LOCAL INTELLIGENCE

FRIDAY, OCT. 7, 1881.

MASONIC.

CHARLOTTE LODGE No. 21, A. F. & M. E. M.—Regular meeting every second and fourth Thursdays.

KNIGHTS OF HONOR.—Regular meeting every second and fourth Thursdays.

KNIGHTS OF KIPPAH.—Regular meeting every first and third Wednesdays, 7 o'clock, p. m. at Masonic Temple Hall.

I. O. O. F.

CHARLOTTE LODGE No. 88.—Meets every Monday night.

INDEX TO NEW ADVERTISEMENTS.

Attention, Here—O. F. Asbury, Sec. When you come to Charlotte—Brem & McDowell, Ogden—Ester Organ Co., Atlanta.

HOME PENCILS.

Full moon to day.

Cotton receipts 179 bales yesterday.

Two or three runaways yesterday, with no serious results.

Grates and stoves were polished up yesterday and bright fires were seen in many places.

Some of the sovereigns came out yesterday morning in straw hats and overcoats.

The Dixie Agricultural Fair will be opened at Wadesboro on the 17th and continue until the 22d inst.

Columbia has resolved through her board of trade to make a magnificent demonstration on the occasion of the annual State Fair.

Venor predicts numerous rains for October. It will be remembered that he also predicted numerous rains for June, July and August.

Rev. Dr. Hall will preach at the First Presbyterian church this evening.

Reverend prayer meeting at this church this morning at 9 o'clock.

Charlotte has not contributed so far as large a number of visitors to the exposition as might have been expected. But then, it lasts three months.

Miss Louise Clarke, who was here last winter as an elocutionist, has turned her attention to other business. She is running a millinery store at West Point, Ga.

The first number of The Home & Democrat under the new management has been issued. It retains the appearance of the old Democrat, is well printed, and a splendid index number.

Capt. Bell, of the King's Mountain military school, has been in encampment on King's Mountain battle ground this week. The anniversary exercises of the school will take place to-day.

Messrs. Brem & McDowell have an advertisement in this morning's Observer which will be of interest to farmers especially. This house is prepared to offer special bargains in their line, and are as responsible as the best.

In a few days comes the Hebrew Feast of Tabernacles, while on October 16 will be the Feast of Blowing of Trumpets. This will end the Jewish feasts until December 17, when the faithful will again be called together for the celebration of Hanuka.

Possoms in the House.

In a certain boarding house near the suburbs of the city, it is stated, are quartered a number of possoms, using the boxing around the eaves of the house for a den. Several of these nocturnal rambles have been seen by some of the boarders, and others have heard them when traveling about over the house. For a while it was thought the noises heard were made by rats, and the supposed possoms seen by different parties a delusion, but the other morning the cook killed the whole matter by finding a half-grown possom in the slop basin where it had fallen in endeavoring to get at the contents of the barrel.

At the Mayor's Court.

The mayor had a pretty good court yesterday morning, in which three horse drovers, for fast riding and driving of stock through the streets, were fined the sum of \$5 and costs each.

Van Burkhead, white, for being drunk and down, had a fine of \$5 and costs imposed, in default of which he was sent to the chain gang.

Della White, col., for a disturbance of the peace, \$5 and costs.

Rufus Guest, colored, appeared as defendant in three cases of assault and battery, having beaten his wife, his mother-in-law and father-in-law. The dressing of the whole family cost Rufus \$37.50.

Sudden Changes.

It was a common remark this year that we entered summer without any spring worth speaking of, and when once in, we stayed, so to speak. The change from summer to fall has been equally sudden, and the change might be said to be from summer to winter, inasmuch as last Wednesday was a summer day in the full sense of the word, while Thursday brought killing frosts in many sections of the country. It is seldom that such radical changes occur, and it may be a long time before such as we have had this year are experienced again. The phenomena indicates some derangement of the forces of nature, the explanation of which remains to be made. Whether the fall season has fully set in also remains to be seen.

