

The Charlotte Observer.

CHARLES E. JONES, Editor & Proprietor

WEDNESDAY, OCT. 11, 1881.

The Georgia pencil plyers meet in Atlanta to-day.

John Kelly, for Tammany is taking up the anti-monopoly cry.

Secretary Blaine has offered his uncompleted residence in Washington for sale.

The main building at the Atlanta exposition is 720 feet long and 400 feet wide.

Some Boston capitalists are about to erect cotton factories at Vicksburg, Miss.

The crowd of visitors at the St. Louis Agricultural Fair, last Thursday, is numbered at 80,000.

Since Sitting Bull has retired from business the buffalo is returning to his old stamping grounds.

John Goode has been nominated for the house of delegates by the Democrats of the Norfolk, Va., district.

The Baltimoreans are spreading themselves on the Oriole and the city will be filled, no doubt, with sight-seers.

A nephew of John Sherman, who was Federal Marshal in New Mexico, has been arrested for a heavy embezzlement.

The Philadelphia Times congratulates its readers that there is no chance for the election of Riddleberger or Gorham by the Senate.

Richmond seems to be a considerably "ridden" burg. The State says: "The fact is that Richmond is committee-ridden, official-ridden, bed-ridden."

From all the indications so far there will be a jam at Yorktown, and visitors will have to pay for what accommodations they get, if they get any at all.

Virginia is to have a State Industrial Exposition, the first since 1859. It will open in Richmond on Thursday, 13th inst., and continue until November 11.

The New York Sun objects to the proposed change of Wrangell land to that of New Columbia, as it would mix up things geographically.

It is said that Secretary Blaine is pushing his son Walker, a bright fellow, for a member of Congress. He has a good deal of the dash of his father.

The estimated cost of operating the public schools in New York city next year is \$3,336,725; \$406,000 of which amount is set apart for sites, school furniture, new buildings, repairs, etc.

Another big nest of fraud has been discovered in the Pension office in Washington where a ring of clerks has been detected in paying false claims to the amount of millions.

The Atlanta Constitution claims that the Atlanta Exposition will be next to the Philadelphia centennial, the finest and most complete industrial exhibit ever seen in the United States.

Three prominent Readjusters in Virginia who have become disgusted with Mahone's antics with the Radicals, have abandoned him and announced themselves for the Democratic ticket.

Americans in London are moving to place a commemorative slab to President Garfield in Westminster Abbey, if the consent of the British Government be given, of which there seems to be no doubt.

The Chiricahuas are again on the war-path. They recently attacked a white settlement and killed five people. Troops are in pursuit, but Indians can travel faster than United States soldiers can follow.

Arson Pratt, the noted Mormon preacher, and the ablest man amongst them, died at Salt Lake on the 3rd inst. He retires from the arms of his numerous wives and his prattle will be heard no more on this side of Jordan.

Father Ryan, the poet priest, delivered his farewell sermon at St. Mary's church, in Mobile last Sunday. The Register speaks sorrowfully of his departure, because he was dear to every one in that city, irrespective of denomination.

New York speculators are borrowing money and locking it up, for the purpose of breaking the stock market, and now the secretary of the treasury is asked to come to the relief of Wall street. He will probably permit the bulls and bears to fight it out.

The Atlanta Constitution expresses the hope that Mr. Bayard's spinal column may be sufficiently rigid to meet the emergencies since he has stepped into the chair of President of the Senate. Perhaps it might help things if he carried a copy of the constitution as an invigorator in his hip-pocket or thereabouts.

Here is a little slapp at Atlanta, which might have been clipped from a paper of one of her rival Georgia towns, but it wasn't: "A correspondent writes to a Western paper that Atlanta has 178 lawyers, only three of whom have a practice of over \$5,000; doctors in similar proportion; but she has one oculist who makes \$25,000 annually. No wonder there is so much talk in the Gate City and 400 houses advertised for sale for the non-payment of taxes."

