THE existence of small pox as an spidemic in many sections makes it my duty to again urge upon all our citizens the duty of vaccinating. Our daily intercourse with all sections of the country exposes us to its contact. Don't wait until this pestilence is in our midst to take steps to prevent its spread. I have ordered vaccine matter and ask our physicians to use it in vaccinating those who are not able to pay. Let this matter have the prompt attention of every household.

The other wound was of a more serious nature, the ball having penetrated the outside of the thigh a little above midway, and passed beyond the bone to the inside, where it still remains, the physician postponing its extraction until to-day. While the woman's injuries are of a painful character, they are not thought to be

dangerous. The cause of the shooting is reported to be on account of the Adams woman's intimacy with Orr's father, and it is said that the boy committed the deed through consideration for his mother. The shooting was done evidently with the intention of killing, and the boy no doubt deliberately made up his mind to it. The case will be investigated to-day before Justice Waring, when all the particulars will be had.

ANNUAL REPORT

Of the Board of Managers of the Charlotte Home and Hospital for the Year 1881.

Below will be found the report of the ures 281/4 inches around one way, and board of Managers of the Charlotte 24 the other. Truly this is the big tur- Home and Hospital for the year just

From January 1st, when the former matron left, until May 16th, the Home was closed, awaiting a suitable person to take charge. During this time several applicants for admission had to be refused. The Home was reopened May 16th. In the seven and a half months since, 9 patients have been treated; three females and six males, for an aggregate of 275 days. One man, G. W. Jacobs, who had been an inmate of the Home a large part of the past two years, was readmitted July 4th, very ill. He was baptised by Rev. Mr. Cheshire Aug. 21st, and died Sept. 25th, in the comfort of a reasonable, religious and holy hope. His long illness of 83 days was rendered comfortable and peaceful by the care he re-

Another man, James Murphy, friend-less and helplessly ill, was admitted Aug. 19th, and died Sept. 26th. He was a Roman Catholic, and the members of that church were very kind to him in his illness and his burial.

The Home was so crowded for several months that the managers felt compelled to finish the building, as at first plan-ed so as to increase the accommodahe was now to preside. Bishop Nor-throp spoke briefly and was greatly aftions. The work is now going forward.

For this building \$475 has been col-lected, over \$200 of which has been given by friends in New York in 1880 and In October last, a considerable addition to the monthly subscription list was obtained in Charlotte by the kind efforts of the Rev. Lucien Holmes. At present these subscriptions go to the

Fund..... 5.10 \$423.40 Balance carried to 1882. It seems almost incredible that so much can be accomplished, so much relief given with so small a sum (\$163.30,) but such is the fact. Managers and matron practice the closest economy compatible with the needs and comfort of the patients; the medical service is labor of conducting and overseeing the

institution by the managers. The result shows that a number of fits. It is hoped that in the coming year more friends will come to its support. The sums now subscribed vary from 25 cents up to \$1.00 monthly. Surely more can spare this small amount to help the friendless and sick

Besides subscriptions, the Home has received some donations and much kindness. The merchants who furnish the supplies of all kinds generally allow a discount on their bills. The Hornets' Nest Riflemen sent a generous quantity of provisions. The Rev. Wm. R. Atkinson and Dr. Bidez gave to the Building Fund the proceeds of a concert at the Young Ladies' Institute, amounting to \$80, and Calvary Church, Tarboro, sent a Thanksgiving offering of \$56 45. The Home also received two valuable boxes through the Woman's Auxiliary Mission of the Episcopal Church. One was sent by seven parishes of the diocese of Ohio, through Mrs. Leslie, of Cleveland. The other was sent from Emmorton, Harford county, Md., through Mrs. Brand. Both contained sheets, pillow-cases, clothing, and other necessaries. and other necessaries.

In closing this report the managers desire to thank most gratefully, all who have co-operated with them in sustaining this Institution; and to acknowledge most heartily and humbly the goodness of God, who has so blessed and sustained this effort to do good.

To Him be all the glory. Amen.

Bad Streets. To the Editor of The Observer: I have never seen our sidewalks in a worse condition than they are now.

At the corner of Dr. Witherspoon's lot the property is actually worth. The terms of sale were one-tenth cash, balance in two equal instalments at one corner; I mean on Tryon street. can't see where the \$25,000 was spent. No improvement has been made on the south end of Tryon. I learn most of the money is spent in making stone culverts in the northern part of the city. Good plank culverts, 3 inch plank, don't cost one-tenth as much and are better, for you can raise them and clean out the culvert with little trouble and no expense. As an exam-ple, the stone culvert at Dr. Bratton's corner and the one at L. W. Sanders' whenever a hard rain occurs are overdowed and the water runs over the pavement. To take up stone culverts and clean them out is expensive. In Atlanta sidewalks are made some with 3-inch plank put on stringers—a small space between the plank. When put down with good heart lumber they will last longer than our brick or wooden pavements, and are much cheaper. I hope the city fathers and mayor will do something for sidewalks.

COMPLICATIONS.
