So cf. and 51 sizes, Hiscox & Co., Chamist, N. Y. ITEMS OF INTEREST,

In view of the growing scarcity of black walnut, black birch is largely taking its place, as well as that of cherry, which is also becoming very scarce. Birch has much the same color as cherry, and is just as easy to work as black walnut and as suitable for nearly all the purposes for which that wood is used. When properly stained it is nearly impossible to distinguish it from walnut, and it is susceptible of a beautiful polish equal to that of any wood used in the manufacture of furniture. Large quantities of it are imported from Canada, in some parts of which it is very plentiful and cheap, costing only about a dollar per hundred feet at the sawmills.

The only Western States that have held their own in wheat production are Kansas, Wisconsin, Kentucky and Nebraska. Illinois has suffered a loss of about 32,000,000 bushels. Indiana, 20,000,000; Iowa, 19,000,000; Michigan, 15,000,000; Minneseta, 8,000,000; Missouri, 10,000,000; Ohie, 13,000,000. It remains to be seen whether the estimated diminished product of cotton, along with that of grain, will have a cumulative effect on prices.

Colonel Robert G. Ingersoll is going with all his family to New Mexico, where he has become interested in some silver mines. He is quoted as saying that the Indians are so dangerous in that neighborhood that he and his family prefer that if one must run the risk all should do so, that they may live or distorather. die together.

Widowers will be in the ascendancy in Washington this season, as the Pres-ident is a widower, the new British Minister is also, and so is Mr. Allen, the Hawaiian Minister, now the dean of the diplomatic corps. There are also several widowers in each house of Congress. Among the Senatorial widowers are Anthony, David Davis, and Jones, of Florida. Senator Ferry is a bachelor.

Rossi is never idle, has an iron constitution and is never fatigued. All the costumes he wears are designed by himself, and his wardrobe is wonderously handsome. He has an excellent barrtone voice; he is rich and very gener-The balance sheet of the Post Office

ponding period of last year. A Newark girl has traded herself and a fortune of \$300,000 for the privilege of being called the wife of an Italian Count who wears one shirt three weeks without washing.

so shockingly profane the clergyman felt compelled to reprove him. It is reported that President Garfield made the request before he died that

President Arthur appoint Colonel A. F Rockwell quartermaster general of the

Frank Hudson, colored, was hanged at Dawson, Ga., Friday, for the mur-der of David Lee, Mrs. Lee and a colored girl. He admitted that the sentence was just and that his intention was robbery.

The commonwealth of Pennsylvania has entered suit in the Dauphin County court against the Standard Oil Company for the recovery of over \$3,000,000 alleged to be due in taxes and penalties.

From 1,500 to 3,000 employes are engaged in the mill-strike at Detroit, Michigan. Several companies of State militia have been ordered to the scene The suspension of Edward G. Keen and Jos. H. Kain, of Philadelphia, grain

brokers, is announced. Their combined liabilities will not exceed \$10,000. Edward Earle was executed Friday in the jail at Sageville, Hamilton county, N. Y., in the Adirendacks, for kill-

ing his wife in February last. A fire in San Francisco, Thursday, destroyed property worth nearly \$250,-000 and caused two deaths.

Illinois has 700,000 bushels of old corn in store. Winter wheat shows a decrease of 7,043,500 on the crop of 1880. Edison receives five medals from the electric exhibition.

Beargrass.

Everybody hereabouts knows what beargrass is. It gross luxuriantly on the coast and one rarely buys a bunch of fish strung together with anything else. Reference has been made to the fact that this grass is now being manually that here and rome. The Louise

abundant bloomer; long, tough, pointed fibrous leaves. This plant is omnipresent everywhere in the South, south of forty degrees north latitude. This plant is another item in the long list of the untold resources of the South. Its Abre is as strong as hemp or jute, and almost as indestructible as iron, except by the action of fire. Some of its ad-vantages may be briefly summed up: The plant grows more than one hundred years; loses less than one-tenth in cleaning; it is the strongest coarse fibre in the world; will not shrink when it gets wet in rope; yields largely; requires no cultivation after the third year; is worth ten to fifteen cents per pound when cleaned, and grows spontaneously everywhere south of thirty

one degrees." SEE BERE. You are sick; well, there is just one remedy that will cure you beyond possibility of doubt. If it's Liver or Kidney trouble, consumption, dyspepala, debility, Well's Health Renewer is your hope. \$1. Druggists. Depot, J. H. McAden, Charlotte, N. C.

ANOTHER CANDIDATE. By a large majority the people of the United States have declared their faith in Kidney Wort as a remedy for all the diseases of the kidneys and liver, some, however, have dislikes the trouble of preparing it from the dry form. Fer such a new candidate appears in the shape of Kidney Wert in Liquid Form. It is very concentrated, is cardy, taken and is equally afficient as the dry.

Try & Louisyille Post. The Diphtheria Plant.