Three thousand reports made to Bradstreet's point to a wheat out-turn of 868,992,000 bushels. The yield of the Southern States is put at 40,000,000 bushels, the State of Texas reporting a gain over last year. The Southern corn crop is put at 247,500,000 bushels, against 406,822,000 bushels in 1880, and 308,478,000 in 1879. Both of these crops in the United States are short, but the outlook is not so forbidding as some operators would have the world believe.

NEW YORK POLITICS.

For years the politics of New York has been notoriously corrupt, the patronage and plunder of that rich and populous State being so great as to tempt the cupidity of office-seekers and cause wide-spread demoralization amongst them. The bosses have run the machine and had their little armies of retainers at their heels, who did the dirty work and took their pay in spoils distributed. The voters have been bought and sold by their bosses on both sides with as much business deliberation and calculation as if they were disposing of so many live stock in market. John Kelly has been playing the role of "boss" to Tammany Hall for several years, and has power enough, with the following he controls, to decide the result of any election. Knowing this he makes his demands and if they are not complied with he declares war and enters the field for vengeance and spoils. This defection has cost the Democrats the State twice if not oftener, and given it to the Republicans. That he entered into a corrupt bargain with the Republican managers in the last Presidential election, by which he gave them New York, we have not the slightest doubt, and our belief is confirmed by the following statement from Col. Bliss who don't seem to be any better, however, than Boss Kelly, in which he tells how the bosses borted:

"In the year that Cornell was running for Governor, the Tammany Boss, of course, did not care anything for Robinson or the rest of the State ticket, and we both agreed to trade votes in the city. He was to give 3,000 votes to Hamilton Ward and James W. Wadsworth, and we were to deliver 3,000 votes to Gumbleton, the nominee of Tammany for a local office, county clerk, I think. This deal, however, was of a kind where the republicans gained what they wanted and Tammany did not. We tried to deliver the votes to Gumbleton, but we couldn't possibly do it."

Kelly is determined to rule or ruin the Democratic party in that State, and that is what he has been doing for years past, since he locked horns with Robinson and Tilden. His defection elected Cornell, and gave the State to the Republicans at the last presidential election. The Democracy cannot count on anything like reasonable hope on success, while such a venal trickster remains in the party to betray it. The sooner they send him adrift are take their chances in the field with him square against them the better their chances of success. As an open enemy he is less dangerous and less to be dreaded than as a pretended friend, ever impious in his demands, and ever ready to betray. He is in Albany now with his strikers demanding admission into the convention and threatening to bolt if admission be refused. Bolt is his game, and by bolting he plays into the hands of the Republicans, and draws votes enough from the Democratic ticket to insure Republican triumph. As an ally of the Republicans he is a success. As a Democrat he is an arrant fraud.

THE VICE-PRESIDENCY.

A postal card containing the following query comes to us through the post-office:

To the Editor of The Observer: Please inform a reader whether or not the election of Mr. Bayard in the Senate to the Vice-Presidency does not create a vacancy? READER.

No; unless he sees proper to resign his office as Senator, in which case the Governor of Delaware would appoint his successor, until the Legislature of that State could supply the vacancy in the regular manner by election, and in pursuance of law.

Telegraph business has increased four-fold within the past four or five years.

Spinola's shirt collar is one of the conspicuous objects at the New York Democratic convention.

Ohio Federal office-holders were scarce in Washington yesterday. They were in Ohio helping to elect Foster.

The postal card is an Austrian idea adopted in 1860. What a time the clerks must have had in reading them at first.

During services in a Bradford Pa. Methodist church last Sunday night a woman fainted, when some idiot cried, fire, leading to a panic among the congregation in which several people were badly injured.

Respectable persons in England are allowed to carry a pistol after obtaining a license that costs \$7.50. In the United States, if a respectable person is found carrying a pistol, he may be heavily fined.

