Medical. Rheumatism.

Neuralgia, Sprains, Pain in the Back and Side.

There is nothing more painful than these diseases; but the pain can be removed and the disease cured by use of Perry Davis' Pain Killer.

This remedy is not a cheap Benzoin or Petroleum product that must be kept away from fire or heat to avoid danger of explosion, nor is it an untried experiment that will do more harm than good.

Pain Killer has been in constant use for forty years, and the universal testimony from all parts of the world is, it never fails. It not only effects a permanent cure, but it relieves pain almost instantaneously.

Being a purely vegetable remedy, it is safe in the hands of the most inexperienced.

The record of cures by the use of PAIN KILLER would fill volumes. The following extracts from letters received show what those who have tried it think:

Edgar Gady, Owatonna, Minn., says: About a year since my wife became subject to severe suffering from rheumatism. Our friends advised her to use Perry Davis' Pain Killer.

Charles Powell writes from the Sailors' Home, London: I have suffered three years with neuralgia and violent pains of the stomach. My doctor at Westchester Hospital gave me one case in which I immediately felt relief. I have since used it and am now able to follow my usual occupation.

G. E. W. Worth, Saco, Me., writes: I experienced immediate relief from pain in the hands of the most inexperienced.

E. York says: I have suffered for thirty years with rheumatism and neuralgia. I have used Perry Davis' Pain Killer and have received great benefit.

Baron Seaman says: I have suffered for thirty years with rheumatism and neuralgia. I have used Perry Davis' Pain Killer and have received great benefit.

Mr. Gilbert, Somerset, Pa., writes: I have suffered for thirty years with rheumatism and neuralgia. I have used Perry Davis' Pain Killer and have received great benefit.

All druggists keep PAIN KILLER. Its price is so low that it is within the reach of all, and it will save many times its cost in doctors' bills. PERRY DAVIS & SON, Proprietors, Lowell, Mass., U.S.A.

CABINET SPECULATIONS. Settle of North Carolina - Sherman and the Contingent Fund.

Washington, Nov. 8. - The numerous State elections to occur this week have had the effect to almost deplete the departments. The Republican campaign committee has made as much effort to get voters home as they did last year when the Presidential election was at hand. Many clerks avail themselves of the very liberal amount of time granted to voters to reach their homes and return to make pleasure trips, and it is shrewdly calculated that one-third of those who leave here with the nominal purpose of going home to vote spend the night in pursuit of their own personal convenience and enjoyment. Many of them indeed have no right to vote in the States to which they are accredited. No particular interest is felt here in any of the State elections, except the one in Pennsylvania and Virginia. In the two former States it is considered that Democratic success is possible on account of Republican disaffection, but this is conceded more by Republicans than claimed by Democrats. As to Virginia, both sides effect with equal confidence to scent victory in the air, and one or the other will be very much disappointed when the returns come in.

THE OLD CABINET AND THE NEW. The contrast between the conduct of Attorney General Finch and Secretary Hunt is so remarkable as to excite widespread comment. For reasons connected with the star route and other matters, which have been thoroughly explained, the President has been very anxious to have Mr. MacVeagh remain in the cabinet for a time at least. But Mr. MacVeagh, while the dead body of Gen. Garfield was lying at Elkhorn, said he did not intend to remain in the cabinet after the late President was finally put at rest. Since that time he has not seen President Arthur more than two or three times in fact has kept out of his way, and has refused to perform any of the functions of his office. On the other hand, Secretary Hunt, whom the President is more anxious to get rid of than any other member in the cabinet, sticks to him like a leech, follows him wherever he goes, and, as remarked to-day by another member of the cabinet, does everything else but go down on his knees and beg to be kept in.

Approve of the cabinet, it is understood that the President's appointments will receive some attention. Several Republicans of prominence and influence in various sections met the President at his residence to-day to discuss the subject. If the President concludes to appoint a Southern man, it is thought here and in New York that he could not hit upon a more acceptable man than Judge Settle, of North Carolina, who stands exceptionally high in the eyes of both parties all over the South. Friends of Judge Settle say, however, that it would be a very serious sacrifice for him to surrender the life position which he has as a United States judge to a cabinet appointment. But it is not uncommon for persons to prefer temporary to permanent positions. Judge Davis left his life position on the bench of the Supreme court to take a six-year term in the Senate. Secretary Hunt gave up a similar place on the bench of the Court of Claims to take a cabinet position, and Solicitor-General Phillips positively declined to exchange his pleasant position for a Court of Claims judgeship proffered him by Gen. Garfield. It is thought that the President on his return to Washington will have his cabinet slate definitely arranged, although it may not be then announced. But the President is giving more of his thoughts to the New York election than to any other subject just now, and there is no doubt that he is sincerely desirous of Republican success, notwithstanding the fact that to the contrary, and notwithstanding that what is known as the "half-breed" element of his party, which is in control of the organization, has "turned down" as the saying is, all those who are personally friendly to him and that element of the party with which he has been associated.

THE CONTINGENT FUND OF THE TREASURY. A Sunday paper here of Republican proclivities prints to-day what is alleged to be some of the testimony in the recent investigation into the expenditure of the Treasury Department contingent fund, &c. This testimony is to the effect that work done on the new residence of Mr. Sherman was paid for with department funds at the time he was Secretary. When the Senate, at the instance of Mr. Sherman, called for the report of this investigation, suspicion was aroused because of his opposition to the motion to have the testimony accompany the report. If the testimony, which is published to-day, is genuine, the reason for Mr. Sherman's opposition is perhaps explained. At any rate the ex-Secretary is put in a position where personal explanation will be in order. One thing is certain, that sooner or later all the facts in connection with the expenditure of the contingent fund of the department must come out.

AS THOUSANDS DO TESTIFY. So does Thomas Roberts, Wholesale Grocer, Philadelphia, who says: "Bennett's Ointment affords relief to the scalp, and will most effectively remove dandruff and prevent the hair from falling out."

FROM WASHINGTON. The Star Route Case - Further Postponement of Guiteau's Case Reversed.

WASHINGTON, Nov. 9. - In the star route case to-day, Mr. Brewster addressed the Court in defence of the form of criminal information.

In Guiteau's case the court refused to postpone the time fixed for the commencement of the trial. He also refused to issue an order for the delivery of Guiteau's counsel and the papers now held by the district attorney, and said he thought amicable arrangement might be made by which the counsel could have access to the papers.

About 400 milkmen were required to stand in line at 3 o'clock on Saturday morning in front of the Erie Railway depot, Jersey City, while the State inspector of milk and a detective force examined their cans. About two thousand gallons of milk was dumped into the street, and five milkmen, all of New York, were arrested and taken before Justice Davis, who fined them \$50 each.

Guiteau, the assassin, has written a letter to President Arthur, asking, "Will God place him in such a high position, that he will subscribe for the benefit of the instrument used to place him there." He also sent a communication to James Gordon Bennett, calling his attention to a suit for \$50,000, the Herald having, in 1874, published that Guiteau had defrauded New York parties of collections he had made for them, and suggests that, inasmuch as he had abandoned the suit, \$10,000 would be acceptable. In concluding this epistle Guiteau says that if Mr. Bennett does not wish his name to appear the cash would be gratefully received.