After death from diphtheria the in-After death from diphtheria the internal organs are found to be choked up with myriads upon myriads of minute plants that have grown by eating up the little corpuscles of the blood and the tissues. The facts about this deadly plant, called micrococcus, were given by Dr. H. C. Wood before the Academy of Natural Sciences at its meeting this week.

Meeting this week.

Under the auspices of the National Board of Health Dr. Wood has been investigating diphtheria, for the purpose of discovering its cause. He found that animals inoculated with diphtheritic matter taken from the throats of Philadelphia patients in some cases died—not from diphtheria. but from consumption. This suggested a relationship between those com-plaints, until he found that any foreign substance—sand, splinters of wood and so on—causing inflammation and a per-

full of those minute plants, the micro-coccus. Rabbits inoculated with this Luddington matter in nearly all cases died, and invariably died of true diphtheria.

Under the microscope these plants are seen in the shape of balls imbedded in the white corpuscle, whose dissolu-tion can be watched and traced from

the appearance of holes throughout until nothing remains of it; and in its place is a mass of micrococci.

A drop of soup made sterile by long boiling is placed on a slip of glass, and with the point of a needle some of these minute plants are transferred to the minute plants are transferred to the drop. It is then placed in an incubator, and after a few days this drop of soup is seen to be full of these plants. A second generation is produced by taking another drop of soup and impreg-nating it with a needle whose point has been touched to the first drop. The difference between the ordinary or endemic diphtheria, that is always with us here in Philadelphia, and the Lud-Department for the quarter ending September 30th shows a deficiency of \$79,000, as against \$560,000 for the correstility of th from the West will go on just as vigor-ously at the tenth generation as at the

This minute plant, the micrococcus, is indigenous in the human mouth; it is found on the tongue in health, as well as on the furred tongue of disease; A weeping widower fell into his wife's grave during a funeral at Decatur, Ill., and as he climbed out his language was ulcerative and malignant diphheria one and the same plant in all. It is only when a terrible activity in reproduction is acquired by these plants that they usurp life. This activity may be acquired in the body from the exudations of an ordinary sore throat, or out of the body by miasmatic conditions.
It is the duty of Health Boards and

Mr. Tilden's new double house in Gramercy Park will probably not be finished before next spring. It will be one of the finest residences in New York.

NEWS NOTES.

At the Fayetteville, Onandaga counties a lection.

At the Fayetteville, Onandaga counties a lection.

It is the duty or meant a location individuals to prevent the contamination of the air with fungus growths, and thus avoid furnishing favorable conditions for the unlimited reproduction of the diphtheria plant. And in the light of this most recent knowledge, the frequent gargling of an ordinary sore throat may be the means of preventing the inert micrococci that live in the mouth from taking on that ive in the mouth from taking on that fearful vitality to which is ascribed death from diphtheria.

A Washington Romance. A Washington letter to the Providence Press says: "A lady of my acquaintance, a sister-in-law of Dr. Bliss, juite recently made, or rather acknowquite recently made, or rather acknow-ledged, a romantic marriage with a gentleman employed as a sub-door-keeper at the capitol, who had lost both feet in the Union army. She was a stenographer in the patent office, draw-ing a salary of \$1,200 a year. She lived frugally and held her place for years, to all appearance growing into the gentle, shadowy, self-respecting aninsterhood shadowy, self-respecting spinsterhood that so many lady clerks here prefer to a commonplace or ill-assorted marriage. A few months since the gentleman referred to fell ill, and to the surprise of her friends she went to his lodgings and took her place at his bedside as his nurse, acknowledging then that they had been married more than a year, but that she had concealed it rather than forfeit her government position. She forfeit her government position. She had been gradually laying money by to purchase the modest, semi-rural home of her maternal grand-parents in East Cleveland, which the remaining heirs had offered her on terms within the scope of her ability to comply with by rigid economy, and the denouement did not occur, fortunately, till the place was practically paid for. She then resigned her position, continued her duties as her position, continued her duties as nurse, and then took her matrimonial prize home to the little ancestral place she had secured, and we learn she is very happy in her retirement."

How Judge Davis May be Ousted. WASHINGTON, Oct. 14.—It is predicted that Judge Davis will before a great while have good reason to regret that his ambition led him to fall such an easy victim to the cajoleries of the Re-publican Senators. The next move from fact that this grass is now being manufactured into bags and rope. The Louisville Courier-Journal says of it:

"This beautiful, strong, clean fibre is produced from the plant known in this State as beargrass, and further South as the Spanish dagger. The family of yucca contains about a dozen varieties, all stout, strong-leaved plants, and has been used in Kentucky time out of mind for hanging meat while curing in the smoke houses. This family of plants is known as a beautiful and abundant bloomer; long, tough, pointed under such circumstances will not be so enviable as those of Mr. Bayard on yesterday.

