HOME PENALINGS.

The air continues gloomy. The wounded burglar Biggers, now in jail awaiting trial, has almost entirely recovered from his wounds.

Why need we go to Yorktown, Baltimore or Atlanta? We will have a hanging this month, and another next month.

Now that the Gounod is re-organized under such favorable circumstances, it is time for the Dramatic Club to be up and doing.

Mr. F. H. Andrews received a telegram, yesterday, from Adjutant-General Jones that the State Band for Yorktown would assemble in Raleigh to-morrow.

In spite of the fact that twenty dramatic companies are reported as disbanded even this early in the season the enjoyments at the Charlotte opera house are as numerous as usual.

Mr. J. A. Hoskins, Postal Route Agent between this city and Richmond, is back on his car after an absence of about a month granted him on the occasion of his marriage.

Dr. O'Donoghue, the popular signal officer for this station, returned yesterday from a vacation of some weeks, the greater part of which he spent in Washington. He relieves Officer Haney, who will return to Wilmington.

It has occurred to many people of this immediate section, especially throughout the past summer, that the rainbow should have a counterpart - in other words, that we are sadly in need of some sign that don't fall in dry weather.

The reports of hands and arms being torn by the saws of cotton gins are painfully frequent. A son of Mr. J. R. Abernethy, of Iredell county, was a few days ago, thus lacerated, says a letter received at this office. The hand was terribly cut, but the young man is recovering rapidly.

Messrs. Barker & Derr, of Huntersville, who have been furnishing the Huntersville "Roll of Honor," consisting of those who had paid their fertilizer bills, wrote and say that they will publish no more names, as they are satisfied that all who owe them at Huntersville and Cowan's Ford will pay up in full.

Both Allen Johnson, to be hung on the 28th inst. for the murder of Blind Crump, and Den Brown, to be hung on the 25th of November for the burglary of Mr. Wm. Ellers' residence a few miles from the city, are actively preparing to meet their God. They are frequently visited by various ministers with whom they pray and sing with much earnestness.

The Hornets' Nest Riflemen passed a resolution of thanks, last night, to the gentlemen of the city who so liberally responded during the day to the calls of the soliciting committee for assistance to the company in transportation to Yorktown. They will continue their rounds to-day until the necessary amount is secured. The names of the contributors will probably be published to-morrow.

Some time ago THE OBSERVER received an official notification that Coup's circus would be here about the 20th of this month, but so far the town has not been posted, nor has his agent appeared. The circus appears in Wilmington day after tomorrow. It looks like Coup was going to give us the go-by; but Forepaugh will, in all probability, be here by the 5th of November, and Forepaugh's is the biggest of them all.

The Contractors Arrived. Messrs. Garwood Ferris, Jno. E. Halladay, John W. Soper, T. Hayes, P. Donovan and M. Lyons, water works contractors and constructors, reached the city yesterday. They propose to proceed at once to the work of constructing our long looked for water works, and will proceed without interruption until the work is accomplished. They have the best wishes of THE OBSERVER and the people. All the parties are of Jersey City.

A Hat Hiddid by the Head not Hit. Mr. Edwards, of the cotton compress, now displays a hat full of shot-holes which it received while on Mr. Edwards's head, from the accidental discharge of the gun of a companion with whom he was hunting a day or two since. He was but a few paces from the muzzle of the discharged gun and the wadding struck him behind the ear and it "stung like the devil," says the gentleman with indignant recollection of the occasion. However, not a shot struck the scalp, although the top of the hat presents the appearance of a sifter. It was an extremely narrow escape, and the owner of the hat declares that in the future it is his intention to be extremely careful in his hunting companions, and if possible to keep in the rear of even the most cautious.

Few complexion can bear the strong white morning light, which exposes every speck of tan, every pimple and the slightest spotting of eczema. In Dr. Benson's Skin Cure is sure relief from the annoyance of these blemishes on the cheek of beauty.

PRESIDENT BUFORD'S REPORT.

