## HOME PENCILINGS.

Hon. Walter L. Steele, of Rockingham, was in the city last night. Mrs. V. F. Houston, of Newton. is visiting Mrs. H. S. Pharr, of this city.

Several houses on Tryon street, near the Methodist church, are undergoing repairs. 图 D. M. Vance, of THE OBSERVER

"exposish." Several mining men from the surrounding country were in the city

The passenger and mail train from the north was about two hours behind time yesterday.

The prize drill will take place at the flornets' armory to-night. The public is invited to attend.

Hon. Geo. B. Loring, United States commissioner of agriculture, passed through the city last night. Frank W. Rollins, of the Boston Commercial Bulletin, was registered at

the Central yesterday. TarQuite a large number of passengers came in yesterday on the South bound train, most of whom were on their way to the exposition.

The congregations of the Presbyterian churches are again reminded of the joint meeting at the First Prasbyterian church to-night. Don't fail to attend. Bedott" here last winter is with Hav-

erly this season, in the same role. He played in Baltimore Monday night. Walter Pemberton, cost him his life and the county about \$85, not counting the cost of board and trial of the sup-

posed murderer. Mr. Vinton Liddell, of this city, left yesterday for Atlanta, from whence he will go to Montgomery, Ala., to take a position in the branch house of W. J. F. Liddell & Co.

It is stated that the electric light is very trying to blondes, while it is correspondingly favorable to brunettes. The opposite types of Charlotte are in no immediate danger of this discrimin-

## Big Andy Gets Away.

Andy Walker, an account of whose

## Licenses Refused.

The county commissioners don't seem to "revolutionize" to any very great extent on the liquor question. By reference to the proceedings of that body, had yesterday, it will be seen that they refuse to give their sanction to the sale of intoxicants within the city, notwithstanding the recent action of the board of aldermen.

## At the Matinee.

Wm. McCoy, for committing an assault upon and cursing Mr. Tucker, a storekeeper on Tryon street, was fined \$5 and costs. A young white man, for a plain drunk, \$2.50 and costs. Austin Lane, for an assault and bat-tery on Della White, was fined \$2.50 and costs.

## Malicious Mischief.

Several prominent citizens living on West Tryon street have been annoyed to a degree that has exhausted their patience by persons removing pailings, and otherwise injuring property, and the parties suffering from these depredations authorize the reporter to state that a liberal reward will be paid to any person giving information that will lead to the discovery of the guilty

## Property Found.

Constable Orr yesterday found a quantity of personal property hid under a bridge, on the Lawyer's road, about half a mile from the city, and it is sup-posed the property was stolen from some house in the vicinity. The articles

ued at \$3,805,089. The value per acre of the crop is put at \$66.50, which is a better showing than cotton can make with the most favorable season. Mecklenburg is put down as producing 2,291 pounds on 10 acres of land.

## Her Beauty Gone,

Many of our readers have seen some-thing in the public prints concerning the remarkable beauty of Louisa Montague, to whom Adam Forepaugh paid the sum of \$10,000 per annum, simply as an attraction of his show. If the circus comes to Charlotte, as is likely,

There are a great many people scat-tered over the world, who live and die in the firm belief that newspaper men have little or nothing to do, and are jost "honing" for all sorts of odd jobs. This deluded class make all kinds of modest requests of editors, and often think it a shame if they are denied what is asked. The following letter was received from a Western college. was received from a Western college

the other day:
"DEAR SIR: As I am engaged in a public debate, I hereby solicit your aid and hope you will help me. The subject for discussion is: "Is Christopher Columbus entitled to the honor of being the discoverer of America?" I am on the affirmative of the question and hope to hear from you soon. I want six or eight pages of foolscaps of stubborn points, and arranged so my opponent cannot get round them. Our debate is on the 14th, and I have not any time to waste on it. If you can write them for me, please do so by Thursday or Friday, as this is now Monday, and keep it from the public, as I would not have it found out that I ask for aid.

## "Respectfully, ----"

Heavy Rainfall to be Expected. The melancholy days that ought to come about this time of the year, seem to have been postponed on account of the weather. Astronomically, the sum-mer ended on the 21st of September, yet we still have the scorching sun of midsummer to contend with. We passed the autumnal equinox half a month ago, and as yet not a sign has appeared of that ancient delusion, the equinoctial storm. It is well to state, however, that there are indications that when the belated equinoctial storm does arrive it will fully compensate for its long delay. The continuance of parching weather so late into the autumn is something almost unprecedented. The staff, has gone to Atlanta to see the heat and drought of an unusually hot and dusty summer have been protracted far beyond the usual limit. The consequences so far exhibited have been disastrous to the crops, large forest fires have consumed miles of timber and destroyed hundreds of lives. There have been local rains, but there has been no general precipitation of the vast vol-

ume of vapor accumulated in the sky during a long period of rapid evaporation. In September alone it is estimated that the amount of water evapora-ted from the tropical Atlantic and Gulf of Mexico, much of which is destined to be borne by trade winds over the United States, cannot be less than ten inches of the sea surface, an amount which, if precipitated within a short time, would produce torrential rains over the larger part of the country east of the Rocky Mountains. It cannot be said that this water will not fall elsewhere. It is known that India, Algeria and other wide tracts of the world's surface have suffered from want of rain. But it may be suspected that the sultry and oppressive atmosphere over-lying the United States at present con-

## County Matters.

The board of county commissioners continued their monthly session yester-

Messrs. Kendrick & Bixby made ap-plication for license to retail spirituous

plication for license to retail spirituous and malt liquors in the city, which application was refused. Several other dealers presented applications, but these were withdrawn by the attorneys for the dealers before action was had by the board.

