BUSINESS NOTICES.

Hayesville, Ohio, Feb. 11, 1880. I am yery glad to say I have tried Hop Bitters. and never took anything that did me as much take \$100 for the good they did me. I recommend them to my patients, and get the best results from their use.

C. B. MERCER, M. D.

SEE HERE.

You are sick; well, there is just one remedy that will cure you beyond possibility of doubt. If it's Liver or Kidney trouble, consumption, dyspepsia, debility. Weil's Health Renewer is your hope. \$1. bruggists. Depot, J. H. McAden, Charlotte, N. C.

Mothers! Mothers!! Mothers!!!

Are you disturbed at night and broken of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of MRS. WINSLOW'S SOOTHING SYRUP. It will relieve the poor little sufferer immediately—depend upon it: there is no mistake about it. There is not a mother on earth who has ever used it, who will not tell you at once that it will regulate the bowels, and give rest to the mother, and relief and health to the child, operat ing like magic. It is perfectly safe to use in all cases, and pleasant to the taste, and is the pre-scription of one of the oldest and best physicians and nurses in the United States. Sold everywhere, 25 cents a bottle.

The ladies who sometime since were unable to go out, having taken Lydia E. Pinkham's Vegetable Compound are quite recovered, and have gone on their way rejoicing.

I.r. C. W. Benson, of Baltimore, Md., prepares a skin cure that is the best thing for skin diseases ever known. It cures eczema, tetter, ring worm and all rough and scaly skin diseases in the shortest time. Sold by all druggi-ts at \$1 per pack-

To promote a vigorous growth of the hair, use Parker's Hair Balsam. It restores the youthful color to gray bair, remove dandruff, and cures tching of the scalp.

Dr. N. L. Galloway, Monroe, Ga., says: S. S. S. Stanos without a peer, the profession will have to acknowledge it a specific for blood diseases.

Notice to the Public.

HOME CHIPLETS.

Mr. John C. Scarborough, State Superintendent of Public Instruction was in the city yesterday.

Rumor has it that one of Charlotte's wealthiest citizens will soon change his home to New York city.

图 There will be an important meeting of Charlotte LodgeKnights of Pythias held at the cotton office of Mr. J W. Miller, this evening at 7 o' l ck.

If there is to be any mud-throwing between the citizens and the city authorities, we would suggest the present as a most suitable time-plenty of material, literally speaking.

The ordinance against cock fighting having been repealed by the board of aldermen Monday, we may expect soon to have some of this kind of sport. It was a 5 to 6 case, and 6 won.

LTA Charlotte merchant of some reputation as a marksman has aspirations in glass-ball rifle shooting. His third effort was 7 out of 10 balls, and he is considerably puffed up over his skill.

A subscriber at Davidson Colege complains that THE OBSERVER of Sunday is never received at that office until the Tuesday following, and sometimes it fails to reach that office entirely. Of course such a state of affairs is appreciated alike by publisher and

Superior Court.

But little business of public importance has been transacted by the court during the past two days. On Monday one jury case was tried, that of Culp vs. the Air-Line Railroad, an action for damages, in which a verdict was given in favor of the road. The greater part of yesterday was spent in the case of the Bank of Georgia vs. Beall, in which case a mistrial was had.

Habeas Corpus Case.

A writ of habeas corpus was yesterday sued out in behalf of Manlius Howie, who was placed in jail by the coroner last Saturday on a charge of refund the tax erroneously collected on instigating the murder of Harvey 50 shares of bank stock belonging to L. Phillips. The writ was heard before | W. Barringer. Judge Bennett, who considered the evi-

A Muddy "Varse." The following is given as appropriate to the present condition of things: Oh, isn't it beautiful? Look at it! Gaze at it! Look at the many-hued, ptcturesque mud.

Spread in assorted lots, retail and wholesale-A second edition, in fact, of the Flood. Dirt and rain ever, no changes, small promise Won't it in time, as thing, go, be our luck

For Nature, adapting us to our surroundings, To web-join our toes as she's done with the duck Instead of wating for nature to adapt us to our surroundings by web-joining our toes, the suggestion has been made, that the difficulties environing us might be surmounted with the aid of Dr. Asbury's flying machine. Had he been ready to take orders his fortune would have been made within the past three weeks, and the "flyers" wouldn't care a continental whether culverts are

made of plank or rock. The Shooting Case.

The preliminary hearing of the case of Martin Orr, for shooting Sue Adams, did not take place yesterday, as it was deemed best to postpone the matter until to-day, when a better understanding of the probable result of the injuries inflicted can be arrived at.

