Medical.

Rheumatism

Neuralgia, Sprains, Pain in the Back and Side.

There is nothing more painful than these diseases; but the pain can be removed and the disease cured by use of Perry Davis' Pain Killer.

Pain Killer has been in constant use for forty years, and the universal testimony from all parts of the world is, it never fails.

Edgar Cady, Owatonna, Minn., says: About a year since my wife became subject to Rheumatism.

Charles Powell writes from the Soldiers' Home, London: I have been afflicted three years with neuralgia and violent spasms of the stomach.

G. E. Walworth, Saco, Me., writes: I experienced immediate relief from pain in the leg and foot by the use of Perry Davis' Pain Killer.

Mr. H. J. Gilbert, Somerset, Pa., writes: I have used Perry Davis' Pain Killer for thirty years, and have never known it fail.

All druggists keep PAIN KILLER. Its price is so low that it is within the reach of all.

PERRY DAVIS & SON, Proprietors, LOWELL, MASS., U. S. A.

THE EXTRA Session at Louisiana.

NEW ORLEANS, Nov. 4.—A dispatch to the Democrat from Baton Rouge says the State house commission met here to-day and decided that the new capital will not be ready for occupancy by the first Monday in December.

The Thermometer Hunting Zoro in Pennsylvania.

MAUCH CHUNG, PA., Nov. 4.—There is an inch of snow in the mountains this morning, and the thermometer was down to 12 degrees above zero.

Work on the Midland.

The work of grading on the Midland North Carolina Road has been accomplished to a point some seven miles from this city, and within about two miles of the Johnston county line.

Work on the Midland.

BY TELEGRAPH.

TEXAS ITEMS.

Of the Usual Nature, Varied by the Trial of the Colored Lieutenant Flipper.

GALVESTON, Nov. 4.—A dispatch to the News from Henrietta says, the body of an unknown man was found in a gulch, with three bullet holes in him, and his pockets turned inside out.

A dispatch from Fort Davis says that before proceeding to arraign Lt. Flipper on the original charges yesterday the Judge Advocate stated that he would not proper to present the additional charges which have been preferred against him since the original sets were formulated, unless the prisoner agreed voluntarily that the two sets might be continued, and tried at the same time by the original court as now constituted.

Capt. Barlow, counsel for defendant, asked if the Judge Advocate would agree that the court as now constituted should try both charges in case the defendant preferred to be tried on the charges separately. To which he replied he was not authorized to make such agreement, but that if a second trial were held at this time the prisoner would be held until called upon to act, so far as he was concerned. The court then adjourned until to-day to enable the accused to decide the course he would pursue.

A dispatch from Paris, Texas, reports a heavy frost Thursday night that killed the top crop cotton.

A special to the News from Texarkana, Ark., says George Ford, who was sentenced to be hanged on November 11th, was released on the 21st inst., by the judge on a writ of coram nobis and will be tried the next term by a special venire, as to his insanity at the time of the murder.

IRISH AFFAIRS.

Discussing the Land League, &c.

MAIDSTONE, Nov. 4.—Trial of Arthur Lefoy for the murder of T. J. Gold on the Brighton Railway express train in June has commenced. The prisoner appears calm and collected. The Attorney-General opened the case on behalf of the Crown. The prisoner pleaded not guilty. The court room is densely crowded.

The Star Route Cases.

WASHINGTON, D. C., Nov. 4.—The argument on the motion to set aside the criminal information in the Star route cases was resumed this morning. George Bliss, special counsel, addressed the Court in behalf of the government. He gave as a reason why information was filed that the grand jury had been adjourned until October 3d, and what were regarded as some of the most important and effective overt acts had taken place on the first of October, and it was likely therefore that unless proceedings were begun in some form, the plea of statute of limitations would have been set up by the defendants. Bliss argued at length against the motion to quash the indictment.

The Land Act in Ireland.

LONDON, Nov. 4.—The Dublin correspondent of the Daily News, at Armagh, discussing the subject of fears being entertained in some quarters in regard to the block in the working of the land act, says it is obviously absurd to suppose that because so many thousands of notices have been served they will, or even a proportion of them, ever come to trial.

An Arkansas Tragedy.

HOT SPRINGS, Ark., Nov. 4.—Col. G. M. Murphy shot and wounded George Savage yesterday. Murphy was a lawyer engaged in a recent prosecution of Savage for murder. Savage was understood to have threatened Murphy's life, which led to the shooting.

