> As to the discriminating in freight and fares, we as a people know but lit-tle; we have at least to some extent attributed the difference in prices of our products in neighboring towns to the greed of one and the liberality of the other, the difference in many cases often sextuples the difference in freight between two given points; for instance Concord merchants gave us from 25 to 35 cents more a bushel for our corn this summer than Salisbury merchants would (while the freight is only about 4 to 5 cents per bushel, I understand, be-Railroad, takes a load of flour to Newton, sells to Mr. A. on Monday at \$3.50 per bag, goes home same day and next day loads up another load and goes to Charlotte, gets there Wednesday and sells out at once for \$4, while the climate, the soil and the seasons of Pennsylvania have proved to be perfectly adapted to the culture of cotton, and announce that they will plant 300 acres in cotton next season. The average yield they look for is a half bale to the acre—a much larger wield than our Southern lands average. gets his money, or its equivalent in merchandise, and gets back home within three days. In about three or four weeks he is in Newton and tells Mr. A. that he got 50 cents more for the flour taken to Charlotte than he gave him and wants to know why the difference a crop in Pennsylvania is certainly a and wants to know why the difference of so much, as the fireight is not ½ of the difference, when Mr. A. tells him: I sent the flour bought of you the next day by rail to Charlotte to my factor there and here is the returns I have just got this morning. I got 10 cents more per sack there than you did because my factor sold it to customers, but here is the expense items of freight, drayage, insurance, commission, &c., bringing it down to nearly what I gave you for it, after waiting three or four weeks for the money. (I am thus particular to do after waiting three or four weeks for the money. (I am thus particular to do justice to the railroad, the local merchant and the commission merchant.) Indeed we are truly glad that we have as many railroads as we have, and earnestly hope that a great many more will be half within a few years at most. be built within a few years at most. Those in-the far west are extremely anxious about the Western N. C. The People Want Roads, but Bon't Want Them Managed by Politi-

By request I will give a few thoughts of the general producing and laboring class of the people in regard to railroads, their construction, and managers and politicians. Concerning the war that has been going on in the papers for some time past, they do not take much stock in it, but are almost unanimous in their prayers that the (great) mous in their prayers that the (great) Western North Carolina Railroad, about which so much is being said and writ-ten, may never again fall into the hands of politicians, and thereby heap a heavy burden of taxes on us again, such as we have had for twenty-three or twen-ty-four years past. We have had a lit-tle peace for the last twelve or eighteen months and wish it to continue. We hoped and believed the present managers were the proper owners, since Mr. Best failed and turned it over to them, as we thought, and especially, as they are said to have been making almost superhuman efforts for the last six or eight months to get it completed in as short a time as possible; but that they could not complete it in the time Mr. Best promised, is not thought to be their fault, as much time was lost before they took charge, and, therefore, we think that they should be allowed a little chance and see if they will push the Ducktown branch to completion. the Ducktown branch to completion within the time stipulated, and we do hope that no further hindrances will in litigation in our courts, and we know they will render unto either party full justice if that is what is wanting, and we as a people are quite willing to abide their ruling. What we want most of all is for capitalists (we care not who they are or where they come from) to build us railroads all over our State—crossing, intersecting, bi-secting, and every other secting, un-til all will live within bearing of the running of trains and screaming of the whistle also; and to mine for our precious ores and jewels and build factories for manufacturing all kinds of our

BURNETT'S COCOAINE, Unlike All Other Hair Pressings,

Is the best for promoting the growth of and beautifying the hair, and rendering it dark and glossy. The Cocoaine holds, in a liquid form, a large proportion of deodorized Cocoanut Oil, prepared expressly for this purpose. No other compound possesses the peculiar properties which so exactly suit the various conditions of the human hair. The superiority of Burnett's Flavoring Extracts consists in their perfect purity and great strength.

MOTHERS DON'T KNOW How many children are gunished for being uncouth, wiful, and indifferent to instructions or rewards, simply because they are out of health! The Stomach.

New Haven Register. The stomach is the best friend of man, but he uses it as if it was his worst

It is supposed to hold about three pints, but if a man can't put four quarts in it he feels disappointed and "hungry."

When a man gets hold of anything he don't know what to do with he puts it

in his stomach and takes all the risks.

And he never learns any better, though he suffers the torments of the unblest ever after. The track was not repaired in time for the morning regular passenger train from Washington, aboard of which was Governor Hoyt, of Pennsylvania. Governor Hoyt arrived in the afternoon accompanied by Gen. Latta, en route to Atlanta, having been detained 9 hours by the accident at Rockfish deport. Atlanta, having been detained 9 hours | will not assimilate with the human sysby the accident at Rockfish depot. He tem any easier than leathery flap jacks or lobster salad and milk.

It is erroneous to suppose that when the stomach is packed with solid food of seventeen different varieties it is capable of holding several quarts of different sorts of liquid. It will fail to make a comfortable feeling swill tub of itself.

"The older a stomach grows the tougher it is," is an error. A ten-year old stomach will get away with green apples and peanuts, shells and all, while a forty years old stomach will simply

The first thing a man does when his stomach feels bad is to put some medi-cine in it to make it feel worse. He is when it will possibly feel better. The more medicine a man puts into his stomach the more that organ seems to crave, and the more money the pat-