Uncalled For.

List of letters remaining in the post-office at Charlotte, uncalled for, for the week ending Oct. 3d, 1881:

Sam Alley, Misses Rutty and Alice Alexander, John Adams care Joe Hamilton, Mrs. Harriet Alexander, Alberta Alexander, Hirt Boyd, Miss Todd Cook, H. B. Cochrane, Mrs. W. G. Durant, Perry Eaves, J. M. Erwin, Peter Ford, J. J. Foster, Allan French, Robert J. Gibson, G. Crosland, P. D. Lewis, Mrs. H. W. Jones, W. J. McDonald, Mrs. A. McDonald, Sim McNair, J. M. McCorkle, Katie Martin, Miss Flora McNeal, J. E. Ormud, James Parker, W. C. Shurbert, Miss J. C. Shepard, Mrs. E. C. Turner, Mrs. B. S. White, Henry Wilkins, J. Whitney, John Woodward.

When calling for any of the above please say "advertised."

W. W. JENKINS, P. M.

Hospital for the Deaf and Dumb, 422 Street and Lexington Ave., N. Y.

To the Liable Company.

Your Whig has been the means of our entering papers most decidedly rare, for which I am truly grateful.

J. B. KNIGHT, JR., D.

Beware of cheap imitations. Ask for Little's Cough Remedy, and all pains of cough, croup, or cold, will be relieved.

Sold in fifty cent bottles.

Beck's Pills.

New, quick, complete cure of dysentery, colic, and all ailments of the bowels, and kidney disease, \$1 at druggists. Depot, J. H. McLean, Charlotte, N. C.

Huntersville Hill of Honor.

The following farmers in the vicinity of Huntersville are reported as having paid their fertilizer bills this season:

W. G. Pharr, colored, part, W. H. Scott, J. A. Cattron, part, David Gibson, G. W. Gordon, W. S. Blakely, W. G. Barnes, part, D. D. Ledwell, J. J. McCraven, Richard Bird, C. F. Alexander, J. A. Christensen, C. S. Alexander, colored, J. C. McColey, Wm. Allison, colored, Stephen Torrence, colored.

What is a source of satisfaction to see that the farmers generally are meeting their obligations incurred for fertilizers, yet it may be that the names of some good and honest men will not be included in the roll, and for this reason there may be a doubt as to the propriety of dealers wishing the names published of those who may be a little more fortunate than their neighbors. It is nothing more than a man's duty to see that his obligations, no matter for what they may be incurred.

Railroad Rates to Atlanta, Raleigh, Baltimore and Yorktown.

Reduced rate tickets to Atlanta have been placed on sale at all the principal stations of the Associated Railways of Virginia and the Carolinas, and will be kept on sale during the continuance of the exposition. The rate is a cents per mile for the round trip, making the cost \$10.70 from Charlotte, which is thought to be sufficiently high.

Tickets issued north of Greensboro are good for ten days, while those issued by the Air-Line south of that point are good for only six days.

Round trip tickets to the State Fair, which opens at Raleigh next Monday, will be placed on sale by the Air-Line and Carolina Central roads on that day. The prices on either road will be \$5.50 for the round trip, with entrance ticket to the fair attached.

Round trip tickets to Baltimore will be placed on sale by the Richmond and Danville and the Carolina Central roads to-morrow. Rate between Charlotte and Baltimore, via either Bay or York River Line, and return \$13.30 and via all rail route \$17.50. Tickets good from the 8th to the 19th inclusive.

Round trip tickets for Yorktown will be placed on sale on the 12th inst. on the above named roads. These tickets will be limited to the 24th inst. and will be sold for \$13.80. None of these tickets will be good after the dates named.

Tickets to all points North are now on sale by the York River line, at the ticket office in this city.

Meteor Showers and Other Heavenly Displays.

If the astronomers are correct in their predictions, we will have bright meteoric showers on the 18th, 19th and 20th nights of this month. The best time to observe this interesting phenomena will be between midnight and moon-rising. In the east, after nine o'clock in the evening, the planets Jupiter and Saturn will be conspicuous.

