MRS. P. QUERY

H well suited for lumber and its of trees

Four large cotton seed oil mills in Memphis, have been running all the year and three will be started this fall.

The average flow of the Niagara river above the falls is 10,000,000 cubic feet per minute. This, under a head of 200 feet, gives a grand aggregate of 3,000,-000 horse-power—a force sufficient to supply the wants of 200,000,000 people.

Luther said: "If a man is not handsome at 20, strong at 30, learned at 40 and rich at 50, he will never be handsome, strong, learned or rich in this world." Statistics, observes Dr. Beard, supply this prophecy with a most remarkable fulfillment.

During a recent visit of a circus to Dansville, N. Y., a gorilla escaped from his cage and made for a farm house, causing great consternation among the family. After a lively contest he was captured and returned to his cage. In the course of his escapade he bit a dog, which has since died.

There is a cave in Derbyshire, Eng., that is supposed to be bottomless. A man was once paid a big sum of money to allow himself to be lowered downsome 200 feet. When haded up he was found to be unconscious from fright and died a few days afterward from the

The two Williams girls who killed their father in Pittsylvania county, Va., last week have been captured. One of them is half idiotic. The father was a drunken brute who took the girls' berry money to buy liquor, beat one of them dreadfully for buying some calico with their own money, and had expressed his intention of killing his wife with their own money, and had expressed his intention of killing his wife and hiring the daughters out for shame-

There are now a half million miles of telegraphic wires in the United States; Great Britain uses 114,000 miles of lines; Germany has 150,000 miles and more than 3,000 miles of underground cable; British India has 50,000 miles; France 115,000; Belgium, 15,000; Spain, 25,000; Denmark, 55,000; and Norway, 10,000 miles, which are used chiefly in the management of her fisheries.

San Antonio, Texas, is to have one of the grandest hotels in the United States. Col. Ed. Wickes has the matter in hand, and Jay Gould and C. P. Huntington are down for \$50,000 each, to be increased to \$100,000 each if necessary. It will be known (so it is now thought) as the Great Southern Hotel, and will be the half-way house between the City of Mexico and New York, as well as between San Francisco and New York.

All the money necessary to build a mammoth structure can be had at

THE NEXT HOUSE,

Its Organization Again Becoming a Subject of Discussion.

Washington, September 14.—The re-Washington, September 14.—The result of the special congressional election held in the second Maine district yesterday adds another to the Republican members of the next House. Not counting the four vacancies from New York, the lower House of the Forty-Seventh Congress now stands 144 Republicans, 133 Democrats, 9 Greenbackers, 2 Readjusters from Virginia, and 1 Independent Republican, Smith, of Brooklyn, making a present membership of 289. The four New York vagancies will be filled in December. cancies will be filled in December. Should the Republicans elect three out of this four they will then have just the number of voters required to or-Also WOMEN troubled with diseases peculiar to their sex.

Speedy relief and complete restoration to health guaranteed. These are the only Electric Appliances that have ever been constructed upon scientific principles. Their thorough efficacy has been practically proven with the most wonderful success, and they have the highest endorsements from medical and scientific men, and from hundreds who have been quickly and radically cured being used.

Bend at once for Illustrated Pamphlet, giving the information free. Address, ganize the House—147.

It seems to be generally conceded

The Democracts will no doubt elect a successor to the Fernando Wood va-cancy, and they claim that they will send a member to fill the seat vacated by Minister Morton. Should they carry both these districts that will leave the Republicans with only 146 members; but it is claimed that Smith of Brooklyn, will vote for Republican organization and that would give them the additional vote necessary to make a majority of the whole House. There are five Greenback members who were formerly Republicans, and who, it is reasonable to suppose, will vote with that party on the question of organization as against the Democrats. They are Brumm, of Pennsylvania, Rice, Hazeltin, Ford and Burroughs, of Missouri. Jones, of Texas, another Greenbacker, though formerly a Democrat, is now a bitter opponent of that party, and would be more likely to vote against it than with it. Ladd and Murch, of Maine, and Musgrove, of Pennsylvania, would no doubt vote with the Democrats on the question of organization, abould it be a contest between those two parties. What the two Virginia Readjusters may do there are no means of telling. Yet the result of the coming election will probably have considerable influence in determining the political status in the next Congress. The Greenbackers make up the element of uncertainty in relation to the organization of the next House. Their leaders emphatically declare that they intend to make a caucus nomination for Speaker and to stand by the nomination. Greenback members who were former-

to make a caucus nomination for Speaker, and to stand by the nomination to the last. Then there is a good deal of talk of a coalition between nation to muster a majority. The chances are favorable to Republican organization, but the vote is likely to be so close that a sudden death, or case of illness on the part of a member, might upset all calculations.