Upon the recommendation of Rev. W. T. Walter, superintendent of public instruction of the county, and the school committeemen within the corporate limits of the city of Charlotte, that the four school districts within the city limits be consolidated, it was ordered by the board that the recommendation be adopted, and that the arrest was given in yesterday's paper, is again at large. He was placed in the stockade yesterday morning, and during the temporary absence of the keeper, Andy succeeded in freeing himself of his shackles, scaled the wall and departed. E. Nye Hutchison as school commit-teemen, and that C. Scott, E. J. Allen, W. B. Nisbet and W. M. Wilson be con-stituted a boards of advisers of said

committee.

John Kuck resigned as school committeeman in District No. 27, and Wm.

Wallace was appointed in his stead.

The report of the superintendent of public instruction of the county for

September was received and filed.

The board ordered that the report of the jury which laid off a public road, commencing at or near Dr. Sam'l Abernethy's, on the Tuckasege road, and from thence to Rozzell's ferry road, at or near John Frazier's, be received and

confirmed. The sheriff was allowed the sum of \$171.15 for jail fees and feeding prisoners at the jail during the menth of September, and \$46.40 for summoning 88 regular and 200 special jurors for the

fall term of court.
Several small-claims were allowed to different parties for services rendered and expenses incurred, and the board then adjourned to meet the first Mon-day in November.

## A Correction.

To the Editor of The Observer: In your Sabbath issue are some mistakes relative to the death of my grand-mother, whom you styled Lydia

"Steele."

Mrs. Lydia Clark was found in her bed dead Saturday morning at the residence of her son-in-law, Mr. Joseph Butler, with whom she has lived for the past few years. Mr. Butler does not live in the rear of Tryon Street M. E. Church, but on the western suburbs of the city, about three-quarters of a mile, out Trade street from the square.

such a pre-eminence is at the expense of posterity, and the family by its ultimate extinction pays the penalty of its temporary eclat. Extraordinary brain activity is followed by a corresponding degeneracy. The future of humanity, if this view were the correct one, would belong to physical mediocrity, and a poor prospect is held out to the exceptionally intelligent or energetic. Dreaming optimists are warned to expect no line of Homers or Shakspeares, but to line of Homers or Shakspeares, but to

## concede the earth to the dull.

circus comes to Charlotte, as is likely, the people will be deprived of witnessing this feature of the show, for Miss Montague will be pretty no more for ever. In a railroad collision in Kentucky the other day she was impaled by a large board of the platform passing through the calf of one of her limbs, besides another board piercing her thigh, injuring her so severely that her life was despaired of. The left side of her face was greatly lacerated, a deep gash extending from the temple to the chin. This last injury, perhaps, is the worst, because Miss Montague's beauty was her fortune.

A Real Marriage on the stage.

DES MOINES, September 28.—At the conclusion of the "Merry Wives of Windsor" entertainment to-night by Burnham's Electric Light Company, Clarence Ostrander, the "Fentoa" of the play, was married to Miss May Wentworth Vanslyck, one of the merry wives. The bride is a daughter of the attorney of Chicago, Milwaukee and St. Paul Road, at St. Paul. The Rev. T. S. Hunting, a Unitarian minister of this city, performed the ceremony, joining the couple on the stage, surfounded by members of the company in the costumes of the play. A Real Marriage on the Stage.

Few are aware of the importance of checking a cough or common cold in its first stage. That shich in the beginning would yield to a mild remedy, if neglected soon preys upon the lungs. Dr. Bull's Cough Syrup affords instant relief.

## Pennsylvania Enterprise in West Virginia.

A correspondent of the Richmond Whig, writing from Union, West Virginia, just over the Virginia line, says:
"A company of Pennsylvanians have bought out the mills and property of the lumber company at Union and in Pocahontas county, West Virginia, and will invest heavily in the extension of the lumber business. About \$40,000 will be expended in improving Green. will be expended in improving Green-brier river, of which this Pennsylvania company will furnish \$20,000. Lands are selling rapidly and at high figures in view of these improvements. Dr. Kelly, in company with other gentlemen from Pennsylvania, have recently eased the mineral lands near Blue Sulphur Springs from Mr. Chas. Buster, and intend very soon commencing the mining of these ores, which are said to be of a most superior quality and contain a very large per cent. of iron."

A New Source of India-Rubber. The Scientific American announces the discovery by Dr. E. R. Heath, along the previously unexplored borders of the Beni river, in Bolivia, of abundant rubber and cinchona forests. As new rubber forests are to that part of the world what new gold fields are to the people of this country, it may readily be understood that the rubber "fever" became prevalent after the doctor's an-nouncement of his discovery, and thousands set out to penetrate the country of the cannibals where the forests are found. The export of rubber, which was last year 15,000 pounds, is expected this year to reach the amount of 750,000 pounds, and next year 6,250,000.

A LUCKY PAIR. The Chicago Times says that "at the last drawing of the Louisiana State Lottery (August 9th) ticket No. 35,818 drew \$10,000. One half was held by Wm. W. Shaw, a book-keeper in the Lake-side Foundry, of this city. In March last a proprietor of the foundry drew \$1,250 on a half ticket, \$1. Mr. Shaw said they would continue to buy a half ticket each month, as he was satisfied the drawing was conducted honorably. He wanted to see some other needy persons get some of the prizes." The 187th drawing will take place October 11th, the full particulars of which can be had by addressing M. A. Dauphin, New Orleans, La.

MANY MISERABLE PEOPLE drag themselves about with failing strength, feeling that they are steadily sinking into their graves when, by using Parker's Ginger Tonic, they would find a cure commencing with the first dose, and vitality and strength surely coming back to them. See other column.

FADED OR GRAY HAIR gradually recovers its youthful color and lustre by the use of Parker's Hair Balsam, an elegant dressing, admired for its purity and rich perfume.