Senator Vance is putting up in Washington at the Metropolitan Hotel, as are also Senators Wade Hampton, of South Carolina, and Joseph E. Brown, of Georgia.

It is reported that Republicans are going to start a paper either at Greensboro or Winston in opposition to the "Greensboro Ring." There is a lack of harmony among the brethren.

If one-half be true that is told about the barbarous treatment of victims by the Apaches in Arizona and New Mexico, the extermination of such savage fiends would not call for many tears.

Mr. Tilden has written a letter in which he states that he has no desire to control the nominations in New York. This don't preclude the supposition, however, that Uncle Samuel has passed his slate around.

The Winston Leader having cleaned out "Cash Corner," is now cornering on "Happy Corner," which it denominates one of the "running sores" of that burg. It draws rather an ugly picture of the condition of affairs in that town. We quote briefly from its leader of last week, in which it calls attention to the abuses which exist: "Like a huge devil-fish, intemperance and debauchery are gradually drawing this town into their deadly embrace and choking out the healthy temperance and moral status we once enjoyed. The people appear to be perfectly indifferent to the loathsome miasma which is slowly but surely creeping over us."

FROM WASHINGTON.

The editor of the Philadelphia Record does not seem to be a very ardent admirer of Col. McClure, of the Times, if we may judge from such complimentary allusions as the following: "The reason that the prognostications of A. K. McClure with reference to the course of President Arthur all fall wide of the mark is because the latter is a man of integrity and a gentleman. It is a good rule to set a thief to catch a thief; but it is a poor plan to set a thief to catch an honest man. The way of honesty and truthfulness is a perpetual pitfall for rogues."

There is but little doubt, says the Philadelphia Record, whenever the probe is pushed deep enough, ulcers will be found in the Pension Office and in the Treasury Department which will make the Post Office exposures very tame by comparison. Day by day the rottenness of the Hayes administration grows more apparent. There is danger to Republican institutions in the concurrent existence of a full treasury and a foul administration.

A duel between Mr. Daniel W. Trigg, Democrat, of Abington, Va., and Judge George W. Ward, Readjuster, was nipped in the bud last Friday by the arrest of Ward. Mr. Trigg had gone to Bristol, Tenn., to wait for him, but in consequence of the arrest, Mr. Trigg was deprived of the satisfaction of drawing his trigger. On his return he also was placed under bond.

FROM WASHINGTON.

Proceedings in the Senate—New Senators sworn in.

WASHINGTON, October 11.—SENATE. Immediately after the reading of the Journal, Edmunds, rising to the question of highest privilege, moved that the oath of office be administered to Nelson W. Aldrich, Senator elect from the State of Rhode Island.

There being no objection, the motion was agreed to and Aldrich was sworn in.

Edmunds then made a similar motion in cases of Senators elect from New York.

McPherson interposed and stated that he desired to present a petition pending that motion. He held in his hands a communication from certain members of the New York Legislature, alleging that certain members of the Legislature and Miller were not entitled to seats in the Senate. With regard to those allegations he knew nothing. He did not present the petition with any desire to delay action upon the administration of the oath. He offered the petition and would refer it at the proper time to the appropriate committee.

Edmunds said that as the petition referred to the propriety of swearing in the new Senators from New York he would not object to its reception at the present time.

The petition was received and laid upon the table and the oath of office administered to the Senators from New York.

A committee, consisting of Pendleton and Anthony, was appointed by the President to wait upon the President and inform him that the Senate was ready to receive any communication that might be presented to send them.

Then at 12:15 p. m. the Senate took a recess for half an hour.

After recess, Edmunds offered a resolution declaring that the standing committee of the Senate, as they constituted at the close of the last session of the Senate, be continued for the present session, and authorizing the president pro tem to fill any vacancies which exist.

Harris asked that resolution lie over for one day under the rules. It was so ordered.

The committee appointed to wait upon the President reported that he had performed the duties of the office and the President had stated that he would communicate in writing with the Senate to-morrow.