The Richmond and Danville and Its Roads - What the Report Says as to the Completion of the Western North Carolina Railroad.

A called meeting of the stockholders of the Richmond and Danville Railroad Company was held in Richmond last Friday. The object of the meeting, as explained by President A. S. Buford, was to determine what action would be for the best interest of the company in regard to a further subscription to the capital stock of the Richmond and West Point Terminal Railway and Warehouse Company.

At the last annual meeting of the company the board was authorized at its discretion to make subscription to said company not exceeding five hundred thousand dollars, for the purpose of rendering such aid, as might be deemed necessary for the best interests of the company, to such unfinished lines of road connecting with the company's main lines as should require the same.

Under this authority Col. Buford, in his report submitted to the meeting to-day, says a subscription to the amount of \$500,000 has been made to the capital stock of the terminal company. This subscription, the President says, has been paid up and expended in the completion of the Western North Carolina Road, which is now so far advanced, he reports, as to secure within a few weeks the opening of the entire main line of that road between Salisbury, N. C. and Paint Rock, on the Tennessee line, a distance of 186 miles, where it makes connection with the East Tennessee, Virginia and Georgia Road.

At the same time a branch line from Asheville to Ducktown has been put under way, and sixteen or twenty miles of the same will be completed in a few weeks. Referring to the Virginia-Midland, President Buford, in his report, says it has been deemed of sufficient importance to the interests of the stockholders of the Richmond and Danville Road to make arrangements for the acquisition of a large part of the capital stock of the Virginia Midland.

This engagement involved, he says, the expenditure of a considerable sum of money, and its importance is considered by the board to be such as to demand their prompt attention; they recommend as to the best means of proceeding in this matter an increase of the subscription of the company to the capital stock of the Richmond and West Point Terminal Railway and Warehouse Company in the additional amount which it has the option to take, of one million ten thousand dollars, making thereby the entire subscription to that capital of one million five hundred and ten thousand dollars.

With the use of less than half of this company's general mortgage bonds now available for such purposes, and other assets and resources of the company conveniently applicable thereto, the subscription suggested can be paid for without inconvenience.

The association of the Midland Road by this means with the other properties renders the whole system complete and homogeneous through Virginia, the Carolinas and Georgia to the City of Atlanta. These recommendations were unanimously agreed to by the meeting. Among those present at the meeting was Mr. Wm. F. Clyde.

A Coin Two Feet Under Ground.

Mr. Robert Lee Cochrane, of this county, exhibited at this office yesterday, a curious coin which he found in a washed out ditch, about two feet below the surface, near Harrisburg, last summer. Upon one side were the words "Fur lieb und friede," a figure with a bow and arrow, and the letters formed into a word - whatever it may be - "L-e-t-o-n." On the other side could be deciphered the words "Alexander-Russia," and the single letter L. The coin was apparently of bronze.

An Exciting Runaway.

For one team of mules to impress the supporters of the four respective lamp posts, of the four respective corners, with the idea that they are all going to be run over at the same time, is to say the least, a distinguished feat. But such was the performance of the two which ran away on Independence Square yesterday afternoon. They not only scared everybody off the streets, but started another lonely looking rascal into a run. For a while both run-aways made things exceedingly lively, but both were stopped without serious injury to anybody or anything.

Pickford-Franklin.

Yesterday evening, at the residence of the bride's mother, in this city, Mr. W. E. Pickford, late of Raleigh but recently of Charlotte, was united in marriage by the Rev. Dr. E. H. Harding, of the Second Presbyterian church, to Miss Julia A. Franklin, daughter of the late J. B. Franklin. The ceremony was performed in the presence of a few friends. The happy pair were to have taken the first train to Raleigh, but the bride being somewhat unwell the journey was postponed for some days. The many friends of both the bride and groom extend their hearty congratulations and best wishes.

The Reorganization of the Gounod Club.

