Rheumatism

Neuralgia, Sprains,

Pain in the Back and Side.

There is nothing more painful than these

diseases, but the pain can be removed and

the disease cured by use of Perry Davis' Pain

Killer.

This remedy is not a cheap Benzine

or Petroleum product that must be kept

away from fire or heat to avoid danger

of explosion, nor is it an untried experi-

ment that may do more harm than good.

Pain Killer has been in constant use

for forty years, and the universal testimony

from all parts of the world is, it never

fails. It not only effects a permanent cure,

but it relieves pain almost instantaneously.

Being a purely vegetable remedy, it is safe

in the hands of the most inexperienced.

The record of cures by the use of PAIN

KILLER would fill volumes. The following

extracts from letters received show what

those who have tried it think.

Edgar Cady Owatonna, Minn., says:

About a year since my wife became subject

to severe neuralgia of the face, which

rendered her life a misery.

Charles Powell writes from the Salt Lake

Home, London:

I have used three years with neuralgia

and violent spasms of the stomach. The doctors

of Westminster have done me no case in

deceit. I tried your PAIN KILLER, and it gave

me the relief I have longed for. My strength

is now as it was, and I can follow my usual

work.

G. H. Walworth, Saco, Me., writes:

I experienced immediate relief from pain in

my head by the use of your PAIN KILLER.

E. York says:

I have used your PAIN KILLER for rheumatism,

and have received great benefit.

Darwin, in his new book, estimates that there

are in gardens 58,767 worms to the acre. This

talks with our count when we want to get rid

of them and didn't care a nickel about finding worms;

dictates a dose of worms to the acre. They

ITEMS OF INTEREST.

The Maori Christians of New Zealand

show great zeal and diligence in building

churches. Six new churches were

finished by them during 1881, and four

more are in progress.

A Scotch Baptist church is said to

have been organized in Patagonia.

There are Chinese Baptist churches in

Guiana, and a French one in the

Argentine Republic.

Blackwood having accused Mr. Gladstone

of being a "blood-guiltiness," it has been

discovered that it occurs in the fifty-first Psalm.

Statistics show that women commit

suicide most frequently on Sunday.

It is only ten years since that in

France the science of geography came

to be considered of no account.

At the funeral of Chief-Justice Pierpont

of Vermont, at Vergennes, the

preacher caused some resentment

among the mourners by expressing

sorrow that the deceased had "never given

expression to those views which are

considered necessary to the Christian."

It is said of the crown jewels of Eng-

land that when they are used by the

Queen on occasions of state they are

conveyed from the Tower in a cab un-

der care of two constabulary men, and

being carried in a being built

around it, preparatory to the raising of

blended stock on a large scale.

A factory will be established at New

Orleans to prepare cotton-seed oil for

cooking, illuminating and lubricating

purposes.

A Couple of Virginia Sensations.

New York, Jan. 21.—A Lynchburg,

Va., special states that the body of a

young woman named Fleishman,

which was buried about January 1st,

near Pamplin depot, in Appomattox

county, was taken from the grave and

carried away without any clue being

left as to the motive of the deed or

perpetrators.

Another Lynchburg special to the

Herald tells a strange and doubtful

story of the murder of a woman near

Central station in that county,

on the Norfolk and Western Railroad,

last Wednesday. On that day the wo-

man, whose name is not given, received

a sum of money and was known to

have in her pocket a lady lying

dead on the ground. She was taken

to her house. A gentleman occupied a