Yesterday morning Dr. O'Donoghue extracted the ball which lodged in the thigh of the woman, and it was found, in accordance with the opinion previously expressed, that the bone had not been injured by the missile. The ball was perfect in shape with the exception of a slight reduction in size, by reason of being forced through the barrel of the pistol. The opinion is expressed that the woman is in no danger, so far as present indications show, and it is likely Orr will be released on

It is stated that the husband of the wounded woman went to the court house yesterday and asked that Orr be released, a fact which goes far towards the justification of the shooting, if the act be justifiable. The husband of the woman is said to be a man of good character, and it is alleged that he left town and settled in the country on account of the disreputable conduct of

An Important Capture.

For sometime past a systematic stealing has been pursued at the car shed of the Air-Line road in this city, the thieves operating so successfully as to be able to carry on their nefarious occupation over a considerable period of time. The railroad officials have kept quiet about the matter, but have put forth efforts to capture the thieves which have just been successful, and night before last three of the depredators were safely lodged in jail, and a large amount of the spoils recovered. The goods stolen were taken from unloaded freight cars at the depot, and the parties arrested the other night were found to be in possession of articles missed from the cars. The names of the guilty parties are John Wilson and wife and Alex. Rouse. The latter is held for having hauled the stolen goods to the house of Wilson, which is located in that portion of the city lying out near the Rudisill mine.

Constable Orr made a raid on the premises on the night in question, and identified by Mr. T. T. Smith, the agent of the Air-Line road, as the property taken from the freight cars of that road: 300 to 400 pounds of cotton yarn, one full box of tobacco and two boxes partly filled, two baskets of boots and shoes, twelve tin dippers, a large quantity of bell cord, 75 to 100 books and novels, toys, etc., the total value of

a place of safety.

CITTY MATTERS.

Menthly Meeting of the Board of

Aldermen. The board of aldermen met in regular monthly session Monday evening, with the following present: the Mayor, Aldermen Scott, Miller, Long, Schenck, Smith, Walker, Adams, Allison, Wilkes, Hutchison and Osborne.

The finance committee asked to be given until next meeting to report on the application of Lee & Co., cotton buyers, to have their cotton tax refunded.

The Mayor stated that as soon as the weather became more favorable the street committee would put up the posts to mark the boundry line of the city in accordance with the recent survey made. He also stated that the committee appointed at last meeting to ascertain what hose was needed for the fire department had postponed action until after the completion of the waterworks hydrauts, so that a proper knowledge might be had of what will be required.

The mayor also stated for the information of the board that the Supreme court had decided in favor of the city in the graded school case, since the publication of which fact the graded school commissioners had met and organized.

The question of the condition in which the streets were left by the water work's contractors after laying the pipe, was discussed at some length. The provisions of the contract require that the streets shall be left in as good condition as before work is commenced. The street committee was request-

ed to confer with the contractors in relation to this matter and request an observance of the provisions of the con-Several petitions for the placing of lamps at various points in the city were referred to the street committee.

street committee was instructed to report some plan for the improvement of side-walks beyond the fire limits. The city Treasurer was authorized to

The matter of the claim of J. B. dence insufficient to warrant Howie's Rooke, the former keeper of the cemedetention, and he was accordingly dis- tery, which has been in controversy for charged. It is stated that the coroner some time, was reported upon by the has new evidence against the accused, special committee appointed for the but of what nature or importance is purpose, with the recommendation that in consideration of the long service of | tion. the former keeper he be allowed a sum not exceeding \$100, which recommendation was adopted, the keeper to surrender all so-called claims against the

Alderman Walker moved the repeal of the ordinance prohibiting cock fighting in the corporate limits of the city, which was discussed at some length and finally adopted by a vote of 6 to 5. The following voted for the repeal of the ordinance: Aldermen Schenck. Smith Long, Walker, Adams, Allison. Those voting against the repeal were Aldermen Wilkes, Scott, Miller, Osborne, Hutchison.

In response to the inquiry by Alderman Hutchison as to whether the board has power to make vaccination compulsory, the mayor stated that he was of opinion that the board did not have such power.

On motion of Alderman Long the mayor was authorized to secure and furnish such building as may be necessary to use as a hospital in case of the appearance of small pox in the city.

The Mayor was authorized to employ physicians to vaccinate all the pupils, (who will consent to it,) at the several public schools in the city, said service to be performed free of charge to those desiring it.

The Waterworks and the Streets.

