Medical.

Aneumausm Neuralgia, Sprains,

Pain in the Back and Side. There is nothing more painful than these diseases; but the pain can be removed and the disease cured by use of Perry Davis' Pain Killer.

This remedy is not a cheap Benzine or Petroleum product that must be kept away from fire or heat to avoid danger of explosion, nor is it an untried experiment that may do more harm than good. Pain Killer has been in constant use for forty years, and the universal testimony from all parts of the world is, it never fails. It not only effects a permanent cure, but it relieves pain almost instantaneously.

Being a purely vegetable remedy, it is safe in the hands of the most inexperienced. The record of cures by the use of PAIN KILLER would fill volumes. The following extracts from letters received show what these who have tried it think:

Edgar Cady, Owatonna, Minn., says:

About a year since my wife became subject
to severe suffering from rheumatism. Our
fesort was to the PAIN KILLER, which speedily
reliaved her. resert was to the PAIN KILLER, which speedily relieved her.

Charles Powell Writes from the Sailors' Home, London:

I had been afflicted three years with neuralgia and violent spasms of the stomach. The doctors at Westminster Hospital gave up my case in despair. I tried your PAIN KILLER, and it gave the immediate relief. I have regained my strength, and am now able to follow my usual occupation.

occupation.

G. H. Walworth, Saco, Me., writes:

I experienced immediate relief from pain in the side by the use of your Pain Killer.

E. York says:

I have used your Pain Killer for rheumatism, and have received great benefit.

Barton Seaman says:

Have used Pain Killer for thirty years, and have found it a never-falling remedy for rheumatism and lameness.

Mr. Burditt writes:

I never falls to give relief in cases of rheumatism.

It sees falls to give relief in cases of rheumatism.
Phil. Gilbert, Somerset, Pa., writes:
From actual use, I know your Paix Killers
is the best medicine I can get,

All druggists keep Pain Killer. Its price: is so low that it is within the reach of all, and it will save many times its cost in doctors' bills. 25c., 50c. and \$1.00 a bottle.

POSTMASTER JAMES' REPORT. We are in receipt of Postmaster the public:

ending June 30, 1881, were \$39,251,736.46, receipts from ordinary business and money orders \$36,785,397.97, excess of expenditures over receipts \$2,466,338.49, to which should be added for bad debts and compromise accounts \$14,790.86, making a total excess of \$2,481,129.35.

ESTIMATES FOR 1883.

The expenditures for the fiscal year ending June 30, 1883, are estimated at \$43,661,800.00, revenues from ordinary business and money orders \$42,741,-722.05, which will leave a deficiency of \$920,077.95. This estimate is upon a basis of an increase of 8 per cent. over last year.

POSTAGE STAMPS, &C. The postage stamps, stamped envelopes, and postal cards sold, aggregated in number 1,504,311,542, valued at \$34,-625,435.91, an aggregate increase of \$2,-538,093.45, or 7.9 per cent. over the pre-

ceding year. POSTAGE COLLECTED ON NEWSPAPERS. The total amount of postage collected on newspapers and periodicals mailed to regular subscribers was \$1,399,048.64, an increase of 172,596.06, or a little over 14 per cent, on the preceding year, nearly three-fourths of this amount is collected from sixteen cities.

The total weight, of this second-class The total weight of this second-class matter was 69,952,432 pounds, or 34,976 tons, and the number of offices at which the matter was mailed 4,821, an increase

of 398 over the previous year. LETTERS MAILED AND RECEIVED. The total number of letters mailed during the fiscal year was 1,046,107,348, of which 3,323,621, or one in every 315 reached the dead-letter office. The total number of letters and packages re-ceived at the dead-letter office of sufficent value to be filed was 3,674,205, an increase of 854,623 over the preceding year. Of these letters 18,617 contained noney amounting to \$40.587.80, 22.012 contained money orders, checks, drafts, &c., to the value of \$1,899,062.51, 33,731 contained objects of no intrinsic value.

The amount of money contained in these letters, for which no owner could be found, amounted to \$6,504.40, which was deposited in the Treasury. REGISTERED LETTERS AND PARCELS. The total number of letters and parcels registered during the year was 8,338,919, consisting of 6,139,297 domestic letters, 645,218 domestic parcels, 312,553 letters and 11,759 parcels to foreign countries, and 1,210,096 letters and par-

cels to the government exempt by law from the payment of registry fees. The fees collected were \$712,882.20, an increase of 117,107.90. or 19.19 per cent. over last year. The increase in the total number of registered letters and parcels over preceding year was \$1, MONEY ORDER OFFICES.

