THE PRESIDENT'S MESSAGE

PLenty at Home and at Peace WITH ALL MANKIND

Our Relations with Foreign Nations

To the Senate and House of Representatives of the United States

An appalling calamity has befallen the American people since the election of our present Chief Magistrate...

THE PRESIDENT'S MESSAGE

PLenty at Home and at Peace WITH ALL MANKIND

Our Relations with Foreign Nations

To the Senate and House of Representatives of the United States

An appalling calamity has befallen the American people since the election of our present Chief Magistrate...

The feeling of good will between our own government and that of Great Britain was never more marked...

Save for the correspondence to which I shall refer hereafter in relation to the proposed canal across the Isthmus of Panama, little has occurred worthy of mention in the diplomatic relations of the two countries...

The neighboring States of Central America have preserved internal peace and their only relations to us have been those of intimate friendship...

The King of the Belgians, the King of Spain and the president of the Argentine Confederation...

No new questions respecting the status of our naturalized citizens in Germany have arisen during the year...

The participation of the descendants of Baron Von Steuben in the Yorktown festival...

The Senate and House of Representatives of the United States...

New Lines in the Southwest

Gen. G. M. Dodge, president of the Pacific Railway, American and International and Great Northern Construction Companies in an interview, gives the following facts concerning the building of railroads in the Southwest...

Death of Gen. Kilpatrick

WASHINGTON, Dec. 6.—The American consul at Valparaiso, telegraphs to the State Department that General Kilpatrick died at Santiago on Sunday last.

Curious

James River (Va.) Herald.

Mr. Elmer Steele while sinking a well for one of his new mills in a piece of ground near Spring Grove, from which the original growth of timber had been cut twenty years ago, found three large gum trees at a depth of sixteen feet below the surface of the ground...
