THE GENUINE CHEAPEST, PUREST

It acts with extraordinary power and efficacy on the Liver—the largest organ of the body, called, from its importance, the House-keeper of our Health. When the Liver is torpid, the bowels are sluggish and constipated; the food lies in the stomach indigested and poisoning the blood. Frequent headaches, a feeling of lassitude, despondency, and nervousness, indicate how the whole system is deranged. To prevent a more serious condition, at once

Take SIMMONS LIVER REGULATOR. The test of time and the experience of thousands have proven it the best, safest and speedlest remedy for all diseases of the Liver, Stomach and Spiece. As a remedy in

MALARIOUS FEVERS, IT HAS NO EQUAL.

We could fill a good-sized volume with such like stinguished testimonials as the following: I have used Simmons Liver Regulator for constipation of my bowels, caused by a temporary decapement of the liver, for the last three or four rears, and always when used according to the directions with decided benefit.

HIRAM WARNER,
Late Chief Justice of Georgia.

I occasionally use, when my condition requires it, Dr. Simmons Liver Regulator, with good effect. ALEX. H. STEPHENS.

THE BALTIMORE EPISCOPAL METHODIST says: "Simmons Liver Regulator is acknowleded to have no equal as a liver medicine, containing those Scattlern roots and herbs which an all wise Providence has placed in countries where liver diseases prevail."

The Charlotte Observer.

SATURDAY, NOV. 12, 1881. STATE NEWS,

Raleigh News-Observer: We regret to learn of the death of Mr. D. W. Spivey, a highly respected citizen of Franklin county, who departed this life at Youngsville on Tuesday evening. He was a brother-in-law of our townsman, Mr. Jos. P. Gulley, and at one time represented his county in the Legislature.

Shelby Aurora: The citizens of several sections of this county are petition-ing for neighborhood elections on the Stock Law question.

There is a probability of some parties in this county getting into trouble for tearing down and mutilating advertise-ments. It is a penitentiary offense. A wooden hand car was captured in the Rock Cut, two miles East of Shel-by, on the C. C. Railroad, one night last week. It was in the possession of two men whose names the section master was unable to learn. We have not seen this new machine, but we learn that it was evidently built for carrying heavy loads, and, although it is an entirely wooden structure, its speed is far shead of an entirely hand on a religious hand on a religious hand on a religious hand on the structure. of an ordinary hand car, olt is now in the possession of the railroad agent at

Salisbury Examiner: We are informed by Mr. A. J. Mock that Capt. Bob. Bost, of Newton, will make this year one thousand bushels of corn on twenty acres of upland. Mr. Mock brought a sample of the corn to this place which he says is a fair average, of the entire crop. It is the finest we have ever seen. Mr. Bost brought the land up to its present standard of production by pea crops which were plowed under green.

Monroe Empress: A mad dog, which was said to have been followed all the way from Starly county, was killed in town on last Friday. It bit one dog while in town, and we do not know how many on the route, but probably several. Mad dogs are becoming so common it will be well for everybody to be on the lookout for them.

Monroe Enquirer: On last Saturday night a difficulty occurred near Shileh church between J. M. Richardson and his son-in-law, Frank Belk, and C. C. Belk, a brother of the latter, during which Richardson was badly beaten up about the face and had a rib broken. Dr. Montgomery, his physician, thinks a bottle was used as a weapon, as there were several gashes on his face. C. C. Belk received a stab with a pocketknife just over the heart, which preduced a serious, but not necessarily dangerous, wound.

MINING INTELLIGENCE.

Salisbury Watchman Capt. J. A. Ramsay, civil engineer, tells that in the work now progressing on the Paint Rock branch of the Western North Carolina Railroad, that they have cut through several veins of quartz, which carry gold. This point being the cliff in Mountain Island.

THE ALLEN ALIAS LAYLOR—Situated near Thomasville, is progressing—sinking a new shaft. They are down in the deepest shaft 104 feet, and in No. 2, 28 feet. They have pumps, engines and boilers, and three chillian mills.

