Dry Goods, Clothing, &c. "What shall be done with Guiteau?" Give him a chance to get the best of the law, the same as any man has in this country.—New Haven Register. While preaching from the text, "He giveth Ris beloved sleep," a Toledo minister stopped in the middle of his sermon, gazed upon his sleeping auditors and said: "Brethren, it is hard to realize the wondrous, unbounded love the Lord appears to have for a good portion of this congregation?"—Detroit Free Press.

There is now no sectionalism except in circuses. When a circus strikes Meson and Dixon's line, even the animals seem to know it, and they set up a tremendous howl if the show is not divided into four or five distinct squads. Nobedy now living ever saw a whole circus in the South.—Atlants Constitution.

James Gordon Bennet is described by a New York correspondent "as a sad-looking man." The correspondent evidently saw the great editor just after he had inadvertently hammered his shin with a pole stick. There are mournful eras in the Durability, Comfort and Healthfulness When in conversation a man abruptly says, "Beg pardon!" he means that he wants to do all the talking himself.

One of the most curious circumstances connected with the New Ulm cyclone, as brought out by Mr. Merrill, was the fact that all buildings with peaked roofs were uninjured or but little damaged, while adjoining buildings were totally wrecked.

There are 7003 public houses and 4425 beer houses in London. During 1880, 29,868 persons were apprehended for drunkenness. Of these, 19,908 were males, and 13,870 were females. The average of arrests for drunkenness seems to be diminishing.

There are 225 Indians still remaining in South Florida. They are peaceful and hold friendly relations with the white settlers. They are remnants of the "Tigers," Wolves," "Snakes" and "North Winds." Their chiefs are always chosen from the Tigers from su-perstitious traditions.
