The Attorney General of Minnesota has decided that women are elegible to the office of county superintendent of schools.

A correspondent of the Nashville American states that from conversathat the South, instead of the West, will absorb the cream of immigration. The railroads now penetrating this region, as great syndicates, will be of inestimable value to this section.

The Supreme Court of Pennsylvania, in a case decided at Pittsburg, Monday last, sustained the wholesome principle that a juror to be competent need not of necessity be an ignorant man who does not read the newspapers and forms no opinion of what he reads. It is only necessary for the juror to be able to decide according to the evi-

Louisville Courier-Journal: - Some of our Republican contemporaries attribute the failure of the Government in the Star-route prosecutions to the "blundering of officials." It looks very much like it when the cases were adjourned so that the statute of limitations would act on them; but it dose not look very much as if the "blundering" was intentional?

The Wilmington Star doesn't get alarmed over the prospect of the waters of the earth drying up some 5,000-000 of years hence and says, "that's not the way the end will come. It is not drought but fire that will renovate and destroy." It seems to us they will have to get rid of some of that water before they can have much of a bon-

The Galveston News calculates that ing \$27,850,000, not including equipment. The News estimates the cost at the low figure of \$10,000 per mile. During the twelve months ending September 1, 1882, it estimates the new railroad to be laid down at 2,228 miles against 1,634 for the preceding twelve months ended September 1, 1881.

The National Tariff Convention to be held in New York city on the 29th and 30th instant is creating great interest throughout the country. Over 450 delthan \$100,000,000 worth of capital invested in manufactures will be present, while mechanical labor and farming interests will be equally well represented. United States Senator Warner Miller, of New York, will be permanent chairman.

Some time ago, Jesse Baldwin, of Youngstown, Ohio, who held forty thousand dollars of Government bonds, went to Washington and presented his bends for payment. He demanded gold, got the gold and went home. A few nights ago five burglars entered his house, blew open his safe and got something over \$30,000 of it, and then stole his carriage and horses and made good their escape.

We suspect there is not a parallel in the history of Southern newspapers for the remark of Father Evans, of the Milton Chronicle, that for 40 years he has printed papers in that town! Forty years! It is more than a generation. And our old friend, whom we have never seen, but whom we esteem, makes as sprightly a paper as if forty were the days of his own years.—Farmer and Mechanic.

Yes, and we are 75 per cent. poorer te-day than when we commenced publishing this paper.-Pather Evans in Milton Chronicle.

This would be a sad comment on North Carolina journalism were it not that the publication of a newspaper, like any other business, is a pecuniary success only when it supplies the demand when there is a demand. Mr. Evans acknowledges a pecuniary failure, and yet he has done more for North Carolina, and especially for his immediate community, than any forty men in it. In Gov. Holden's address he was denominated "a capital editor," and such he undoubtedly is, and it really seems sad that after forty years' service he is forced to the confession that his life has been a pecuniary failure. An evidence too, of the lack of appreciation on the part of those to whom this service of forty years was given.

WHAT THE RICHMOND AND DAN-

VILLE BAILWAY IS DOING. We publish to-day from the Atlanta and Courier, a letter showing what the Richmond and Danville Railway company is doing in the way of making an exhibit of the products of the country along its lines, and a splendid exhibit is is, one which gives distinction to the section represented and reflects credit upon the foresight, energy and enterprise of those making the exhibit According to the uniform accounts there never was gathered at any one place such a magnificent collection of the woods and minerals of any section, astonishing to strangers and equally astonishing to those who have been familiar with this section all their lives, but who had no realization of its splendid resources because no systematic effort was ever before made to thus group them. It was a wise move on the part of the Richmond and Danville to give its stiention to this matter. for in showing up the vast resources it invites enterprise and capital, and thus in the end may be compensated in a material way and while our particular section is to be congratulated upon the brilliant display made, the company which undertook the labor and expense of it is also entitled to congratulation for the eminenl success it has achiev-

THE MOVE ON THE SOUTH.

Every day but strengthens the conviction that the policy pursued by the administration in Virginia is but the initial step in the programme that is to be played in several of the Southern States. The advices from Washington all point that way, and the utterances of leading Republicans and the gatherings of prominent Southern Republican politicians at Washington corroborate them. The success of the coalition with the Readjusters in Virginia has been so decided as to encourage the attempt in other Southern States, where, though the same favorable conditions tion with prominent Northern men re- do not altogether exist, there is still turning from Atlanta, he is satisfied ground for the belief that much may be accomplished.

The New York Herald of Tuesday, commenting on the course pursued in Virginia by the administration, discourses thus, and while we do not look upon the Herald as very reliable political authority, yet it is in a position to be informed on the question of which it accord. speaks, and hence its utterances are worthy of note:

Will the Mahone victory in Virginia break the solid South? It depends somewhat upon whether in other Southern States the Independents, who are already a numerous body, can have courageous and pertinacious leaderships, such as the Virginia Independents.