There is a suit pending which will settle the name. One party call it the Allen and the other the Laylor. We cannot take sides, therefore style it as above.

BEAVER DAM GOLD MINING CO.— The last of their machinery has arrived and they will commence running the first week in November. Mrs. Garfield will retain the interest held by her husband in this mine, and should operations at the mine prove as now anticipated she will visit it this winter. 20 hands are at work; engine houses com-pleted and now building dwelling

KLAN MINE.—Mr. J. J. Newman has just shown us a map of the above named mine, in this county. The property lies in the gold regions and from the description must be very rich. He

A WASHINGTON SCANDAL.

timeny of a Tressury Employe.

WASHINGTON, Nov. 8.—The investi-gation of the Evans-Hinds scandal in the Sixth Auditor's office, some details of which have been published; was taken up at the Treasury Department to day. The high connection of Miss Hinds and the hitherto respectable character of Major Edward of Evans bave made the examination of a firivate nature. It is known however that John E. Reeside, a Treasury employe, testified under oath that money was paid Major Evans for furnishing out-side attorneys a list of balances due postmasters, upon which list claims were filed against the government. Major Manton a claim agent, paid the money. It is claimed that his list of balances is in the handwriting of Evans and was gotten up with the understanding that the attorney fees should be paid to Manton and that Evans was to have one-half. In the woman scrape J. J. Boyd testified as has been already reported relative to the use of Evans. room. In addition it was stated that on last Thursday when Miss Hindscame to work every lady in the room got up, put on her things and went home. They refused to remain in the same room with her. It is also in evidence that Tyner took his sister-in-law to Europe, where they were absent two or three months. Her name was borne on the rolls and she received pay all the time, the same as those who worked The examination of the bank clerks and others will be made to-morrow.

Washington Notes.

Washington, Nov. 9.—A number of persons holding lucrative federal positions in the South have turned up here in a condition of great uneasiness. These gentlemen were prominent in working against Gep. Grant in the elec-tion of delegates for the Chicago con-vention last year and in favor of Sherman delegations. Several of them were members of the convention and fought bitterly to the last against Gen. Grant. They are now afraid they will lose their offices, and are here trying to make influence in favor of retaining them. It is believed their fears are groundless, as those closest to President Arthur have no idea that he pro-poses entering on a policy of ven-geance. These alarmed officeholders are not likely to be disturbed while their commissions hold. When their commissions expire it may be conjectured that they will not stand quite so good a chande for re-appointment as if they had not been so active in their hostilities.

The election of a Democratic member of the House of Representatives from the eleventh New York district destroys the majority of the straightout Republicans, and they will be able to muster 146 votes, one less than a majority. The Republicans here are not very much concerned over this, as they express no doubt of being able to pick up the one vote requisite to constitute a majority without much trouble. They have nine greenbackers, two Virginia readjusters, and one New York independent republicans to recuit from, and their calculations are therefore. and their calculations are, therefore, based on good foundation. Yet if these twelve members, who belong to neither of the regular organizations, were to embine they could dictate their own

The Census of East India.

The details of the new Indian census, taken on February 17, have reached London. The total population of India is 252,000,000, the total population of British India 218,000,000, and the increase since 1871 little less than 13,000,000—a nation in itself—requiring masses of additional food, which we fear are not produced. The separate provinces contain great nations. Bengal proper, with Assam, numbers 78,000,000, or more than double France; Madras, 30,000,000, or more than Italy and Greece; Bombay, 13,000,000, or three Swedens; Oude, 11,500,000, or three-fourths of Spain; the Punjab, 29,000,000, or the population of Great Britain; and the northwest provinces, 32,000,000, or nearly as many as the The details of the new Indian census, the description must be very rich. He also showed us a map of the Parker mine, in Stanly county. This property adjoins the Crowell, and is very rich in placer gold. Nuggets from 1 dwt. to 6 pounds have been taken from this mine.