At the meeting of the Gounod Club for a reorganization, Monday night, the election of officers resulted as follows: A. W. Bacon, President; Mrs. Cornelia Tate, Vice President; Mrs. B. L. Dewey, Secretary and Stage Manager; Dr. A. Bidez, Musical Director; Mr. J. A. Solomons, Treasurer. An invitation was extended to the Arion Quartette Club, of Wilmington, to visit Charlotte at as early a day as possible. The club being the season under very auspicious circumstances. Not only does there seem to be a hearty interest in its affairs on the part of the officers and members, but the gratifying fact was reported by the Treasurer that the club was free from debt and had \$175 in cash. It is proposed by the club to present several entertainments during the winter.

A blessing to humanity is what Dr. Bull's cough syrup can well be termed, for it has done more good already than any other medicine.

An Entertainment by the Library Association.

A very attractive programme was presented at the meeting of the Library Association last night. Mr. W. J. Hall read in exceedingly humorous style Mark Twain's experience as an agricultural editor. Miss Carrie Carter read with correct emphasis and fine expression a poem, "Songs of Birds," and Miss Minnie Asbury concluded with her own longings embodied in an amusing essay, "Don't I Wish I was a Man." It was determined by the Association to hold a festival in the basement of the Tryon Street Methodist church to-morrow night. The ladies offered their services and guaranteed their whole exertions for a successful occasion. The particulars of arrangements for the festival will be published to-morrow.

The Money Forth-Coming, But Another Difficulty.

The citizens responded liberally, yesterday, to the appeal of the Hornets' Nest Riflemen for assistance in transporting the company to and from Yorktown. A great part of the amount required was subscribed in a short while, and yesterday evening the actual amount collected amounted to \$185, with several subscriptions outstanding. There is, however, still another difficulty in the way of a full representation of the company. Some of the merchants, it is said, decline to let those of their clerks, who are members of the company, off for the few days required. One can hardly believe that this is really so. There may be a good deal of growing on the part of the employers, but it has never yet been the case in the city that their refusal has prevented the proper representation of the city on any proper occasion, and these objections will, without doubt, disappear as the day of departure draws near. If they don't it will be a bigger "slam" on the merchants than a disappointment to the boys.

Our Troops at Yorktown.

A general order has just been issued from Adjutant General's office, forming the seventeen companies of infantry which will go to Yorktown, into one provisional brigade, to consist of two provisional battalions, to be known as the First and Second Yorktown Battalions. The brigade will be commanded by Gen. Basil C. Manly. Col. R. D. Hancock, and Maj. Halcott P. Jones will command the First Yorktown Battalion, and Col. Albert H. Worth and Lt.-Col. John W. Cotten the Second Yorktown Battalion.

The First Battalion will consist of the following companies: Raleigh Light Infantry, Goldsboro Rifles, Edgecombe Guards, Washington Light Infantry, Winston Light Infantry, Albemarle Guards, Durham Light Infantry, Guilford Grays and Rockingham Guards.

The Second Battalion will consist of the following companies: Fayetteville Independent Light Infantry, LaFayette Light Infantry, Wilmington Light Infantry, Duplin Rifles, Hornets' Nest Riflemen, Anson Veterans, Iredell Blues and Salisbury Rifles.

INDULGENT PARENTS.

Who allow their children to eat heartily of highly seasoned food, rich pies, cake, etc., will have to use Hop Filters to prevent indigestion, sleepless nights, sickness, pain, and death. No family is safe without them in the house.

BERNETT'S COCOAINE.

Unlike All Other Hair Dressings, It is the best for promoting the growth of and beautifying the hair, and rendering it dark and glossy. The Cocaine basis, in a liquid form, in a large proportion of deodorized Coconut Oil, prepared expressly for this purpose. No other compound possesses the peculiar properties which so exactly suit the various conditions of the human hair.

The superiority of Burnett's Favorite Extracts consists in their perfect purity and great strength.

DECLINE OF MAN.

Impotence of mind, limb, or vital function, nervous weakness, sexual debility, etc., cured by Wells' Health Renewer. \$1 at druggists. Depot: J. H. McAden, Charlotte, N. C.