Cheking Judas Iscariot.

Texas Siftings. Every year, at Christmas, the San Antonio Mexicans celebrate a kind of imitation of the "Passion Play," called "Pastores." The Virgin Mary, the Apostles, including Judas Iscariot, all appear and act their parts. On the last occasion of the play Judas was missing. one of the spectators of St. Peter, with

one of the spectators of St. Peter, with whom he was well acquainted.

"Judas be —," was the reply; "last year we had to choke him to make him give back the thirty pieces of silver that we gave him in the play, so this year we Apostles won't let him stick his nose inside of the circus tent."

"The profession ought to bear in mind that the Liebig Company prepare a genuine Extract of Whole Tickets, 22; Half Tickets, 31; 27 Tickets, Liebig Company prepare a genuine Extract of Whole Hazel, and in ordering the remedy be sets to designate the preparation desired; otherwise as worthless article may be obtained.

"The same firm also makes a most useful and convenient nutrient tonic, in the form of Coca Beef Tonic which has justly received the highest commendation. We have used both of these preparations with the most stitisfactory results.

Editorial in the Medical and Surgical Times. of the second street with the most stitisfactory results.

"Still Harping on My Daughter."

Gov. Vance moved his seat and pushed up another "bean," and doubtless thought he would make a "flush" by appealing to the sympathies of the people of North Carolina in behalf of W. J. Best, the "railroad humbug and adventurer." The people love Vance, and would follow him as in days of yore, but when Best & Co is tacked yore, but when Best & Co. is tacked on they won't "ante" worth a cent.

The Newberne News presumes to characterize those newspapers which are disposed to treat the Richmond and Danville Railroad Company with even common fairness, as Col. Andrews' organ." The News is legging, tooth and nail, for Mr. Wm. J. Best, as against the Richmond and Danville syndicate, and the consistency of its editor's present stand and his title to characterize his betters as organ-grinders, readily appear when it is remembered, that he so on—causing inflammation and a permanent sore, produced consumption.

An opportunity was furnished for more important experiments on the occurrence of a diphtheria epidemic in Luddington, a town on the shore of Lake Michigan. Portions of diphtheritic matter, false membrane, the kidneys and other internal organs from cases of malignant diphtheria were obtained from Luddington, and on microscopic examination were found to be full of those minute plants, the microscopic of the Newberne News esponses of Mr. Best and best to characterize his betters as organ-grinders, readily appear when it is remembered that he met Mr. Best on the borders of the North Carolina eighteen months ago, with epithets; and has, first and last, heaped more obliquy upon him, perhaps, than any other person living. The term "brazen effrontery" was never understood in North Carolina until the editor of the Newberne News esponsions. poused the cause of Mr. Best and began to hurl low insinuations toward those with whom he was wont to re-monstrate because they would not de-nounce Best as he did.

We see some of our exchanges are pitching into Gov. Vance for his war on the Richmend and Danville monopoly. Gov. Vance has always been with and for the people of North Carolina, and no one at all cognizant of the facts but must know that the monopoly that controls the roads in our State has discriminated against North Carolina towns, and if Gov. Vance can secure a fair and reasonable adjustment of freight rates he will have done the State a service as great as any he has ever rendered, and one which will not be forgotten.

HALF OF THE CAPITAL IN THE LOUISIANA STATE LOTTERY.

After the last drawing of the Louisiana State Lottery it was reported that Mr. John Conners, an engineer on the L. & N. road, had drawn half of the capital prize—\$15,000. "I understand, Mr. Conners," said a reporter, "that you held half of ticket No. 43,713, the capital prize in the Louisiana State Lottery." "Yes, sir. I did. On Wednesday before last (the 7th inst.) I bought three half tickets of the agent here." "Did you have any trouble or delay in getting your money?" "Not a bit. On my return to Memphis I went to the Bank of Commerce, which collected the money for me. I got every cent of it." Mr. Conners is a fine specimen of the American mechanic, broadshouldered, well-made and intelligent. There is no doubt but that he will put his winnings to good no doubt but that he will put his winnings to good use. The next drawing is on November 8th.—
Memphis Avalanche, September 20th.

A CLEEGYMAN'S OPINION—Having had an opportunity to test the excellent qualities of Dr. Bull's cough syrup, I hesitate not to say it is the best remdey I have ever used in my family.—Rev. Wm. Chapman, Pastor M. E. Church, Georgetown, D. C.

Lotteries.

CLASS L, AT NEW ORLEANS. Tuesday, November 8th, 1881-188th Monthly Louisiana State Lottery Company.

Incorporated in 1868 for 25 years by the Legislature for Educational and Charitable purposes—with a capital of \$1,000,000—to which a reserve By an overwhelming popular vote its franchise was made a part of the present State Constitution adopted December 2d, A. D. 1879.

Its GRAND SINGLE NUMBER Drawings will take place monthly. take place monthly.