Jupiter cannot fail to be recognized, for it is by far the most brilliant object in the sky except the moon. To the right of it and higher up from the horizon, Saturn will be seen, fainter than Jupiter, but with no neighboring star to rival it in brightness. As these planets are now approaching opposition they are coming into the most favorable place for observation, giving us the whole night to study them at the time they are nearest us.

The "red spot" which has been observed for several winters in the southern hemisphere of Jupiter still exists, seemingly unchanged, and is believed to be a permanent marking. By watching its successive returns any one with a small telescope may determine the time of rotation of Jupiter on its axis. It will be found to be about nine hours and fifty-five minutes. Mars rises later, and towards dawn Venus comes up very brilliantly above the horizon.

One marked event stands prominent on the October planetary annals. This is the opposition of Saturn, the most interesting object for study during the month. When the full moon has taken on its waning phase the moonless nights will be glorious with stary and planetary beauty. Saturn will lead the brotherhood that will shine among the clustering stars throughout the serene October nights. Trooping after him with unwavering step bright Jupiter and ruddy Mars will follow, with unseen Neptune and Uranus to fill in the waning line. The October moon fills the full, on the 9th, two days after the full, she is in conjunction with Saturn and Neptune. The October full moon is sometimes called the Hunters' Moon, as her consecutive early rising was supposed to be a help to the sportsman in continuing the light to help him on his way.

Our Gold Mines.

A correspondent of the Chicago Mining Review, writing from this city recently, gives some facts which are well worth republishing, as the mining and mineral interests of our section are assuming proportions that attract the attention of the world. The writer says few people at present have any idea of the amount of money being placed in Southern mines. North and South Carolina attract the most capital, though Georgia is not far behind.

Within the few months three mines in the Carolinas have changed owners at very large figures, and going into the hands of English capitalists.

The Hooper Mine, the Gold Hill Mine, and the Brewer Mine. Mines controlled by Eastern men are too numerous to mention in detail. The Haile Gold Mine situated in South Carolina is at present being worked extensively and with good results.

Quite a number of these mines have a record of having produced, before the war, from five hundred thousand to two million dollars each, these figures being taken from the receipts of receipts of the mines. These large sums of money were produced without the aid of machinery, the methods employed to abstract the precious metal from the gangue being of the rudest and simplest kind. Why, with capital, enterprise and all the modern appliances, these mines should not be made to pay, is one of those questions that I leave to others to answer.

A number of mines in the Carolinas will average \$10 to \$15 per ton in gold. Some of these mines are not ledges, but wide belts of gold-bearing slates. At the Haile there are pits which have been worked over one hundred feet wide and are still being worked. Some blocks of sulphurets 10 to 20 feet wide have been left in these pits which assay from \$80 to \$400 a ton in gold. The day is not far distant when you will see some of these mines producing gold on a vast scale with the most successful of the Black Hills mines.

The assay value of Carolina ores will fully equal that of the Black Hills. The mines are fully as wide, and the cost of working them far less.

TO ACCOMMODATE THE PUBLIC.

The proprietors of that immensely popular remedy, Dr. Williams' Pink Pills for Pale People, have prepared a liquid preparation that remedies for its medicinal qualities those who have any responsibility to prepare it for themselves.

It is more concentrated and as the dose is small it is more comfortable and it has the same effectual action in all diseases of the kidneys, liver, or bowels, and in general.

Prepared by Dr. J. C. Williams, Lowell, Mass.

Starting the Machinery.

Atlanta Constitution.

After the exposition had been formally declared open by the president, Governor Colquitt, the crowd proceeded to the main building, where, at 23 minutes to 3 o'clock, Senator Voorhees and Governor Colquitt started the machinery of the north wing, Senator Vance and Director-General Kimball and General Goshorn of the east wing.

