous humor-

ous speech.

A Newberry S. C. man has a cow

seven years old that has eight calves:

One the first time, two the second, two

the third and three the fourth—the

three were born a few days ago.

The calves all died.

For Capt. Howgate it is impossible

not to have a tithes of sympathy, a grain

of charity. He was tempted, fell, and

led a wretched life at the mercy of

blackmailers for over a year. And,

then, too, the man had been a victim of

great physical suffering.

Miss Jewett of Minnesota, and Mrs.

Cooke of California, are training to

ride a race of 500 miles on horseback at

the coming Minnesota State fair. Miss

Jewett is 20, and plump; Mrs. Cooke 30

and slim, and they each own a "Bike"

and will use twelve swift and strong horses.

It is estimated that the product of

gold in California for the year 1881 will

amount to \$19,000,000, which is in

excess of the annual product of any

year since 1871. If the present sickness

in gold mining is not a temporary

stoppage, it seems more than prob-

able that California will regain her

prestige as the Golden State.

Among Mr. Edison's exhibits at the

electric show in Paris will be a one-

horse power engine operating in

improved lamp, each of which will

run nine months. He will also ex-

hibit his autographic system of tele-

graphy, by which he can at present

reproduce in Philadelphia the fac simile

of the handwriting of a message sent

from New York.

A lady recently departed in great

haste from Long Branch on a Saturday

morning. She was resplendent in silk,

laces and diamonds, and made the

remark at table just before she left that

she wanted to do some shopping but

would be back on Monday morning.

After she had gone one of the little

girls remarked, "You see, there's a

rush of trade on Saturday night, and

ma's gone up to help farther tend in the

store."

Senator Butler, of South Carolina,

writing to a local paper, says: "Jour-

nalism has become as much a separate

and distinct profession as medicine or

law or engineering or agriculture or

architecture or mining, and every

family should have a newspaper if

they expect or care to keep pace with

the current of events in this fast-mov-

ing age. Books are not always accessi-

ble, but newspapers are, and at a price

that places them within the reach of

the poor as well as the rich."

Edison must look to his laurels. At

Sarcastic Mrs. Blaine.

Nashville (Tenn.) Intelligencer.

Mrs. Blaine had been some years in

Washington before Mrs. X, wife of a

Senator, called on her. At last Mrs. X

was announced. As Mrs. Blaine enter-

ed her drawing room to receive her

guest she noticed an colored cook slip

out hurriedly from the reception room,

where Mrs. X was waiting. This sur-

prised her, but she said nothing. Next

day, however, her valuable cook left

her to find a place in the X's kitchen.

At a state dinner soon afterwards given

at the Executive Mansion, the two

ladies chanced to be placed with only a

seat between them at table. The gen-

tleman sitting between, noticing that

Mrs. Blaine did not address a word of

conversation to her other neighbor, ex-

claimed: "Why Mrs. Blaine, you know

Mrs. Senator X, do you not?" "No,"

was the answer, and loud enough for

all to hear. "Mrs. X called on my cook

the other day at my house and her card

was handed to me by mistake. My

cook returned the call."

The Funds for Mrs. Garfield

Now amounts to \$158,757.85, and the

promoters of the movement seem to be

confident that it can readily be increas-

ed to \$250,000 if the President should

not recover. Certificates for \$125,000

in government bonds, worth \$125,251.25,

have already been placed in the hands

of Mrs. Garfield. New York heads the

list with \$113,274.80, Philadelphia comes

next with \$12,254.25, and Chicago fol-

lows with \$11,500. Baltimore so far is

credited with a single contribution of

\$10. On Saturday last Messrs. Drexel

& Co. of Philadelphia, notified Mr. Cy-

rus W. Field in the event of the

President's death they proposed to re-

spect in that city subscriptions to the

fund for Mrs. Garfield's benefit, head-

ing the list with \$5,000, and inquiring

whether Mr. Field approved the plan,

in reply to which he telegraphed his

approval.

TONIC, ALTERNATIVE AND CATHARTIC.

Stimulates Liver Regulator, purely vegetable,

is not unpleasant to the taste. It is the medicine

generally used in the South to arouse the torpid

liver to healthy action. It cures malaria, bilious-

ness, dyspepsia, headache, constipation and piles.

The action of the regulator is free from nausea or

griping. It is most effective in starting the secre-

tions of the liver, causing the bile to act as a

caustic when there is an excess of bile in the

stomach, the Regulator is an active purge; after

the removal of the bile, it will regulate the bowels

and impart vigor and health to the whole system.