In Alabama the Independents have elected Congressmen and have polled a strong vote. In Arkansas, Georgia, Tennessee and Mississippi they have made a good fight, sometimes on local and sometimes on State or Congressional tickets. In all these States the Republican office-holders have either fought shy of the Independents or op-posed them outright. They have done this out of a desire to secure the Federal offices to themselves, and the Federal administration has usually encouraged them in this. Thus there have been usually three parties, and the Democrats have carried the day. It is now generally believed that different and we think a wiser policy; that he will not reward the Republican Bourbons for playing into the hands of the Democratic Bourbons, but will 'recognize," as it is called, all the reputable elements of opposition to the Democrats in the Southern States. The Virginia Democrats complain bitterly that the President thus "recognized" the Mahone Independents. But why not? Mr. Arthur had the duty of se-December 31, 1882, there will be built to the public was to select honest and the government. e men: his right, bearing this public duty in mind, was to select such men from among those who agreed with him in policy rather than from those who were opposed to his policy. Even the most rigid civil service re-

formers would not deny the President this right of selection. Now Mr. Arthur was wise enough to see, apparently, that to appoint only Republicans in Virginia was to openly cast the weight of the Federal adminsitration on the side of a parcel of politicians who had or expected no power or influence in the State, and who desired to maintain their separate organization only to serve the Democracts in the State and secure for themselves the egates have already been elected. It is estimated that representatives of more This is what has been done at Washington for the last dozen years, and it has constantly helped to maintain the solid Democratic South. Mr. Arthur, pursuing a different and wiser policy, showed the Independents that they were recognized by him as a valuable political force, and obliged the Republicans, much against their will, to join hands with the Independents, and the result is a political change in Virginia, which we have not the least doubt will be of vast and lasting benefit to the whole State. He has only to follow the same course in other Southern States to see similar and equally necessary and beneficent re-

sults come about there. With proper and entirely legitimate management at Washington the "solid South" can be ground to pieces by next fall and a normal political situation established there; and that is all that is needed to give the Southern States a proper impetus toward great and last-

ng prosperity. The eighth of November made Virginia pratically a Republican State, and however unpleasant the fact is, we cannot shut our eyes to it nor ignore it, if we would. Mahone and his associates have undisputed control of the State for the next four years, and shrewd, able and theroughly unscrupulous as to the means to accomplish their schemes, they will work that State from the seashore to the mountains and effect such an organization within that time as will place than in a fair way for voting in coming contests. By repealing, which they will do, the poll tax requirement to vote, they command the full negro vote, and will be able to control it, and by the distribution of State and Federal patronage they will form a little army of organ-

izers and earnest workers. With Virginia reasonably sure for them, the Republican manipulators will seek other fields for conquest, and we may look for pretty active operations in the near future in several of the Southern States, among which North Carolina will receive no small amount of distinguished consideration.

Prize Fighters Arrested. ERIE, PA., November 17.—Last even-ing Holden and White were arrested on complaint of Sheriff Stiles, of Ashtabula county, Ohio, and committed to jail to await a requisition from Gov. correspondence of the Charleston News Foster. After fighting four rounds, Hamburg Drops in good time, they can save many near Councaut, Ohio, in which White was knocked down several times and one eye partially closed, the deputy sheriff of Ashtabula county endeavor ed to arrest them, but was knocked down and the whole crowd crossed over the line into Pennsylvania. The referee decided the fight a draw.

> A Town Marshal Shot. CINCINNATI, Nov. 17.- The Gazette of Charlestown, West Virginia, says Wm Robinson, a no torious character, of Malden, six miles above Charlestown, shot Town Marshal Allen Beliker Tuesday night, killing him instantly. He also fired two shots at the mayor, but missed him. Robinson was arrested and brought to Charlestown, It was rumored last night that a meb was coming from Malden to lynch the murderer, and the militia company were ordered to be ready to protect him.

DR. C. W. BENSON, of Baltimore, Md., inventor and proprietor of the celebrated Celery and Chamomile Pills. These pills are prepared expressly to cure Sick Headache, Nervous Headache, Neuralgia, Nervousness, Paralysis, Sleeplessness and Dyspepsia, and will cure any case, no matter how obstinate, if properly used. They are not a cureall, but only for those special diseases. They contain no opium, morphine or quinine, and are not a purgative, but regulate the bowels and oure constipation by curing or removing the cause of it. They have a charming effect upon the skin, and a lovely quieting effect upon the nervous system, simply by feeding its ten thousand hungry, yes, in some cases, starving absorbents. They make or create nerve matter and give power, force and buoyancy to the nerves, and in that way increase mental power, endurance and brilliancy of

mind. Nobody that has a nervous system should neglect to take them two or three months in each year, as a nerve food, if for no other purpose. Sold by all druggists. Price 50 cents a box. Depot. 106 North Eutaw street, Baltimore, Md. By mail, two boxes for \$1 or six boxes for \$2.50, to any address.