In the latter it situated, the great Corliss engine, which had made its first revolution three cheers were proposed and responded to with the greatest enthusiasm. At this point Director-General Kimball's face was seen to light up and radiate with an emotional glow of mingled pride, pleasure, satisfaction and triumph; and as the immense wheel went on its quickening rounds, imparting the life and energy of motion to its multiplied attachments, nothing could be more typical of the man who stood beside it; who saw the perfection of its work, the achievement of its greatness a result of his own master energy. This is not the first wheel H. J. Kimball has turned in Atlanta, and though this is by his aid the greatest of his works this time is not yet when the measure of his power is due. The accumulating years will be freighted with the fruits of the science planted yesterday, and as they ripen and are gathered in tithes of gratitude from each crop will be selected and set aside for him. Mr. Kimball, the executive committee, Atlanta the exposition, and the big wheel, like Sellers' eye-water, are a success. Let 'er roll.

North Carolina Tobacco in Virginia Markets.

Winning Star.

Danville for September sold 2,762,645 pounds of tobacco and Petersburg 290,079 pounds. During the tobacco year ending September 30th, 30,552,504 lbs. were sold in Danville, fetching \$3,326,057.16. Petersburg sold 3,000,000 pounds. Danville is less than three miles from the North Carolina line. Many of the best North Carolina counties sell largely at Danville. Petersburg deals extensively with the State. Probably one-third of the tobacco raised in their own State and how much from other States.

The President and Yorktown.

Before President Arthur left for New York, Senator Johnson, chairman of the Yorktown Congressional Commission, had an interview with him in reference to his presence at the centennial celebration ceremonies, and expressed to him the hope that he would take the part in the ceremonies which his lamented predecessor had promised to take. The President said he would take much pleasure and interest in being present, but could not now say positively, as other things which might interpose to prevent, the Senate might be in session. It was suggested that if the Senate was in session it would doubtless adjourn for the celebration, and the programme for the ceremonies has been finally arranged with the confident reliance that the President will be present.

Chester, S. C. Fair—Address of Commissioner Loring.

CHARLOTTE, S. C., Oct. 7.—The Chester Fair Association, which opened on Tuesday, was largely attended yesterday, people coming from adjacent counties and North Carolina to hear the address of Commissioner of Agriculture Loring. The address was very practical in character, pointing out the value of ownership of land by its cultivators as strengthening the moral and political qualities of the people, and impressing the farmers with their importance to the country and the necessity of thrift, industry and progress in their calling. The address was well received.

Good Subjects for the Painter.

LANCASTER, PA., Oct. 6.—Edward Sanders and Phillip Rogers, two notorious characters of this city, late last night forced their way into the room of Mrs. Mary Seymour, John street, this city, and in the presence of her three children Sanders criminally assaulted her. The woman struggled desperately to escape and at length succeeded, Sanders following her into the street, knocking her down several times. Mrs. Seymour escaped to a neighbor's house where she died from the effects of her injuries in a few moments. Both men were arrested and are now in jail charged with murder.

Placed in a New Casket.

CLEVELAND, Oct. 6.—President Garfield's body has been placed in a new casket made especially for the purpose as a gift. The casket is sheet bronze, elaborately wrought with gold trimmings, and a solid gold plate is to be fixed on the top of the casket, as Mrs. Garfield directs. The remains were in an unexpectedly good state of preservation, and now that a proper casket has been provided, it is probable that the plans of the monument committee will be changed, and instead of the body being put in the ground, a crypt will be erected and the casket exposed to view.

Few complexion can bear the strong white morning light, which exposes every speck of tan, even the slightest spotting of complexion. In Dr. Boswell's Skin Cure is sure relief from the annoyance of these blemishes on the cheek or beauty.

INDULGENT PARENTS.

Who allow their children to eat heartily of highly seasoned food, rich pies, cake, etc., will have to use Bowditch's Kidney Pills, for the relief of the kidneys, and the prevention of the disease.

MARKETS BY TELEGRAPH.
