M. M. B. Goodwin, an editor in Charden. Ohlo, says he was not expected to live, being bloated beyond belief, but Kidney-Wort cured him.

Anna L. Jarnett of South Salem N. Y., says that seven years suffering from kidney troubles and other complications was cuited by the use of Kidney-Wort.

John B. Lawrence of Jackson, Tenn., suffered for years from liver and kidney troubles and after taking "barrels of other modicines," Kidney-Wort made him well.

Michael Goto of Montcomery Conter.

Michael Goto of Montgomery Center, Vt., suffered eightyears with kidney difficulty and was unable to work. Kidney-Wort made him "well as ever."

THE GENUINE has acquired a reputation greater than extant as

CHEAPEST, PUREST medicine in the world.

It acts with extraordinary power and efficacy on the Liver—the largest organ of the body, called, from its importance, the House-keeper of our Health. When the Liver is torpid, the bowels are singgish and constipated; the food lies in the stomach indigested and poisoning the blood. Frequent headaches, a Teeling of lassitude, despondency, and nervousness, indicate how the whole system is derayed. To prevent a more sarding system is deranged. To prevent a more serious

By the assassin himself in the draft of this plea:

If the court please, I wish to say I have been terribly villified by the press, and has made some persons bitter and impulsive against me. On October 6th the New York Herald published seven columns from my autobiography, which I expect to issue soon in a book. Aside from the impertinent statements that I am a creature of the greatest vanity and that I "crave notoriety," which are absolutely false, and similar unkind statements, I am indebted to the reporter and to the Herald for giving me so fair a hearing. [It is a fair hearing because they have published mostly my own words, and have not twisted my words against me. It is the first fair hearing I have had in the case.]

This maipractice and the president's death in New Jersey are special proceedings and I am bound to avail myself of these on my trial [for the Lord's] in justice to the Lord and myself. I undertake to say that the Lord is managing, my case with consumate is managing my case with consumate ability, and that he had a special object in allowing the President to die in New Jersey. His management of this case is worthy of him as the Deity, and I have entire confidence in his disposition to protect me and send me forth to the world a free and vindicated man. "He uttered his voice," says the Psalmist, "and the earth melted." This is the God I served when I sought to remove the president, and He is bound to take care of me. ["He uttered His voice and the earth melted." He, my God.] The Lord and the people do not seem to agree in this case. The people consider the president's removal an unbearable outrage and me a dastardly assassin, and they prayed the Lord to spare the President, and for nearly three [hath He] months the [Master] Lord kept the president at the point of death and then allowed him to depart thereby confirm-

ing my act. The mere fact of the president's death is nothing. All men have died, and all row, a mechanic in the employ of W. men will die. General Burnside died T. Abutment-Part of the Passengers And Crew scalded and Drowned, NEW YORK, Oct. 28 .- A Herald special from Davenport, Iowa, furnishes the following: "The Steamer Gilchrist left this point last night in apparently good trim and condition, bound for all up the river, loaded with a large and valuable cargo of miscellaneous freight, and carrying in her cabins a full list of passengers. When the steamer had passed under the Governseason. The fields are reported to be ment bridge spanning the Mississippi ull of birds.

As the Gilchrist came of stone she careened causing the weights on the safety valves of the steam-chest to break from their fastenings and slide off. The valves no longer holding a check on the steam in the boilers, it poured out in huge volumes and enveloped the helpless crew and passengers, who were wildly endeavoring the secure life-preservers in the tered by the frenzied victims being distinctly audible to the large crowd of citizens, who soon thronged the banks, but they could extend no assistance, as the steamer was hurled past their eyes by the turbulent river. All of the small boats and skiffs usually numerous on the river, had been drawn ashore and laid away for the winter and to escape the floods which have prevailed all along the course of the Mississippi river for nearly a fortnight, so there was no means of speedily reaching the sinking steamer. The other steamers lying at the bank immediately went to her assistance and are actively at work searching for the survivors. I learn there were on board twenty-three passengers, four of whom were females, and a crew of fifteen. Only eight persons have been saved so far, and of these some are very badly scalded Three of the lady passengers are known to have been killed or scalded to death. The city is in great excitement and

everything possible is being done to re-lieve the unfortunates. There is but little hope that any more can be saved To do away with the tedium of the always weighty sayings of "Our Candidate," "Our Next President" and "Our Fellow-Citizen," it is a pleasure for us to present herewith the opinion of one of Cleveland's most popular druggists, Mr. E. A. Schellentrager, 717 St. Clair street. The gentleman writes: I know of ne remedy which has given more universal satisfaction than the Hamburg Drops. I have not heard of a case where they failed to behefit. The very large and daily growing demand for this Great German Blood Purifier, is assurce of high gratification.

YELLOW FEVER PREVENTED.

The engineers of the Central Railroad of Georgia say: "Though exposed to the worst miasmatic influences, going in and coming out of Savannah at different hours of the night, and also in spending entire nights in the city during the prevalence of the yellow taver epidemic of 1874, with but the single exception of one of us (who was taken sick, but speedily recovered) we continued in our usual good health—a circumstance we can account for in no other way but by the effects, under Providence, of the habitual and continued use of Simmons Liver Regulator while we were exposed to this malaria."