At the beginning of the fiscal year there were 5,829 money order offices, to which 341 were added during the year. Since then 338 were added, making the total number now 5,499. They issued orders during the year to the number of 7,663,232, valued at \$105,075,769.35, and paid 7,627,710, amounting to \$104,-219,871.65. The total amount of registry fees paid by the public to postmasters was \$966,732.75. The receipts as fees from money order offices amount to \$967,772.93; expenditures \$715,458.29, leaving a balance of receipts over expenditures of \$252,314.64.

REDUCTION OF GROSS REVENUE. The gross revenue is \$5,260.44 less than that of 1830, although the receipts are \$48,681.35 greater which is accounted for in part by the readjustment in allowances for clerk hire, and to heav-ier requisitions on the public printer. THE MONEY ORDER SYSTEM WITH FOR-

EIGN NATIONS. The money order system is now in operation with a large number of foreigh nations, and arrangements have been effected by which other countries not already included will be embraced.

REDUCTION OF FEES. The success of the money order system has been such that a reduction of fees is suggested on amounts not exceeding five dollars from 10 c ents to 5 cents, while the maximum limit of orders be \$100, in place of \$50, and that the fees of postmasters for the issue and payment of orders be fixed at 3 cents instead of the present rates. TO MENCLAIMED FUNDS.

The amount of unclaimed money orders domestic and foreign for the year is estimated at \$1,250,000, and he calls attention to the fact that there is no provision under the law by which this unclaimed money can be disposed of, and suggests that it be turned over to the treasury for the benefit of the post-office department. He calls attention to the need of a suitable building at Washington for the transaction of money order business, and recommends ihat Congress be asked to appropriate \$150,600 for the erection of such a building.

POSTAL SURVEY DEPOSITORIES. The postmaster calls attention to the system of postal saving depositories in Great Britain and suggests the establishment of a similar system in this country, where he thinks it would prove of vast inneft.

INLAND TRANSPORTATION.

For with, we will take your case, TO HE FAIL From A Land and the pool of the p

respondence which took place between soldiers in the field and friends, and the stimulation of business interests inci-James' Report, from which we condense the following as of interest to the public:

Stimulation of stabilities interests increases interests in the dent to the war, so that in 1865 the receipts exceeded the expenditures by \$861,430.44. Here was a chance to get FINANCIAL STATEMENT.

Total expenditures for the fiscal year, tage of, for the spoiler and straw-bidder came to the front, and availing them-selves of the opening up of mail routes in the South and Southwest, began the colossal system of speculation and swindling, which has led to such gross scandal and gross frauds upon the government.

> STAR BOUTE REDUCTION. The net reduction in the cost of star route and steamboat service in 1881 has

> been \$1,147,757. INCREASING RAILWAY SERVICE. The constant completion of new rail-roads renders it difficult to bring the de-

partment back to a self-sustaining basis. The amount paid railroads for the year 1881 was \$11,411,120.90, while the cost for the current year will be \$12,-006,601, and for 1883, estimated at \$13,-

MERCHANDISE. The Postmaster says one cause of deficiency now is the cost of handling merchandise sent through the mails, which does not pay for the ex-pense of handling and suggests an amendment of the laws in that respect, and he recommends also a reduction of the cost of transpoorting the mails on some of the railways which are paid too liberally for the service they render. He suggests also a reduction in the salaries of a certain class of postmas-ters and clerks which are too high.

REDUCTION OF LETTER POSTAGE. The Postmaster General thinks that reduction of letter postage from three cents will be possible within three years, and that it can be done without any diminution of revenue, but favors an increase of postage on third and fourth class matter.

MAIL SERVICE.

He devotes considerable space to a review of the mail service, railway and otherwise, and to the subject of additional facilities between the east and the west, on foreign mails, and to the improvement of mail facilities with Mexico, which is now becoming a field for American enterprise.

THE FREE DELIVERY SYSTEM has not only proved satisfactory but the postmaster general thinks it has largely contributed to the revenue of the office, as is shown by the largely increased business in the cities where the free delivery is in operation. He thinks this branch of the service should be fostered and a better compensation allowed to induce competent men to en-

CIVIL SERVICE. The report concludes with some time ly and pertinent remarks on civil service reform, in which he takes decided position against appointments or removals for political reasons, and holds that qualification alone ought to be the standard by which applicants for posi-tions in the department should be judged. He thinks the practical appli-cation of the principles he suggests would "promote public morality, in-crease the economy and efficiency of the public service, and assuage the fury of party spirit, against which Washington warned the country as its chief

NEWS NOTES.

Hon. A. S. Hewitt and Mr. and Mrs. Whitelaw Reid arrived in New York Sunday from Europe.