Might Want to Live with Him Again.

A Toronto wife was shot by her husband, and the doctors told her that she probably would not recover, but she refused to make any statement unless they would declare that she would die beyond a shadow of a doubt. "If this hurt is going to kill me," she said, "I don't mind if my husband gets hanged for it, and I'll furnish all the evidence I can; if I get well I shan't want him sent to prison, for I'd be pretty sure to want to live with him again."

Might Want to Live with Him Again.

Just open the door for her, and Mrs. Winslow will prove the American Horizone Nightingale of the nursery. Of this we are so sure that we will teach our Susy to say, "A Blessing on Mrs. Winslow's Soothing Syrup relieves the chief from pain, and cures dysentery and diarrhoes. It somens the gums, reduces inflammation, cures wind colle, and cures dysentery and diarrhoes. It somens the gums, reduces inflammation, cures wind colle, and cures dysentery and diarrhoes. It somens the gums, reduces inflammation, cures wind colle, and cures dysentery and diarrhoes. It somens the gums, reduces inflammation, cures wind colle, and cures dysentery and diarrhoes. It somens the gums, reduces inflammation, cures wind colle, and cures dysentery what it professes to perform, performs precisely what it professes to perform, Mrs. Winslow will prove the American Hierarch Mrs. Winslow are so sure that we will teach our Susy to say, "A Blessing on Mrs. Winslow's Soothing Syrup relieves the chief from pain, and cures dysentery and diarrhoes. It somens the gums, reduces inflammation, cures wind colle, and cures dysentery and diarrhoes. It somens the gums, reduces inflammation, cures wind colle, and cures dysentery and diarrhoes. It somens the gums, reduces inflammation, cures wind colle, and cures dysentery and diarrhoes. It somens the gums, reduces inflammation, cures wind colle, and cures dysentery and diarrhoes. SLEEPLESSNES Narcotics and sedatives murder sleep; the un-natural stupor is soon followed by ill effects. Sim-To whom it may conclaim: Notice is here—
by given that the firm of Davidson & Beall, horeofore doing business as grocers in Charlotte, is this day districted by mutual consent. All unsettled bills will be said by Leror Invision, and all despiesances by regulating the house, and all bills due the interest of the collected by him and business of David son & Beall in the late firm and business of David son & Beall

cold by absorbing the heat in the vaults by reffigerating machinery. Formerly it consumed from 8,000 to 10,000 tons of ice a year, which, at the present low rate of \$2 a ton, would make in the neighborhood of \$20,000. My companion and friend working with him invented the machine which accomplishes more cold than all this mass of ice and at the same time saves the room the ice would occupy for the storage of been thereby enlarging the brewery to that extent; for a brewery is, in the main, a stock of beer kept ripening for weeks and months. The mere brewing is a simple matter, and bere they brew fifteen times a week, using the same series of kettle, hop-boiler and mash tub. All that would be necessary to brew more would be to put in another kettle more would be to put in another kettle

"We use 2,700 pounds of aqua ammo-nia, which costs about 90 cents a pound, That by our powerful engine we compass and drive through many hundred feet of pipes, which lie along the tops of ture only a few degrees above the freez-ing point, while the pipes themselves become incrusted with whatever moisture is in the vaults in the shape of snow and ice. Our own machine cost \$50,000, or about two years' cost of our ice. We have just put up one in Wil-liamsburg for somewhat less money. To build an ice house cost a brewer from \$50,000 to \$60,000. There are some which have cost over \$100,000. But after you have built ice houses you have to buy your ice, and that being bulky, takes so much room from your

"The day is close at hand," he contin-ued, "when this machinery will be ap-plied to hotels and will keep the city of New York as cool in midsummer as the sea side or the mountain tops. You can make the temperature what you please. You can cool the theatres in please. You can cool the theatres in midsummer so that they can get four or five months more occupation."

