Asheville Citizen: George Snider, white, an escaped penitentiary convict from North Carolina, was arrested in Greenville, S. C., on Sunday last. The crime of which he was convicted in North Carolina was horse stealing.

Upwards of twenty-five healthy, progressing babies have put in an appearance in Asheville in the past week, six within thirty hours, and a good many precincts yet to hear from.

The many friends of D. F. Davis, Esq., a prominent young merchant of Marshall, will be pained to learn of his death, which occurred in this place on Saturday. Mr. D. had been sick for some time with consumption.

Raleigh News-Observer: Mr. W. C. Parker has been appointed chief of police at the fair. He has held that position for four years in succession. Several boys were before the mayor yesterday, charged with being drunk on the streets. They were fined, as

Mr. W. S. Uzzel was married on Wednesday to Miss Belle Turner, at the residence of her parents, in Hillsboro. There was a bond burning at the Treasury Department, yesterday, at which \$390,000 in old bonds were de- | did the job.

Statesville Landmark: The Statesville members of Prof. W. H. Neave's State Band will leave here next Wednesday for Raleigh, where the band will practice for five days and then proceed to Yorktown. One of the best farmers and most intelligent citizens of Sharpesburg township expresses the opinion that, not-

withstanding the panic about the fail-ure of crops, corn will sell in the heap this fall at 65 cents per bushel. A number of persons remarked, Tuesday evening, about 8:30 o'clock, a meteor of extraordinary beauty and brilliancy in the northern sky. It fell a great distance, and when near the horizon burst into a thousand dazzling particles. Some pronounce it the most

beautiful meteor they ever saw. A brick extension, 46x90 feet, is to be built at once to the Western North Carolina Railroad depot at this place. Mr. C. F. Bost has the contract and commenced work on the ground this morning. Brick laying will begin Mon- the chair of the Senate.

On the 28th ult. Deputy Collectors Walker, Coley and Stockton seized 110 gallons of brandy, two stills and fixseized on Setzer's premises near Newsame day, the same officers seized 50 gallons of illicit brandy, the property

of James McRae, of Catawba.

The protracted meeting at the Presbyterian church, which was commenced two weeks ago, closed last Monday night. It was the occasion of a great awakening, and the devoted pastor and his people feel that much good has been done. Six persons were added to the membership of the church last Sunday week, and 15 last Monday night.

RAILROAD MATTERS.

Rumored Arrangements by which the Greenwood, Spartanburg & Union Railroad will Obtain a Connection Augusta Chronicle.

President Verdery, of the Knoxville and the Greenwood, Spartanburg and Union Railroad, returned to Augusta yesterday, from Wilmington, N. C. It is rumored that his visit had something to do with some arrangement whereby the Green wood, Spartanburg and Union Railroad will obtain a northern connection at Spartanburg. It is reported that this connection will be obtained through the Carolina Central Railroad, which runs from Wilmington to Charlotte, from Charlotte to Lincolnton, N. C., and from Lincolnton to Shelby, which is only thirty-five miles from Spartanburg. This road runs through a splendid country. President Verdery will attend a meeting of the Directors of the Green wood, spartanburg and Union Railroad, at Spartanburg, to-mor-

The Saluda Argus, of a recent date, says: "Mr. J. Henry Isaacs left town Monday afternoon on a tour down the Augusta and Knoxville Railroad, to receive and classify cross-ties for the com-pany, so that they may be in readiness when needed. This looks still more like business on the part of the management of the company, and we can almost imagine we hear the trains thundering along down the Augusta and Knoxville on some cold, frosty morning before the ides of December are cancelled in the calendar of the past, We have full assurance that a force of hands will be placed on this end of the ine during October, and with the work being pushed rapidly through from the other side, it looks as if we would not not have to wait many months to go on an excursion to the city of Augusta over the road that has been anxiously labored for through every drawback and through some seemingly insurmount-able difficulties."

The First Cotton Factory.

Shelby Aurora. It will doubtless be news to the most of our readers to learn that the first cotton factory ever erected and operated on North Carolina soil, was located in the good old county of Cleaveland, and was located on the waters of Buffalo creek, not five miles from Shelby. But, as strange as this may seem, we was well known to many of our citi- free from laxity and costiveness,

Mr. Michael Beam, whose name should ever have a prominent place in life as Simmons Liver Regulator." North Carolina history, was born on the 1st day of June, 1782. At the age of twenty-two he went to Cincinnati, Ohlo, where he visited a cotton factory, then in operation in that city, and made a rough drawing of the machinery on a piece of common writing paper. He then returned home and went to work with his own hands and manufactured the machinery for what was called a "Mule Spinner," which he put up, and operated successfully, at the place where the widow Susan Beam's mill now stands. He made the spindles in a blacksmith shop, and his brother, Mr. Peter Beam, now has some of the tools which he used for that purpose. This was doubtless the first factory ever erected in North Carolina and it was first put in operation about the year 1804. A few years after this he put up a factory near Lincolnton. N. C., for Messrs, Warlick & Schenck, and after that Mr. John Hoke and others built factories in that county. These are the facts as we have been able to gather them and we hope that they may lead to the gathering up of many more valuable reminiscences of this section of our State.

It is reported on good authority that Indiana will have as much wheat and corn this year as last.

Herbert Spencer is said to be about to marry a pretty little American he discovered in Egypt.