It is due the contractors of the city waterworks to state that the cause of complaint in relation to the condition of the streets as left after the pipe-laying is due in a measure to the state of the weather. Had macadamizing been replaced when the ditches were filled the gravel would now be ground into the earth by the passage of vehicles over the track of the pipe, and it can be seen at a glance that the work can be done to much greater advantage after the weather settles than at present. There has been no time since the work was commenced on the streets which has been suitable for the replacing of the gravel and broken stone in a manner that would give satisfaction, but it is safe to say that this important pro. vision in the contract will be duly carried out.

Investigating Frauds in the Sixth District

WASHINGTON, Jan. 17.- The sixth collectorship district fight has gone to Congress. To-day Armfield offered a resolution in the House to appoint a committee to inquire into frauds alleged to exist. It is of a most searching character and was referred to a committee, Republicans objecting to its

Senator Vance introduced a resolution that passed, asking for all orders issued by Mott. This has special reference to the orders of Mott instructing deputies not to make arrests for violating internal revenue laws. The fight is В.

North Carolina Manufacturers

The energy and shrewdness of the people of this State are evidenced in the great number of small mills that have been built since the war. More than eighty cotton factories, great and small, are now running, all of which, in addition to the thieves secured the following property, all of which was mall shareholders living in their immediate neighborhood. In other words the profits of the cotton patches are invested in mills, that the planter may make additional gains by converting his staple into yarn. Without an exception these mills have prospered, and many new ones are now building. For these the many rivers flowing from the mountains to the sea furnish an unlimited supply of water-power. Among the textiles exhibited by North Carolina at Atlanta were soms fine blankets which reaches perhaps \$300 or \$400. It | made at mills in Surry county. These is understood that yesterday Wilson mills find a home market for their enconfessed to stealing the articles. The tire production, and have never been confessed to stealing the articles. The goods, of which there were enough to fill a one-horse wagon, were taken charge of by the officer and removed to the country, but they have not sufficient capital to take all that is offered. The fleeces are from Merinos offered. The fleeces are from Merinos and Southdowns, both of which breeds Coffee drinkers should read the advertisement another column headed "Good Coffee."

of sheep do well everywhere in the State.

REPLY TO "CITIZEN."

The Mayor Makes a Few Remarks on Street Improvements. To the Editor of The Observer. I subscribe fully to the doctrine of

the accountability of public officers to the people, and I am not averse to fair criticism. In reply to "Citizen" I will say many of our streets are in a deplorable condition, and I know of but one way to permanently improve them. I am in favor of increasing the tax from 65c. to a dollar on the hundred, and of spending this increase in the permanent improvement of our streets. I am also for curbing and paving some of the streets and requiring the property owners to pay half the expense of doing so, as our charter gives us authority to do. This, I think, in a few years will give us fair streets without incurring a

I am always ready to hear suggestions and complaints about the condition of the streets, but it is evident "Citizen" had some other object in view Instead of saying "I can't see where the \$25,000 is spent," why didn't he go to the Treasurer's office and inform himself; he would there have found that for a number of years expenditures for street purposes have been a little over \$6,000 a year.

There are nearly forty miles of streets in the city, and the city has eight men with carts and wagons to keep them in repair. In addition to these necessary repairs, every person who takes interest enough to observe what is being done, has noticed much work done of a permanent character.

Of one thing I can assure "Citizen," none of the \$25,000 has been spent in payment of grossly exorbitant demands for laying off or widening streets. If some of the money heretofore spent in this way had been applied to making a crossing at 1st street, and at Major Springs' corner, your correspondent might have been saved his complaint. "I learn," he says, "most of the money is spent in making stone culverts in the northern part of the city." The intimation here is that most of the work has been done near where I live. This is a mean and false insinuation, as can be learned by conferring with the street commissioner.

I think the community is to be con-On motion of Alderman Scott the gratulated for having discovered the right man for the office of mayor; his brilliant conception of wooden culverts being better than stone, entitles him to public recognition. Everybody knows these wooden boxes were used time out of mind, and their insecurity and constant decay made it necessary to replace them with stone. The trash from the streets drifting against the mouth of these culverts makes the overflow, and not that the culverts cannot be

-FOR NEW YEAR'S PIESEN IS.-

THE existence of small pox as an epidemic in many sections makes it my duty to regain urge upon all our citizens the duty of vaccinating. Our daily intercourse with all sections of the country exposes us to its contact. Don't wait until this pestilence is in our midst to take steps to prevent its spread. I have ordered vaccine matter and ask our physicians to use it in vaccinating those who are not able to pay. Let this matter have the prompt attention of every household. F. S. DeWOLFE,