The Management of the Cincinnati, New Orleans & Texas Pacific, which operates the Cincinnati road is heartily endorsed by the Chattanooga Times, which says that its spirit is proving as conservative as its energy is admirable.

The Bristol and North Carolina Narrow Gauge Railway Company.

We are enabled to furnish our readers with some very encouraging news with regard to this important company.

During the whole summer the people of Watauga and of Caldwell have watched anxiously the progress of the surveying party under Capt. Dwight which has been seeking a grade across the Blue Ridge for the "Imboden road."

Now the light seems to shine. Major Harper received a letter last week from Capt. Dwight stating that the survey was perfectly satisfactory, and that it proved conclusively that a road could be built across the mountains along the proposed route.

"Subscription books were opened and a sufficient stock having been subscribed, a meeting of the stockholders was held at the office of the mayor of Statesboro, O. S., on the 25th inst., for the permanent organization and the following board of directors elected for one year: Joseph R. Anderson, A. D. Reynolds, J. D. Imboden, George W. Gibson and H. C. Smith.

A meeting of the board of directors, held October 25th, elected Gen. J. D. Imboden as president for the ensuing year. Full power was conferred upon the board of directors to take the necessary steps and to execute the same for the construction of the company's railroad and for its equipment and operation.

The president is entirely confident that he can consummate negotiations, within 90 days, that will insure rapid work on the road during the coming year. He has lately returned from an extensive examination of the country and finds that Carter and Johnson counties, Tennessee, and Mitchell and Watauga, N. C., are equally well adapted to the road, to the Lake Superior Iron and Copper District. The mineral wealth between Bristol, Tenn., and Lenoir, N. C., a distance of 113 miles by the railroad survey, is so vast that capital is eager for its development. Wilmington is now certainly settled as the Atlantic seaport to which the road will be built.

Kill the Dogs.

Monroe Equizer. Kill the dogs and save the sheep. We are informed that for several weeks some worthless curs have been committing outrageous depredations among the flocks of sheep owned by our farmers in and near town.

One gentleman ventures the assertion that at least two hundred sheep have been killed by dogs, in this vicinity in the last few months. Mr. John Shute has lost a considerable number. Out of the 47 Mr. W. Helms saved on July 11, and becoming disgusted with the idea of trying to raise sheep, while so many worthless curs are running loose, has butchered those saved. Several other owners did not learn, have likewise suffered.

We cannot conceive why the farmers all over the State do not raise up solidly and say that matters shall not continue this way. That one of our most prominent and industrious legislators, who is now certainly settled as the Atlantic seaport to which the road will be built.

ERLANGER ENTERPRISE.

Didn't Like Soldiering.

Durham Plant. On the 16th of last June, R. A. Robertson, a son of Dr. Robertson, of Greensboro, under some strange hallucination, joined the United States Army.

He enlisted for five years as a private, to be paid \$12.50 per month. On the 27th of July, a little over a month after enlisting, he became tired of the service and deserted. On Friday last Corporal E. J. Wall came into town and left in the direction of Robertson's home, where he found the deserter, arresting him and bringing him to town, where he was placed in the guard house. On Saturday we called on young Robertson and found him writing a letter to his wife. After he had gotten through we asked him if he had any explanation to make for the "Zanz" he would give him the benefit of it. His reply was that "he wanted no d— explanations," whereupon we left fully convinced that he was given over to hardness of heart and reprobation of mind. He is a bad boy. The lightest punishment for desertion is two years in the penitentiary. He left with shackles on.

BED-BUGS, ROACHES, Fleas, mites, ants, flies, vermin, mosquitoes, lice, &c., chased out by "Rough on Bed-Bugs," boxes at drugists.

It is worth remembering that nobody enjoys the most surroundings in his bad health. There are millions of people about-to-day with one foot in the grave, when a bottle of Dr. Williams' Pink Pills would do them more good than all the doctors and medicines they have ever tried. See adv.

AS THOUSANDS DO TESTIFY, So does Thomas Roberts, Wholesale Grocer, Philadelphia, who says: "Barnett's Cocoalets allays all irritation of the scalp, and will most effectively remove dandruff and prevent the hair from falling out."

BURNETT'S FLAVORING EXTRACTS.—The superiority of these extracts in their perfect purity and great strength. They are warranted free from the poisonous oils and acids which enter the composition of many factitious fruit flavors.

Patent Medicines.