The Senate then at 12:50 adjourned until to-morrow.

Lease of the Cincinnati, New Orleans and Texas Pacific Railroad.

CINCINNATI, October 11.—The final formalities connected with the transfer of the Cincinnati Southern Railroad to the Cincinnati, New Orleans and Texas Pacific Railroad Company, in accordance with the terms of the lease, were completed this afternoon.

The new company paid to the trustees of the road \$157,700 for the property and supplies on hand and to the company which has been operating the road \$137,875 for its property in rolling stock, etc., as fixed by the appraisers. The company also deposited with the sinking fund \$300,000, as security for making betterments of the road as required by the lease, and in addition gave a mortgage on all property of the road to secure the observance of terms of the lease. An indemnity fund of \$500,000 was given to the retiring lessees for the faithful performance of contracts assumed by the sinking fund trustees have certified the action taken and formal possession will be taken by the new company this midnight.

Trouble Feared with the White Mountain Indians.

SAN FRANCISCO, Oct. 11.—A Wilcox, Arizona, dispatch reports from San Carlos that Chiricahu scouts who departed last week for the White Mountain Indians. Fears are entertained that the latter will retaliate, and if a general fight takes place among them no one can tell where it will end.

Gen. MacKenzie is at the agency. Chief George is in the line of march, and he and his men, and some of Carr's troops in pursuit. Col. Sanford has been directed to place his troops in such a position as to prevent all incursions of hostiles along the border between Arizona and Sonora.

A Man's Wife Splits His Skull with an Axo.

Lenox, N. Y., September 28th, Sheriff Kincaid, living on John's River, in Burke county, near John Perkins, Esq., was so severely wounded by a stroke given him by his wife with an axe that he died the Friday following. It seems that the woman had one of the White Mountain Indians, and for some time past had been doing the cooking. Kincaid, on Wednesday morning, was stooping over for breakfast, when his wife came up behind him, and struck him a murderous blow on the top of his head with the sharp edge of an axe, partially splitting the skull. As soon as she committed the deed, the woman fled to the woods. Kincaid lingered on until Friday, when he died. He was buried Sunday and his wife came in to attend the funeral. She was promptly apprehended and placed in Morgantown jail.

As our reporter came along Water street last night, salivating with the chill night air, and drawing his overcoat tight about him, he thought "now is the time for colds and coughs," and he poor mortals only knew what a certain cure Dr. King's Cough Remedy was, and then he took one half, and was cured.

BROWN ALLEN AND JOHN SPRIGGS WERE AND WERE NOT THE SAME PERSONS. They were twice as much iron and fifty per cent. more valuable than any "alum and iron mass" known. Use the King's "Cough Remedy" now. General. Sold by all druggists at any standing. Price one half.

FROM WASHINGTON.

Humor That Winsom and McVeagh Will Retire. A Number of Appointments to be Sent to the Senate—Gibbons's Case to Come up To-day and Other Items.

WASHINGTON, D. C. Oct. 11.—It is generally believed that at least two cabinet changes will be announced when the Senate convenes to-morrow, and the names of the members of the cabinet and McVeagh's name are known. The President has upon his desk above a hundred nominations to be sent to the Senate and the general impression is that the final adjournment of the Senate will be possible in two or three days. The Democratic Senators met in caucus about 2 p. m. in the capital to discuss the situation and arrange upon a plan of action respecting the appointment of committees and the election of a secretary.

The cabinet session lasted about an hour. Nothing of special importance was considered, the time being devoted principally to the discussion of the political situation as it now stands.

The Howgate case was before the grand jury to-day.

President Arthur has accepted an invitation to attend the Yorktown centennial ceremonies and will go to Yorktown early next week.

A copy of the indictment against Guitau and the list of witnesses were read to him to-day in his cell in jail. It is understood that Guitau will be arraigned to-morrow for trial.

Watauga Murder.

Fleming Press.