Mrs Van Alen, wife of J. J. Van Alen and daughter of Wm. Astor, of New York, died suddenly of heart disease, at Newport, R. I., yesterday morning. The court circular announces the be-trothal of Prince Leopold, youngest son of Queen Victoria, to Princess, Helene,

A Sicilian crank named Maccaluso threw a loaded pistol from the gallery of the hall in which the Italian Chamber of Deputies meets at Rome, which dropped to the floor below without expleding. He had designs on the life of Premier Depretes, who was speaking at

R. Shelton Mackenzie, D. C. L., a well known author and journalist, died in Philadelphia yesterday. He was for twenty years or more literary editor of the Philadelphia Press, and more recently was an editorial writer on the Philadelphia Evening News.

The latest Mahone Republican spoken of for a cabinet office is Col. James D. Brady, internal revenue collector for the Petersburg (Va.) district. General Mahone's influence, it is said, is being quietly exerted in his behalf.

Mr. Baldwin, the eccentric old Ohio gentleman whose gold was lately car-ried off by burglars, sends word to the treasury that some 7.30 bonds were also stolen from him, the payment of which he desires stopped.

Senator Hill, of Georgia, has arrived in Washington. Mr. Hill speaks with a perceptible lisp, but he says he has been assured by his surgeons that this will wear off, and that the cancer of the tongue from which he suffered may now be considered as cured.

Mr. Scoville stated, in Washington last Menday, that he expected General. Benjamin F. Butler would take part in the defense of Guiteau before the trial is over. Senator Logan, of Illinois, has been subpossed by the defence to prove the insanity of Guiteau, as he is understood to have expressed his belief to Take STM ONE LIVER REGULATOR.

On June 30 there were 5,156 contractors for the carrying of mail on inland routes. There were 11,592 routes, of which 1,194 were railroad routes, aggregating 344,006 miles at an annual cost of \$19,323,300. Adding to this the cost of route agents, poetal clerks, etc., the total cost will be \$22,196,032.

Should be self-sulfaced in may expressed his belief to Take BIMMONS LIVER REGULATOR.

The Unrepean Timber Supply. The timber trade of Europe shows the same excess of demand over the supply that exists here. Sweden and Norway, which still do a large export trade in deals, are now compelled to buy their oak in Poland; and in Russia the ALL WOOL BLACK BUNTING AT 15 CENTS PER YARD. forests along the shores of the Baltic. in Finland, and in the southern provinces. are so rapidly thinning that the forest acreage of the empire is now only one in ten. There are about 34,000,000 acres of forest in Germany (of which 20,000,000 are in Prussia,) estimated to be worth £500,000,000, and bringing in an income of £10,000,000 per annum.

The state forests are taken great care of in all parts of Germany, in Prussia alone £100,000 being spent every year in replanting. The imports of timber exceed the exports by over 2,000,000 tons. The oak and beech are the kinds of trees which do best in Denmark, but the timber trade of that country is very small. In Germany, as mentioned above, the imports exceed the exports; but in Austria-Hungary the latter are £4,000,000 more than the former: while in France the annual imports are esti-mated at £88,000,000, and the exports £1,200,000; and in Belgium at £1,760,000 and £120,000 respectively. England buys about £10,800,000, and Holland about £2,000,000 per annum; so that the imports into Western Europe may be put at £36,000,000, taking one year with

Failure of a Large Liquor House. MEMPHIS, Nov. 23.-E. Whavring & Co., St. Louis, and Lansing, Haynes & Co., Memphis, wholesale liquor dealers, made an assignment yesterday in St. Louis. The branch house here sold out Monday to R. L. Billingsly, of St. Louis, to secure a note of sixty thousand dollars. The indebtedness of the firm is not known but is said to be one hundred and twenty thousand. dred and twenty thousand. Assets estimated at \$38,000.

OUR PREPARATIONS FOR THIS SEASON'S

TRADE BEING NOW

ENTIRELY COMPLETE.

WE cordially invite our friends and the public generally to an inspection of the attractions displayed, confidently asserting that they will be found in every respect up to the standard. In submitting this we would call special attention to the styles of our own design and manufacture, which we constantly keep on hand during the entire season. We are justified in asserting that the long experience and standing of our House, is a full guarantee that our Clothing is the most reliable. The arments of our own manufacture are strictly first-class. We are constantly and carefully studying the demands of our patrons, and invariably insuring them absolute bottom prices. Our object has always been to bring about a display every season of a full line of garments of the newest styles. The workmanship of our Clothing is equal to any of the best in the country. We don't say that our productions are superior to all others; we are reasonable and never exaggerate; we tell every customer the truth, allowing no one in our employ to do otherwise, or in any instance to misrepresent goods in order to accomplish a sale. Our endeavor is to please, and to give to each customer the value of every dollar he leaves with us. Our line of GENTS' FURNISHING GOODS is complete in all branches. NECK WEAR A SPECIALTY.