"It is certainly mysterious," said I, "that with about \$2,500 worth of hartshorn you can expunge \$20,000 of ice and make my toes ache down here in the dog days. What is ammonia?"

"It is a compound of nitrogen and hydrogen, and it is called ammonia because it was first made from the camels' dung at the Temple of Jupiter Ammon, on the hot deserts of Africa. It is called hartshorn because they once

is called hartshorn because they once made it out of the decomposed horns of deer. You buy it as a liquid. It is a powerful alkali. Everything in nature, you know, is naturally cold; passive nature, like death, is a state of cold. The heat comes from elsewhere, and all we do is to take away this heat by letting the hartshorn seize it and bear it away We use the same hartshorn from day to day, and from year to year, over and over again."

An Old Maid's Life.

Courier Journal. Sweet 16.—Builds castles and dwells on love in a cottage. that the Republicans will elect successors to Messrs. Lapham and Miller. 18.-Joins an archery club. Affects intellectual repasts, such as "Reading Clubs." Dances every set and rejects

all love proposals.

19.—Drops love in a cottage and thinks of a brown stone or pressed-brick front.

29-21-22.—Modesty begins to take its departure. Abhors simplicity.

23.—Laces tighter and wishes to marry for rank—a Colonel, Congressman or Senator would do.

25-26.—Astonished not a little at maining single. "Why don't the men propose? 27-28-29.—Takes the lead in charades

and tableaux. Begins to tease her pa about the springs. Subscribes to Sun-day papers for society news. Uses cosmetics glaringly.

30-31-32-33.—Wouldn't mind a widower if not too old. Willing to mariage charades and tableaux, but won't take a prominent part. Begins to turn charitable and hunt out the poor. Joins the

church. 34-35-86.—As a general thing despises men. "They are all so silly; but, of course, there are exceptions to all rules." Elected President of the Child-

rens' Aid Society.
37-38-39.—Allows boys of eighteen or
twenty years to take her to prayer-meeting, as "Intellectuality defies all considerations of age."
40 TO 46 — Would accept a preacher of her own denomination without respon-

sibilities. Takes a large interest in the Sabbath school, and in cats and canary birds. 45 TO 50.—Sees no harm in a little

more rouge—particularly at night. "Scraggy, fretful and desperate." A deal of talk of a coalition between
Democrats and Greenbackers, but such
a combination couldn't win unless the
Virginia Readjusters join it. Provided
the Republicans succeeded in electing
two of the four members to be chosen
in New York, should the Democrats
capture either Miller's or Lapham's
district, it might be fatal to Republican
ascendency in the next House, as it
would enable the opposition by combipreacher with half a dozen responsibiliwould enable the opposition by combi- her relatives by leaving her entire fortune to the heathen.

The Florence Nightingale of the Nursery. The following is an extract from a letter written to the German Reformed Messenger, at Chambers-burg, Penn.:

Meseri Historico a Bro. It is with real pleas ure that I and my testimony to the great virtues of your "Neurrigine" as I specide for neural ris and sick headachs. Such a remedy is a blesserie, and all sufferers should keep if or hand. Riperis. Sold by L. B. WRISTON & CO.

TUESING PROPERTY.

The Principle of white that is the Country to t was not a very large brewery, and it turns out only about 50,000 barrels of be expected North and South and in lager beer a year. It is the only brewery in the world, however, with the exception of one in Williamsburg, which does not use any ice, but makes its own be much similarity. The point of differentiation machines. Formally while the cold by absorbing the heat in the vaults ference, I think, will be in the fact that

in Liverpool the other day in which the more would be to put in another kettle and accessories, but to carry the beerin lady admitted that she had received from the defenant a curate, having the immense income of about \$400 a must have cold-room, which you can only obtain by ice or by science.

"What is the principle," said I, "by and three quarters, If he loved her which you create winter at will?"

"What and a 200 more about \$400 a miles little, he certainly loved her a great langth." the immense income of about \$400 a or M. A. DAUPHIN, at No. 212 Broadway, New York.