We learn through a credible source of the commission of a diabolical murder in Watauga county, on last Wednesday night. A gentleman was traveling through the county collecting money, and stopping at the house of a lady, desired to deposit a sum of money with her—the amount of which we are not informed. At first she refused, but yielding to the persuasion of two ladies who were present, she finally consented, and the gentleman went on his way. Mistrusting something from the pursuasive seal manifested by the two unknown women, he resolved to return. On entering the house he was shown to his room up stairs and he retired without asking for the money entrusted to the lady's keeping. During the night he was aroused by the screams of a woman. Hurriedly he ran down stairs to her rescue, if possible, but was met at the foot of the stairway by two men, whom he instantly shot, recognizing them as robbers. On investigation it was ascertained that they were the same ladies that were there in the evening, who influenced the money deposit, and in their evil design murdered this inoffensive lady to obtain the money in her possession.

ITS ACTION IS SURE AND SAFE.

The celebrated remedy Kidney-Wort can now be obtained in the usual dry vegetable form in liquid form. It is put in the latter way for the especial convenience of those who cannot readily prepare it. It will be found very concentrated and will act with equal efficiency in either case. Be sure and read the new advertisement for particulars.—South and West.

What Can be Done in Florida.

The Palatka (Fla.) Journal says: "Several years ago Mr. Collins, who lives just over the southern line of this county in Marion, came to Florida to bear his pecuniary condition. He was poor. He lived in the most economical way because he had to. It is said that his diet for years was cat-fish, hominy, and such things as he raised on his land. He was too poor to buy the trees, and he used the seed whenever he was in company with any one eating oranges. These seed, thus obtained, are the foundation of his grove. He gave his grove constant and careful attention, cultivating between the rows with cotton each year. By fertilizing his cotton he gave food to his trees. His grove is now one of the best in Florida. Mr. Young, orange packer, of this city, has offered to buy and pay for 100,000 oranges on 100 of Mr. Collins's trees this season. Mr. C. declines, because there are more than that number of oranges on the trees. The property of Mr. Collins and his brother is estimated to be worth more than \$30,000."

TO ACCOMMODATE THE PUBLIC.

The proprietors of that immensely popular remedy, Kidney-Wort, in recognition of the claims of the public which has generally patronized them, have prepared a liquid preparation of that remedy for the special accommodation of those who have by reason of indigestion, or other ailments, become so much more concentrated, and as the dose is small, it is more easily taken by many. It has the same beneficial action in all diseases of the kidneys, liver or bowels.—Home and Farm.

MOTHERS DON'T KNOW

How many children are punished for being uncouth, wilful, and indifferent to instructions or rewards, simply because they are out of health? Intelligent mothers should know that if they would give the little ones moderate doses of Hop Bitters for two or three weeks the children would be all a parent could desire."

BALTIMORE, Md., Jan. 31, 1879.

Gentlemen—Having been afflicted for a number of years with indigestion and general debility, the advice of my doctor I used Hop Bitters, and in a few days I was enabled to eat and sleep. I am glad to be able to testify in their behalf.

NEURALGIA.

Nervous Irritability, Sciatica and all painful nervous diseases—A disease by a well known physician, a specialist on these subjects, concludes as follows: "Neuralgia is one of the most painful of diseases, and is attended with more or less nervous irritation. Sciatica is also a form of neuralgia, and all painful nervous diseases come under that name. Neuralgia means nerve ache, and therefore you can suffer with neuralgia in any part of the body, as the nerves are supplied to every part."

"I have for many years closely studied the cause of neuralgia, and the nature of the nervous system, with the many diseases that it is subject to, and have found by actual experience that the true and primary cause of neuralgia is poverty of the nervous fluid—it becomes impoverished and poor. By some cases it is not because the patient does not eat, but because what is eaten is not appropriated to the nervous system. There are many causes for this, but Dr. C. W. Benson's Celery and Chamomile Pills have in my hands proved a perfect remedy for this condition and these diseases."