Over \$20,000,000 is now lying in the United States Treasury waiting for the holders of past due and called bonds to ask for it; but the paragraphers all say they don't care to bother themselves about their surplus capital so long as the building is properly guarded. Gen. Carr can stand completely exposed in a shower of Indian bullets

and swear at the fierce children of the forest without ever getting hit. It is supposed that the red warriors once served under Sergeant Mason. The reduction in the price of mining stocks on the San Francisco stock board was from \$282,305,404 in January, 1875, to \$17,902,700 in July, 1881, a loss of \$264,502,704. This was a sum larger than the total valuation of San Fran-

cisco. The figures will explain how Fair, Flood and Mackey are worth their millions. Speculation behind the scenes Wine-growing is being successfully pursued in Virginia, and is rapidly assuming larger dimensions. It was first introduced by Germans, but others are now taking a hand in it. One firm, with thirty-seven acres of land, has produced 8,500 gallons of wine in a season. It is reported that the yield of two counties this year will be 50,000 to 60,000 gallons. There is a ready mar-

ket for all that can be produced. The only foreign-born Senators, we believe, are the Joneses, Mr. Beck and Mr. Fair, and neither of these gentle-men is named in connection with the chair. Of the Republican candidates for the speakership, Mr. Reed was born in Maine, Mr. Kon in Vermont and Mr. Hiscock in York. We believe the only person ...er chosen as speaker of the House who was bern abroad was Mr. Muhlenberg, the first speaker, and he was a citizen when the constitution was adopted, and so was eligible as President. No President pro tem. of foreign birth has ever been placed in

### The Tobacco Crop.

Baleigh News-Observer. tures, the property of Logan Setzer, of Catawba county. The property was heavy one, and its effects upon the tobacco crop are indeed disastrous. A ton. In the same neighborhood on the same day, the same officers seized 50 tobacco in that section is seriously damaged, especially in the low lands. A letter from a friend at Durham states that the frost in that section was destructive. Farmers report that the tobacco which had gained a new start by reason of the rains of three weeks since, is badly damaged. The same letter also conveys the information that prices of tobacco have advanced materially, and that all bright tobaccos are held for heavy profits.

Another friend at Durham writes us that he has been out and inspected several crops of tobacco, and that it is ruined by the frost. He also says that he has heard from portions of three counties, and the reports are that the crops are everywhere badly damaged. He says that he has never seen any crop so badly damaged by frost so early in the year. Similar reports reach us from Danville. We fear that the tobacco crop will be short and a failure this

Cotton Factories in Iredell.

Statesville Landmark. When Thos. A. Nicholson, Esq., gets his into operation, there will be three cotton factories in this county: Nicholson's, Eagle Mills and Turnersburg. The Turnersburg factory, by the way, is about enlarging greatly the scope of its operations. A large new building has been put up near the old factory and new machinery bought for it. Mr. Wilfred Turner went North last week to look after this machinery, which is to look after this machinery, which is expected to be on in a short time. The Turnersburg yarn has a fine reputation. We are glad arrangements are being made to spin more of it.

[Washington, (Ind.) Gazette.] Artemus Ward and the "Michigan Regiment."

In a Louisville, Ky., hotel one day, Artemus Ward was introduced to a colonel whe had commanded a Mississippi Regiment in the war. Artemus in his way "that was child-like and bland," said: "What Michigan Regiment did you command, colonel?" Then it was that the "colonel" spun like a top and swore like a sailor, until pacified sufficiently to hear an explanation. Artemus with surprise observed that he "was always getting things mixed about the war." It is always unfortunate to get things mixed, but never more so, than when one is sick. Then it is that the right thing in the right place is wanted mere than at any other time in life, or under any other circumstances. It is a pleasure for us to note in this connection, the experience of our esteemed fellow citizen, Col. Samuel H. Taylor, who as is well known does not get things mixed. In a recent communication he writes: "I do hereby certify that I suffered very much from Bheumatism and Neuralgia during the Fall of 1879, and tried many remedies with little if any good results. I had heard of St. Jacobs Oil, and concluded to try it; more as an experiment than with any hope of good results. I can with great pleasure commend it to others, for the reason that I know it cured me." Col Taylor by the way was at one time Postmaster at Cumberland, Maryland. ---

CHRONIC LOSSENESS OF THE BOWELS have just come in possession of the results from imperfect digestion. The cause lies following facts which are vouched for in the torpidity of the liver. A regular habit of in this county and is a brother of the man who built and operated the first cotton factory within the bounds of the cold North State. He is also a brother of the old North State. He is also a brother of the old North State. He is also a brother of the old North State. He is also a brother of the old North State. He is also a brother of the old North State. He is also a brother of the old North State. He is also a brother of the old North State. He is also a brother of the old North State. old North State. He is also a brother acidity of the stomach, cures dyspepsia and per- Spleen. As a remedy in of Col. Joshua Beam, deceased, who manently creates regularity of the bowels alike "I have never seen or tried such a simple, effi-

cacious, satisfactory and pleasant remedy in my H HAINER, St Louis, Mo. Winston, Forsyth county, N. C.

Gents - I desire to express to you my thanks for your wonderful Hop Bitters. I was troubled with dyspepsia for five years previous to commencing the use of your Hop Bitters some six months age. My cure has been wonderful. I am pastor of the First Methodist church of this place, and my whole congregation can testify to the great virtues of your bitters.

Very respectfully,

REV. H. FEREBEE. BURNETT'S COCOAINE,

Unlike All Other Hair Pressings,

Is the best for promoting the growth of and beautifying the hair, and rendering it dark and glossy. The Coccaine holds, in a liquid form, a large proportion of deodorized Cocoanut Oil, prepared expressly for this purpose. No other compound possesses the peculiar properties which so exactly suit the various conditions of the human hair. The superiority of Burnett's Flavoring Extracts consists in their perfect purity and great strength.

BEDFORD ALUM AND IRON SPRINGS WATER AND MASS.—The great tonic and alterative contains iwice as much iron and fifty per cent. more alumning than any "alum and from mass" known.

Just the thing for the "spring weakness" now so general. Sold by all druggists of any standing.

Prices reduced one half,
